

**The Tamil Nadu
Dr. M.G.R. Medical University, Chennai**

Notification

Chennai 2013

In exercise of the powers conferred by Section 44 of The Tamil Nadu Dr. M.G.R. Medical University, Madras, Act 1987 (Tamil Nadu Act 37 of 1987), the Standing Academic Board of The Tamil Nadu Dr. M.G.R. Medical University, Chennai does hereby make the following Regulations on the basis of the Homoeopathy(Post Graduate Degree Course) M.D.(Hom) (Amendment) Regulations 2012 of the Central Council of Homoeopathy.

PART – I PRELIMINARY

1. Short title and commencement :-

- i. These Regulations shall be called “Homoeopathy (Post Graduate Degree Course) M.D. (Hom.) Regulations 2012 of The Tamil Nadu Dr. M.G.R. Medical University, Chennai.”
- ii. They shall come into force with effect from the academic year 2012-13.
- iii. The Regulations and the syllabus are subject to modification by the Standing Academic Board from time to time.

2. Definitions:- In these Regulations, unless the context otherwise requires:-

- a) “Act” means the Homoeopathy Central Council Act, 1973 (59 of 1973) got amended in 2002.
- b) “C.C.H.” means the Central Council of Homoeopathy, New Delhi constituted under the Act.
- c) “Course” means a course of study in the subjects referred to in Part II of these Regulations.
- d) “MD (Hom.)” means a post graduate degree in Homoeopathy (Doctor of Medicine in Homoeopathy) as prescribed in these Regulations.
- e) A ‘Degree in Homoeopathy’ means ‘BHMS’ or its equivalent declared there to by the CCH.
- f) “Homoeopathy college” means a Homoeopathic medical college or an institution affiliated to a University and recognised by the Central Council of Homoeopathy and the Central Govt. for degree course in Homoeopathy.
- g) “Schedule” means the Schedule annexed to the said Act;
- h) “Syllabus & Curriculum” means the syllabus and curriculum for different courses of study as prescribed by the University under these Regulations;
- i) “Teaching Experience” means teaching experience in the subject concerned in a Homoeopathic College and includes teaching experience in the subjects of Medicine, Surgery, Obstetrics and Gynaecology gained in a Medical College, recognized by the Medical Council of India.

PART II - COURSES OF STUDY

3. Post graduate degree (Doctor of Medicine in Homoeopathy - MD (Hom.)) courses shall be in the following:

<u>Subjects</u>	<u>Title of the Degree</u>
i. Organon of Medicine	MD (Hom.) Organon of Medicine
ii. Materia Medica	MD (Hom.) Materia Medica
iii. Repertory	MD (Hom.) Repertory
iv. Practice of Medicine	MD (Hom.) Practice of Medicine
v. Paediatrics	MD (Hom.) Paediatrics

4. Duration of the Course

The course shall be of 3 year's duration having two Parts I & II, each of 18 months duration. The first 12 months of Part I course shall be devoted to House Job.

5. Minimum No. of Working days of the Course

Each Part of the course shall consist of not less than 360 working days.

6. Maximum Period for completion of the course:

The maximum period allowed for completion of the course is double the duration of study of MD (Hom.) degree course as per University norms.

7. Commencement of the Course

The academic year for MD (Hom.) course shall commence from 1st June of the year.

8. Medium of Instruction

English shall be the medium of instruction for the course.

PART - III ADMISSION TO THE COURSE

9. No candidate shall be admitted to MD (Hom.) course unless he has

- i) A Bachelor of Homoeopathic Medicine and Surgery or an equivalent qualification in Homoeopathy included in the Second Schedule to the Act, after undergoing a course of study of not less than five years and six months' duration including one year compulsory internship

OR

- ii) A Bachelor of Homoeopathic Medicine and Surgery (Graded Degree) or an equivalent qualification in Homoeopathy included in the Second Schedule to the Act after undergoing a course of study of not less than two years' duration.

10. Eligibility Certificate

Candidates who have passed BHMS degree course from other Universities than the Tamil Nadu Dr. MGR Medical University shall obtain an Eligibility Certificate from the University by remitting the prescribed fee along with the application form before seeking admission to Post Graduate MD (Hom.) course in any of the affiliated institutions.

