

APRIL - 2001

[KD 041]

Sub. Code : 1602

M.Ch. DEGREE EXAMINATION

(Higher Specialities)

Branch III — Plastic Surgery

(Revised Regulations)

Paper II — PLASTIC SURGERY — REGIONAL

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Classify and briefly describe the management of fractures of mandible involving horizontal ramus. (25)
2. Describe the Development of face and discuss the management of Bilateral cleft lip and palate with protruding premaxilla. (25)
3. Write short notes on : (5 × 10 = 50)
 - (a) Nail bed injuries
 - (b) Ptosis of Eyelid
 - (c) Surgical management of burns
 - (d) Basal cell carcinoma involving tip of nose
 - (e) Tongue flap.

NOVEMBER - 2001

[KE 041]

Sub. Code : 1002

M.Ch. DEGREE EXAMINATION

(Higher Specialities)

(Revised Regulations)

Branch III — Plastic Surgery

Paper II — PLASTIC SURGERY — REGIONAL

Time : Three hours

Maximum : 100 marks

Answer ALL questions

1. Discuss the etiology, clinical features and management of temporomandibular ankylosis. (25)
2. Discuss the classification and management of lymphoedema of lower limb. (25)

Write briefly on :

(5 × 10 = 50)

- (a) Nail-bed injury
- (b) Parotid fistula
- (c) Eye-brow reconstruction
- (d) Bat ear
- (e) Atresia vagina.

MARCH - 2002

[KG 041]

Sub. Code : 1602

M.Ch. DEGREE EXAMINATION.

(Higher Specialities)

(Revised Regulations)

Branch III — Plastic Surgery

Paper II — PLASTIC SURGERY - REGIONAL

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Classify the congenital Anamolies of Hand and their Embryological basis. How will you manage a case of Radial club hand since birth. (25)
2. Describe the methods in common use for Reconstruction of Subtotal Loss of Nose following Trauma. (25)
3. Write brief notes on : (5 × 10 = 50)
 - (a) Avulsion Scalp.
 - (b) Nerve Abscess.
 - (c) Mammary implants.
 - (d) Vaginoplasty.
 - (e) Vicryl.

SEPTEMBER - 2002

[KH 041]

Sub. Code : 1602

M.Ch. DEGREE EXAMINATION

(Higher Specialities)

(Revised Regulations)

Branch III — Plastic Surgery

Paper II — PLASTIC SURGERY — REGIONAL

Time : Three hours

Maximum 100 marks

Answer ALL questions.

1. What are the absolute and relative contraindications for replantation? Describe the management of the patient with amputated hand before transportation to the replantation centre. Describe the sequence of repair during replantation under normal circumstances. (25)

2. Describe pathophysiology diagnosis and management of inhalation injuries (25)

Write briefly on

(a) Reduction mammoplasty

(b) Transverse Rectus Abdominix Muscle (TRAM) flap

(c) Torticollis

(d) Rhynophyma

(e) Crouzon's Syndrome (5 × 10 = 50)

APRIL - 2004

[KK 041]

Sub. Code : 1602

M.Ch. DEGREE EXAMINATION.

(Higher Specialities)

(Revised Regulations)

Branch III — Plastic Surgery

Paper II — PLASTIC SURGERY — REGIONAL

Time : Three hours

Maximum : 100 marks

Theory : Two hours and
forty minutes

Theory : 80 marks

M.C.Q. : Twenty minutes

M.C.Q. : 20 marks

Answer ALL the questions.

A. Essay :

(2 × 15 = 30)

(1) Describe various topographical zones of flexor tendon injuries. Describe the various problems associated with flexor digitorum profundus and flexor digitorum superficial tendon injuries in zone 2. Describe management including post-management of zone 2 tendon injuries

(2) Describe various clinical types of basal cell carcinoma. What are various problems associated with Basal cell carcinoma of the eyelids? Describe broad practical considerations in the management of basal cell carcinoma.

