The Vice-Chancellor of The Tamil Nadu Dr. MGR Medical University has taken the initiative to engage in collaborative research with Bharathiyar University. The Vice-Chancellor of The Tamil Nadu Dr. MGR Medical University has taken the initiative to engage in collaborative research with Bharathiyar University. As of November 1, 2023, approximately 25 project proposals have been received from Bharathiyar University. Experts from various medical colleges gathered to discuss the feasibility of conducting research at our affiliated institutions, with the Vice-Chancellor presiding over the meeting.

During this meeting, the Vice-Chancellor emphasized the importance of collaboration with Bharathiyar University, stating their need for innovative ideas across various fields while also highlighting the necessity of obtaining clinical samples for their research. Each project proposal was thoroughly discussed, and experts shared their insights on the feasibility of each research endeavour. The consensus was that they are willing to collaborate with Bharathiyar University. The special guest Prof.Dr.Kalidas Dattatraya Chavan M.D FM PhD DSc, Dean, ESIC PGIMSR Medical College shared his expertise in research. The vice-chancellor after in-depth interactive session in acceptance with expert members decided to convene the next meeting tentatively in two weeks time.

VICE CHANCELLOR WITH EXPERT MEMBERS OF THE COLLABORATIVE RESEARCH