11. Selection of Candidates

The University (or) the authority entrusted by the Central Government or State Government, as the case may be, shall select candidates on merit for Post – Graduate course. Preference shall be given to candidates who have worked in rural areas for at least two years in respect of one seat in each subject as per merit.

12. Registration:

- i. A candidate admitted to the MD (Hom.) course in any of the affiliated institutions of The Tamil Nadu Dr. M.G.R. Medical University, Chennai, shall register with the University by remitting the prescribed fee along with the application form for registration duly filled in by forwarding it to the Controller of Examinations of this University through the Head of the affiliated institution within 60 days from the cut-off date.
- ii. Every candidate shall also be required to submit the following namely within in 6 months from the cut-off date of admission or before the date notified by the University through proper channel
 - a. Statement showing the name of the Guide / Supervisor (co-guide / Co-supervisor wherever necessary) for Thesis / Dissertation.
 - b. Written consent of the Guide / Supervisor agreeing to supervise and guide.
 - c. The topic of the thesis / dissertation approved by the Guide / Supervisor (A change in the topic shall be permissible at the discretion of the Guide / Supervisor.
 - d. A synopsis containing particulars of the proposed dissertation duly got approved by the Guide / Supervisor concerned.

13. Re-admission after break of study

Readmission after break of study shall be as per the procedure in the University Regulations concerned.

14. Migration / Transfer

Migration / Transfer of candidates from a college to another college affiliated under this University or from another University shall not be granted.

PART – IV - CURRICULUM OF STUDIES

15. Curriculum of the courses shall comprise of the following:

a. Subjects of Speciality:

- (i) Organon of Medicine
- (ii) Materia Medica
- (iii) Repertory
- (iv) Practice of Medicine
- (v) Paediatrics

b. A candidate for M.D.(Hom.) shall opt one of the subjects of speciality at the time of admission and the degree shall be awarded in that speciality. Besides the subject of speciality every candidate has to appear for examinations in the following:-

- 1. Compulsory Subsidiary Subject
- 2. Optional Subsidiary Subject
- 3. Common Subject (History of Medicine, Research Methodology and Bio-Statistics)

c. Each course shall comprise of the following subjects:

Speciality	Organon of Medicine	Materia Medica	Repertory	Practice of Medicine	Paediatrics
Compulsory Subsidiary	Practice of Medicine	Practice of Medicine	Practice of Medicine	Materia Medica	Materia Medica
Optional Subsidiary	Materia Medica or Repertory	Organon of Medicine or Repertory	Organon of Medicine or Materia Medica	Organon of Medicine or Repertory	Organon of Medicine or Repertory
Common	Research Methodology, Biostatistics & History of Medicine				

In each of the speciality subjects, a deeper understanding than already acquired is expected to be achieved covering the recent advances made and discernible in the subjects concerned.

16. Method of Training

i. House Job

The P.G. course in clinical subjects shall consist of intensive training in the hospital during the period of house job with the intention of gaining proficiency in practice of Homoeopathy for equipping him to undertake the task of dissertation in his speciality subject in the ensuing part of the course. If the required proficiency in Practice of Homoeopathy is to be acquired, one has to be thorough with the knowledge in the following:-

- a. Dynamics and methods of case taking.
- b. Diagnosis and differential diagnosis of diseases with various, physical, clinical and laboratory findings.
- c. Analysis and synthesis of cases with Hahnemannian evolutionary totality.
- d. Selection of medicine including Repertorisation and comparative study of Materia Medica.
- e. Selection of Potency and Dose.
- f. Second prescription.
- g. Remedy response and prognosis.
- h. Management of the cases in general, therapeutic and accessory.
(Necessary case oriented method of study should be adopted here by intergrating all disciplines relevant).

ii) Though in the U.G. course, a study in basic subjects of Medicine (Anatomy, Physiology, Biochemistry, Pathology..... etc.) and Homoeopathy (Organon, Materia Medica & Repertory) has been covered severally, their applied aspects need to be studied again in an integrated manner for their application in clinical practice.