B. Write short notes on :

(10 × 5 = 50)

- (1) Macrostomia.
- (2) Neuroclulsion and malocclusion.
- (3) Anterior palatal fistula.
- (4) Accidental tattoo.
- (5) Stensen's duct injury.
- (6) Subcondylar fracture of mandible.
- (7) Medial canthal ligament injury
- (8) Metacarpophalangeal joint stiffness
- (9) Transverse Rectus Abdominis Muscle (TRAM) flap.
- (10) Avulsion of scrotal skin.

AUGUST - 2004

[KL 041]

Sub. Code : 1602

M.Ch. DEGREE EXAMINATION.

(Higher Specialities)

(Revised Regulations)

Branch III — Plastic Surgery

Paper II — PLASTIC SURGERY — REGIONAL

Time : Three hours

Maximum : 100 marks

**Theory : Two hours and
forty minutes**

Theory : 80 marks

M.C.Q. : Twenty minutes

M.C.Q. : 20 marks

Answer ALL the questions.

I. Essay :

(2 × 15 = 30)

(1) Describe the surgical anatomy, technique and uses of latissimus dorsi musculocutaneous flap.

(2) Discuss the pathology of eyelid lesions and the management of both partial and full thickness defects of lower eyelid.

II. Short Notes : (10 × 5 = 50)

- (a) Hemifacial microsomia**
- (b) Reconstruction of burns scar neck**
- (c) Male pattern baldness**
- (d) Dermabrasion**
- (e) Gynaecomastia**
- (f) Boutonniere Deformity**
- (g) Distraction histogenesis**
- (h) Management of sacral sores**
- (i) Venous malformation**
- (j) Apert's Syndrome.**

FEBRUARY - 2005

[KM 041]

Sub. Code : 1602

M.Ch. DEGREE EXAMINATION.

(Higher Specialities)

(Revised Regulations)

Branch III — Plastic Surgery

Paper II — PLASTIC SURGERY — REGIONAL

Time : Three hours

Maximum : 100 marks

Theory : Two hours and
forty minutes

Theory : 80 marks

M.C.Q. : Twenty minutes

M.C.Q. : 20 marks

Answer ALL questions.

I. Essay : (2 × 15 = 30)

(1) Discuss the main directions of the composite forces of the mandibular muscles. Discuss importance of these forces in management of mandibular fractures. Draw a diagram to represent vertical favourable fracture of the body of mandible.

(2) Describe indications, surgical approaches and post operative complications of augmentation mammoplasty.

II. Write short notes on : (10 × 5 = 50)

- (a) Neuroma in continuity.
- (b) Hemifacial Microsomia : Diagnosis and associated anomalies.
- (c) Correction of hypertelorism.
- (d) Submucous cleft palate.
- (e) Mucosa-Tarsal flap for reconstruction of lower eyelid.
- (f) Pre-operative planning for ear reconstruction using cartilage frame work.
- (g) Classical steps for nose hump reduction.
- (h) Klippel-Trenaunay Weber syndrome.
- (i) Electron beam therapy for keloids.
- (j) Etiology and grading of gynaecomastia.

FEBRUARY - 2006

[KO 041]

Sub. Code :1602

M.Ch. DEGREE EXAMINATION.

(Higher Specialities)

(Revised Regulations)

Branch III -- Plastic Surgery

Paper II -- PLASTIC SURGERY - REGIONAL

Time : Three hours

Maximum : 100 marks

Theory : Two hours and
forty minutes

Theory : 80 marks

M.C.Q. : Twenty minutes

M.C.Q. : 20 marks

Answer ALL questions.

I. Essay : (2 × 15 = 30)

1. Discuss the anatomy of the scalp with special emphasis on its blood supply. Discuss in detail the management of avulsion injuries of the scalp.

2. Discuss the anatomy of the greater omentum. Discuss the various techniques available in developing an omental flap. Discuss the usefulness of the omentum as a tool for the Plastic surgeon.

II. Write short notes on : (10 × 5 = 50)

(a) Tessiers classification of facial clefts

(b) Freys syndrome

(c) DOPA reaction

(d) Xeroderma pigmentosa

(e) No mans land

(f) In growing toe nail

(g) Physiological operations for lymphedema

(h) Fetal wound healing

(i) Axillary block

(j) Pseudo tumour excision.

