

REACT 2011 COURSE

Knowledge in Resuscitation procedure of acutely injured patients is one of the essential skill components of the treating Orthopaedic Surgeon. The 'Royapettah REACT 2011 course' is designed to impart the knowledge of various resuscitation procedures to the postgraduates in Orthopaedics.

The ALTS will hence forth become part of the curriculum for the Post graduates in Orthopaedics coming under purview of Tamil Nadu Dr.M.G.R. Medical University. It is mandatory for every postgraduate in Orthopaedics to attend this Royapettah REACT 2011 course which is designed in the pattern of ATLS, to take up his PG examination from this academic year onwards. The university will award 10 points for the postgraduates, who have attended this course and possess a valid certificate.

The Head of Department of Orthopaedics are advised to encourage their postgraduates to participate in this course without fail to obtain academic credit.

Dept. of Orthopaedics
Government Royapettah Hospital,