iii) The emphasis should be on interactive learning and not on didactic lectures. The candidates should take part in seminars (once in two weeks) group discussions (every day), clinical meetings (once a week) and journal club (once a week). The candidate should be required to write a thesis or dissertation with detailed commentary which would provide him with necessary background of training in research methods and techniques along with the art of writing research papers through learning and making use of library. The candidate shall be in the campus and shall be given graded responsibility in the management and treatment of patients entrusted to his care. He shall participate in teaching and training of the under-graduate students or interns.

iv) Every Post –Graduate candidate shall maintain a Work Diary and a Log Book to record the skills he has acquired during the entire course and has to get rectified by the Head of Department / Guide concerned under whom he has undergone the training. The Head of the Department / Guide shall scrutinize the Work Diary / Log Book once in every 3 months. On successfully completing the House Job, the candidate should summarize the contents and get the Work Diary / Log Book certified by the Head of Department / Guide. It should be submitted for scrutiny by the Board of Examiners three months before the commencement of the Part I Examination. The Work Diaries / Log Book of the 2nd and 3rd year course shall be got certified by the H.o.D. / Guide and submitted for scrutiny by the Board of Examiners 3 months before the commencement of the Part II examination.

17. PART V- SYLLABUS – Demarcation of Theory Papers

There shall be one paper in Part I and two papers in Part II for the speciality subject while one paper each in subsidiary subjects both in Part I & II Examinations. The syllabi of speciality subjects shall remain even for the subsidiary subjects for the purpose of examinations. There shall be one paper in the Common Subject in the Part I examination.

The syllabi of a speciality subject for Part I and II examinations are given below.

For those who study the subject(s) as Subsidiary shall have to study the entire syllabi of Papers I & II of the Speciality which are combined together as one paper in Part II exam.

M.D. (Hom.) Examinations

i. Organon of Medicine

a. Part - I

- **Organon of Medicine – Applied**
 - Organon of Medicine – Practical Part (71 – 294 Aphorisms)
 - Chronic Diseases

b. Part - II

Paper I - Organon of Medicine

- Hahnemann's Life History emphasizing his contribution to Medicine in General.
- Critical study of different Editions of Organon
- Lesser Writings of Hahnemann, Kent, Boenninghausen, Farrington...

Paper II - Homoeopathic Philosophy

Views & interpretations of stalwarts in Homoeopathy like Kent, Stuart Close, H.A. Robert, Dunham, Richard Hughes, Boger and J.H. Allen on Hahnemannian concepts and fundamentals of Homoeopathy.

ii. Materia Medica

a. Part - I

- **Materia Medica – Applied**
 - Therapeutic application including comparative study with drug relationship of polychrests (vide Appendix)
 - Biochemic remedies
 - Bowel nosodes & Drugs of Hindustan

b. Part - II

Paper I - Materia Medica - Basic

- Sources and Evolution of Materia Medica, Drug Proving & collection of Symptoms – classification of symptoms, construction of Materia Medica, types of Materia Medica, Study of Materia Medica
- Science and Philosophy of Materia Medica
- Scope and Limitations of Homoeopathic Materia Medica
- Pharmacological study of drugs
- Sources of drugs with family / group characteristics

Paper II - Materia Medica - Comparative

- Comparative study of Symptoms, drug pictures & therapeutic indications of all drugs including Old, New & Rare ones.

iii. Repertory

a. Part - I

- **Case Taking**

- Dynamics and methods of case taking including art of observation, linguistics & body language, data-base etc.
- Symptomatology - definitions and classifications of symptoms.
- Case analysis and anamnesis.
- Evaluation of symptoms.
- Concept of Totality of symptoms.
- Record keeping
- Repertorization

b. Part - II

Paper I: Repertory - Basic

- Source and Origin of Repertories
- Different Types of Repertories – merits and demerits
- Logic of Repertorization
- Different methods of Repertorization
- Study of different individual groups of Repertories – logical utilitarian group, puritan, special, regional or particular group of Repertories
- Terminology: meaning of different technical terminology used in Repertories.
- Computer Software Programs – computer repertorisation, patient-data management - Computer application in Repertorization