AUGUST - 2006

[KP 041]

Sub. Code : 1602

M.Ch. DEGREE EXAMINATION.

(Higher Specialities)

(Revised Regulations)

Branch III — Plastic Surgery

Paper II — PLASTIC SURGERY — REGIONAL

Time : Three hours

Maximum : 100 marks

**Theory : Two hours and
forty minutes**

Theory : 80 marks

M.C.Q. : Twenty minutes

M.C.Q. : 20 marks

Answer ALL questions.

I. Essay :

(1) **Classify the fractures of midfacial skeleton. Discuss the clinical features, investigations and complications of naso orbito ethmoid fractures. How will you manage the fractures and the complications? (20)**

(2) **Discuss briefly the types of neck node dissection in head and neck cancers. (15)**

(3) **Discuss the principles, techniques, advantages and disadvantages of open technique of rhinoplasty. (15)**

II. Short notes :

(6 × 5 = 30)

- (a) **Lip adhesion**
 - (b) **Orticochea's technique of scalp reconstruction**
 - (c) **Calvarial bone graft**
 - (d) **Palatal fistula following cleft palate repair**
 - (e) **Mustarde's technique of correction of epicanthal fold**
 - (f) **Platysma myocutaneous flap.**
-

August-2007

[KR 041]

Sub. Code : 1602

M.Ch DEGREE EXAMINATION.

Higher Specialites

(Revised Regulations)

**Branch III — Plastic Surgery and Reconstructive
Surgery**

Paper II — PLASTIC SURGERY — REGIONAL

Time : Three hours

Maximum : 100 marks

**Theory : Two hours and
forty minutes**

Theory : 80 marks

M.C.Q. : Twenty minutes

M.C.Q. : 20 marks

Answer ALL questions.

I. ESSAY :

1. Describe the Pathophysiology of formation of contractures.

How it differs from wound contraction?

Discuss the principles of management of post burns contracture of volar aspect of hand in a 4-year-old child. (20)

2. Describe use of Lasers in Plastic Surgery. (15)

3. Classify Mandibular fractures. Discuss the management. (15)

II. Write Short Notes on: (6 × 5 = 30)

(a) Epithelial Inlay

(b) Role of Imaging Techniques in vascular Malformation

(c) Liposuction

(d) Delay of flaps

(e) Steal Phenomenon

(f) Skin Bank.

(Higher Specialities)
(Revised Regulations)

Branch III – Plastic & Reconstructive Surgery

Paper II – PLASTIC SURGERY - REGIONAL

Q.P. Code: 181602

Time: Three hours

Maximum: 100 Marks

ANSWER ALL QUESTIONS

Draw suitable diagrams wherever necessary.

I. Essays: (2 x 20 = 40)

1. Enumerate various forehead flaps and discuss the scalping flap.
2. Discuss management of avulsion injuries of penis and scrotum.

II. Write short notes on: (10 x 6 = 60)

1. Sternal wound dehiscence.
 2. Repair of a torn ear lobule.
 3. Subcondylar mandible.
 4. Pre-malleolar flap.
 5. Vasularised fibula flap.
 6. Trap door scar.
 7. Tongue flap.
 8. Cauliflower ear.
 9. Vacuum assisted closure.
 10. Binders syndrome.

Paper II – PLASTIC SURGERY – REGIONAL

Q.P. Code: 181602

Time: Three hours

Maximum: 100 Marks

ANSWER ALL QUESTIONS

Draw suitable diagrams wherever necessary.

I. Essays: `

2 x 20 = 40

1. Discuss in detail the clinical features types and surgical management of fracture Zygoma.
2. Discuss the surgical procedures of reduction mammoplasty following benign hypertrophy of breast.

II. Write short notes on:

10 x 6 = 60

1. Rare cranio facial cleft.
2. Fracture nasal bone.
3. Millards cleft lip repair.
4. Surgical management of facial palsy.
5. Compartment syndrome.
6. Ear lobule reconstruction.
7. Nerve injury and repair.
8. Tangential excision.
9. Burn wound infection.
10. Soft tissue injury of face.