Paper II – Repertory - Applied

- Repertory - its relation to Materia Medica, Organon of Medicine
- Practice of Repertory in Medicine, Surgery, Obstetrics & Gynaecology and other Clinical Specialties
- Comparative study on rubrics of different Repertories
- Repertory making – clinical verification & grading of the symptoms and medicines.

iv. Practice of Medicine

Though Practice of Medicine is done based on the disease in modern medicine, Homoeopathy makes a deviation in that it treats the patient as a whole by assessing an individual's probability of developing various diseases relying upon the psychosomatic approach thus aiming at personalized medication. It therefore imperatively pre-supposes to know the Man in both health and disease in differential dimension. Hence a study on Applied Anatomy including Developmental Anatomy, Physiology and Biochemistry along with their parameters relating to various systems and special senses embracing Psychology and Ecology to assess the state of health and disease should be undertaken.

It is in the above perspective that every disease should be studied so as to understand it in relation to aetiology and pathogenesis, considering both Internal (fundamental cause i.e. Psora, Syphilis, Sycosis) and External Causes (Exciting and Maintaining), its Pathology, Clinical Features through Physical Examination and Investigations, Differential Diagnosis, Complications and its Homoeopathic Management including Miasmatic Analysis, General Management etc.

a. Part - I

General Medicine including Tropical Medicine

- Introduction to Principles & Practice of Internal Clinical Medicine
- General consideration covering applied Anatomy and Physiology, symptomatology, physical examination & clinical investigations of various systemic diseases
- Tropical diseases and Infectious diseases
- HIV & AIDS
- Acid-Base, Water & Electrolyte imbalances
- Occupational Health – Basics/common problems
- Clinical Genetics with application of theory of miasm
- Nutrition related health problems and the role of Homoeopathy in correcting the problems
- Basics of Cancer
- Health Economics and National Health Programme
- Current National – International Research – Trials on Disease e.g. DM, HT, IHD, CVA.
- Bioterrorism
- Immunological factors & their abnormalities

b. Part – II

Paper I - Practice of Homoeopathy in Systemic Diseases

Detailed study of the following:

- Gastro Intestinal Tract diseases
- Hepatobiliary system and Pancreas
- Respiratory diseases
- Bone & Joints disorders; Connective tissue diseases
- Diseases of the Blood
- Dermatology
- Nephrology
- Endocrinology
- Metabolic diseases
- Cardiovascular diseases with special reference to Hypertension
- Clinical Neurosciences

Paper II - Practice of Homoeopathy in Specialities

- Psychiatry
- Women's Health and Disease.
- Common Paediatric Ailments
- Geriatrics
- Common diseases of Eye, Ear, Nose & Throat
- Emergency Medicine including poisoning
- Palliative Care and Pain Management

v. Paediatrics

a. Part - I

Essential Paediatrics

- Need & Scope of homoeopathy in treating the diseases in children
- Normal Child, Growth & development of a child, Child nutrition & Immunisation
- Ethical issues in Paediatrics
- Portraits of child constitutions in Materia Medica & Relevance of miasmatic influences during the development of children & its homoeopathic management.
- Genetics, Neonatal infections, Congenital anomalies
- Patho-physiology of body fluids, fluid therapy & relevance of biochemic therapy
- Environmental Diseases, Psychological Diseases
- Paediatric Critical care.

b. Part - II

Paper 1 - Practice of Homoeopathy in General Paediatrics

- Haematological disorders.
- Endocrinology disorders.
- Metabolic disorders.
- Psychiatric, Behavioural & Learning disorders.
- Environmental diseases.
- Allergic & Infectious diseases.
- Special Sense Organ disorders including Eye, Ear, Nose & Skin
- Neoplasms

Paper II - Practice of Homoeopathy in Systemic Paediatrics

- Digestive system disorders
- Respiratory system disorders
- Cardiovascular system disorders
- Central nervous system disorders
- Locomotor system disorders
- Genito-urinary system disorders

Common Subject :

Research Methodology, Bio-statistics and History of Medicine

Part I - Exam

- Basic knowledge of medical statistics, Nature of classification of Research works in Homoeopathy with the help of recent advances in statistics.
- Explanatory research work/confirmatory research work/experimental research work.

Elements of Statistics:

Introduction to biostatics including definition and scope, use of biostatics, merits or demerits, health information system in collection of data, frequency distribution table, presentation of data – tabular presentation pictograms, graphical presentation, centering constants-mean-median and mode, measures of variation-Range, interquartile range, average deviation, standard deviations, coefficient of variation, normal distribution, poisson and binomial distribution, standard error or mean, confidence limits, ‘Z’ Test, ‘F’ Test, ‘T’ Test – paired and unpaired, Chi-square test, sampling, correlation and regression.

History of Medicine:

- The History of Medicine of ancient times prevalent in Greece and India.
- History of Medicine of medieval time prevalent in Greece and India
- History of Medicine (including Homoeopathy of Modern times in USA, Germany, U.K. and India).

PART - VI - EXAMINATIONS

18. The Examination shall be conducted in Two Parts, namely

- a. M.D. (Hom.) Part - I, which is to be held six months after completion of house job.
- b. M.D. (Hom.) Part – II, which is to be held on expiry of one year and six months after Part I examination.

19. Commencement of Examinations:

There shall be two sessions of University examinations in an academic year, viz. 15th October and 15th April. If the date of commencement of the examination falls on Saturdays, Sundays or declared Public Holidays, the examination shall begin t he next working day.

20. Cut-off Date for Admission to Examinations

The candidates admitted to the course shall be registered to take up their Part-I examinations in October of the next calendar year.

21. Attendance Requirements for Admission to Examination

- a. The candidate pursuing the course should work in the concerned department of the institution where he studies for full period as a full time student.

Note: No candidate should join any other course of study or appear for any other examination conducted by this University or any other University in India or abroad during the course of study.

- b. Each Part of the course shall be taken as a unit for the purpose of calculating attendance.
- c. The students shall attend the Symposia, Seminars, Conferences, Journal Review meetings, Clinical Case presentations and Lectures as prescribed by the department and not absent himself without valid reasons.
- d. 90% of attendance shall be mandatory for the candidates who sit for the University Examination of MD (Hom.) course in this University and no condonation shall be allowed.
- e. The students who fail to complete the course as per Regulations shall not be permitted to appear for the University examinations.

22. Every candidate seeking admission to Part I examination shall submit an application to the University with the following, certificates got countersigned by the Principal.

- a. A certificate from his H.O.D. / Guide (Supervisor) about the completion of the course of studies with a minimum of 90% attendance separately in Theory and Practicals / Clinicals of the subjects in which the candidate is seeking admission to examination.
- b. A certificate from his H.O.D. / Guide (Supervisor) about the satisfactory completion of house job in the Collegiate Hospital or a similar one satisfying the requirement in the Department concerned in the cases of Clinical and Non-clinical subjects as the case may be.

23. Part I - M.D. (Hom.) examination shall be held in Subjects of Speciality, Compulsory Subsidiary, Optional Subsidiary and Common Subject shall consists of :

- i) One Theory paper in each of the above subjects of not less than three hours duration carrying 100 marks.
- ii) **Viva – Voce /Practical examination in each subject, to be held by not less than three examiners together out of which one shall be the Supervisor (Guide)**

The examiners shall jointly assess the knowledge of the candidate for reporting the result to the University as either passed or failed. If a candidate fails to get a separate minimum of 50% in each paper and Viva Voce he will not be declared passed in the Part I examination.

24. MD (Hom) Part - I Examination

Distribution of Marks

Paper	Subjects	Duration of Hours	Theory	Practical including Viva-voce	Total Max.	Pass
I	Specialty	3	100	50	150	75
II	Compulsory Subsidiary	3	100	50	150	75
III	Optional Subsidiary	3	100	50	150	75
IV	Common	3	100	-	100	50

* Practical Examination shall be conducted as per the scheme of Examination prescribed by the University.

25. Every candidate seeking admission to the Part II examinations shall submit a Dissertation on his Speciality of not less than 10000 words. The Dissertation shall form the basis of viva-voce examination.

Every candidate shall prepare and submit four printed or typed copies of his Thesis / Dissertation to the University for its approval not later than six months ahead of the examination got duly approved and countersigned by his Guide / Supervisor in the subject concerned. The Thesis shall embody the result of the candidate's own research. The candidate shall indicate in his thesis in what respect his thesis is a contribution advancing the knowledge in the subject. The thesis should be submitted to the Guide / Supervisor at least earlier by 3 months than the time fixed for submitting it to the University.

The Guide / Supervisor should have to certify that this work has not previously formed the basis for award of any degree or diploma and that the work is the record of the candidate's personal efforts. The Thesis shall be scrutinized by the examiners appointed to conduct the examinations. The examiners will report whether the thesis should be accepted or rejected or may make suggestions, as they deem fit. The candidate will be allowed to appear for the Part II Examination after the thesis is approved. The candidate whose thesis has not been approved may be permitted to submit the thesis within not less than six months and not more than one year after rejection.

The candidate shall be allowed to appear for the Part II examination one month after the acceptance of the Dissertation by the examiners.

26. Every candidate seeking admission to Part II Examination shall submit an application to the University with the remittance of prescribed fee along with the following certificates countersigned by the Principal of the Homoeopathic College in which he underwent the course.
1. A certificate showing that he has passed Part I Examination
 2. A certificate from his Guide / Supervisor about the completion of studies with a minimum of 90% attendance separately in theory and Practical / Clinical of the subjects in which the candidate is seeking admission to examination.
 3. A record of training programme of each candidate indicating the various items that constitute the training with an assessment of performance shall be submitted to be University by the guide for approval and permission to appear for the examination.
27. Part II MD(Hom.) examination shall be held in the subject speciality opted by the candidate at the time of admission along with a theory paper on Compulsory Subsidiary & Optional Subsidiary which shall consist of
- i) Two written papers in the subject of speciality and one paper each in Subsidiary Subjects, each of not less than three hours' duration carrying 100 marks.
 - ii) **One Practical/Clinical Examination, including Viva – Voce, in the subject of speciality, to test the candidate's acumen and his ability and working knowledge in the practice of the speciality and there shall be three examiners together, including one Supervisor (Guide) in the subject, for examining the candidate. Provided that all the three examiners shall jointly assess the knowledge of the candidate for recommending the result to the University as passed or failed.**

28.

MD (Hom) Part - II Examination**Distribution of Marks**

Paper	Subjects	Duration of Hours	Theory		Practical including Viva-voce	Total Max.	Pass
			Paper - I	Paper - II			
I	Specialty	3	100	100	200	400	200
II	Compulsory Subsidiary	3	100	-	50	150	75
III	Optional Subsidiary	3	100	-	50	150	75

29. When a candidate fails in a subject(s), he needs only to appear in the examination of that particular subject(s) to get through the whole examination in the Part concerned.

30. A candidate who fails in the Examination shall be permitted to appear again for the examination without undergoing any further course of study. But if however, a candidate fails to pass the examination within the four consecutive chances immediately after taking the examination, he has to put in an additional course of six months before he is allowed to appear for the next examination.

31. Question Patterns in general for Theory examinations:
Questions must also reflect latest advances in the subject concerned. Each paper is based on the following pattern.

	Mark	Time
a. Two essay questions each 20 marks (2x20)	40 marks	70 min.
b. Ten Short Notes (10x6)	60 marks	100 min.
c. For Verification		10 min.
Total	100 marks	180 min.

32. Declaration of Results

The Board of Examiners shall jointly assess and finalise the results and recommend that a candidate be declared passed with distinction / passed / failed, in each examination. Those candidates who secure 75% or above marks are declared as passed with distinction and graded 'A'. Those candidates who secure 50% or above marks are declared as passed and graded 'B' and those candidates who secure below 50% are declared as failed and graded 'C'. The candidates will only be issued with the gradation list.

Note: The Result declared by the University shall be **"Passed"** or **"Failed"**. No marks shall be conveyed.

A students shall be declared passed if he gets 40% marks separately in theory and practical including viva – voce examination along with 50% in aggregate in each subject.

First Class and Distinction shall be awarded only to those who pass in all subjects in the first attempt itself, and within the minimum duration of the course prescribed.

33. Examiners

- i. The qualifications for the Examiners shall be the same as of the Guides
A panel of examiners shall be prepared by the University which shall be approved by the Central Council of Homoeopathy.
- ii. At least 50% of the examiners in a subject shall be externals. Guide / Supervisor, Co Guide / Co-Supervisor shall be one of the examiners in the speciality subject concerned.
- iii. Each paper shall be valued independently by each of the examiners and the average shall be taken

34. Board of Examiners

The University will constitute the Board of Examiners for each examination. There shall be two examiners for each Paper under Part I examination and Subsidiary subjects in Part II. There shall be three Examiners in the Subject of Speciality for the Part II Examination. The Chairman of each Board shall be appointed by the University. The Chairman of the Part II Examination shall be the senior most faculty in the concerned subject of speciality from among the examiners.

- i. There shall be a Viva Voce Examination in two sessions for the Subject of Speciality under Part II Examination. One of such sessions shall be devoted to the Thesis / Dissertation submitted by the candidates while the other to the subject in general. Each part of the Viva Voce Examination bears 50 marks. Not more than six candidates shall be examined by a panel of Examiners in a day.
- ii. There shall be one Clinical / Practical Examination of 3 to 4 hours' duration which shall be conducted by the panel of examiners jointly. The number of candidates thus examined shall not exceed six in a day.

35. Award of Degree M.D. (Hom.)

The University shall award the Post Graduate Degree of M.D. (Hom.) to the candidates who have passed the M.D. (Hom.) Part II Examination

APPENDIX

MATERIA MEDICA - LIST OF DRUGS

1. Aconitum napellus
2. Actea racemosa
3. Aloe.s
4. Alumina
5. Ammonium carb.
6. Antimonium crudum
7. Antimonium tartaricum
8. Apis mellifica
9. Argentum nitricum
10. Arnica montana
11. Arsencim iod.
12. Arsenicum album
13. Aurum metallicum
14. Bacillinum
15. Baptisia
16. Baryta carb.
17. Belladonna
18. Borax
19. Bryonia alb.
20. Calc. phos
21. Calcarea carb.
22. Camphora
23. Cantharis
24. Capsicum
25. Carbo vegetabilis
26. Caulophyllum
27. Causticum.
28. Chamomilla
29. Chelidonium
30. Cicuta virosa
31. Cina
32. Cinchona officinalis
33. Coffea cruda
34. Colchicum
35. Colocynthis
36. Conium mac
37. Cronton tig.
38. Crotalus horridus
39. Cuprum metallicum
40. Digitalis
41. Drosera
42. Dulcamara
43. Eupatorium perf
44. Euphrasia
45. Ferrum metallicum
46. Gelsemium
47. Glonoine
48. Graphites
49. Hamamelis v.
50. Helleborus niger
51. Hepar sulphuris calcareum
52. Hyoscyamus
53. Hypericum
54. Ignatia
55. Iodum
56. Ipecacuanha
57. Kali bichromicum
58. Kali carbonicum
59. Kreosotum
60. Lac canium
61. Lachesis
62. Ledum pal
63. Lilium tigrinum
64. Lycopodium
65. Magnesia carb
66. Medorrhinum
67. Merc. sol.
68. Mezereum
69. Muriatic acid
70. Natrum mur
71. Natrum sulph.
72. Nit. Acid
73. Nux vomica
74. Opium
75. Phos. Acid
76. Phosphorus
77. Platina
78. Plumbum met
79. Podophyllum
80. Psorinum
81. Pulsatilla
82. Pyrogenium
83. Rhus tox
84. Saguinaria
85. Sarsaparilla
86. Secale cor
87. Sepia
88. Silicea
89. Spigelia
90. Spongia tosta
91. Stannum met
92. Staphysagria
93. Stramonium
94. Sulphur
95. Syphilinum
96. Tabacum
97. Thuja oxi.
98. Tuberculinum
99. Veratrum alb
100. Zincum met.