Answer ALL questions in the same order.

I. Elaborate on:

(2 x 15 = 30)

1. How will you classify Microtia? Write in detail about one of the Autogenous reconstructive technique of Microtia.
2. Describe the course of Subscapular artery from its origin on axillary artery.
Describe the various FLAPS that can be developed on subscapular artery and its branches, their vascular anatomy, design and uses.

II. Write notes on:

(10 x 7 = 70)

1. “Neuromeric theory” of craniofacial cleft. Write about Tessier number 7 cleft.
2. Surgical options to manage lagophthalmos following facial nerve palsy.
3. What are the goals of lip reconstruction?
How will you reconstruct vermilion defects of lip?
4. Secondary Alveolar bone grafting.
5. Causes of anterior abdominal wall defects.
Write about ‘Component separation method’ in abdominal wall reconstruction.
6. Sentinel node biopsy in Malignant Melanoma.
7. What are the options to cover the defect over medial malleolar region?
8. Vascular basis of Paramedian forehead flap. What are the procedures available for gaining length in paramedian forehead flap for nasal reconstruction?
9. Management of zone III extensor tendon injury of finger.
10. Soleus muscle flap.

I. Elaborate on:

(2 x 15 = 30)

1. Classify mid facial defects. Give in detail the reconstructive options of the same, with a note on functional and aesthetic outcome. Also mention a word about Surgically Assisted Rapid Palatal Expansion (SARPE).
2. Give in detail the development of male external genitalia. Write the Spectrum of hypospadias. How will you manage a new born child diagnosed to have scrotal hypospadias?

II. Write notes on:

(10 x 7 = 70)

1. Reconstructive options for upper eyelid defect.
2. Trochanteric Pressure sore.
3. Oberlin nerve transfer.
4. Reconstruction of post burns scar contracture of axilla.
5. Ear lobule reconstruction.
6. Medial Plantar artery Flap.
7. Outline the Reconstructive options for defects over the spine.
8. Gunshot wounds of the face.
9. Millard's unilateral cleft lip repair.
10. Vander Woude Syndrome.

(LR 041)

NOVEMBER 2020
(AUGUST 2020 SESSION)

Sub. Code: 1602

M.Ch. – PLASTIC & RECONSTRUCTIVE SURGERY

Paper II – PLASTIC SURGERY – REGIONAL

Q.P. Code: 181602

Time: Three Hours

Maximum: 100 Marks

I. Elaborate on:

(2 x 15 = 30)

1. Discuss anatomy of the scalp with special emphasis on its blood supply. Discuss in detail the management of avulsion injuries of the scalp.
2. Discuss in detail about the management of orbital floor fracture, Different techniques to access the orbital floor. Discuss the advantage and disadvantages of different orbital floor implants.

II. Write notes on:

(10 x 7 = 70)

1. Ptosis of eyelid
2. Frey's syndrome
3. Sternal wound dehiscence
4. Supramalleolar flap
5. Obstetric brachial plexus palsy
6. Hemifacial atrophy
7. Compartment syndrome
8. Management of nail bed injuries.
9. High flow vascular malformation of face in children, problems and management outcome
10. Problems and timing of repair in Meningocele.

(MCH 0821)

AUGUST 2021

Sub. Code: 1602

M.Ch. – PLASTIC & RECONSTRUCTIVE SURGERY

Paper II – PLASTIC SURGERY – REGIONAL

Q.P. Code: 181602

Time: Three Hours

Maximum: 100 Marks

I. Elaborate on:

(2 x 15 = 30)

1. Describe the embryological development of face. Discuss millard rotation advancement repair for unilateral cleft lip and compare with Mohler technique.
2. Describe the pathophysiology of acute burn injury. How will you manage a 60kg patient with 40% burns involving face, upper torso and upper limbs in Burns ICU?

II. Write notes on:

(10 x 7 = 70)

1. Sub mucous fibrosis.
2. Martin –Gruber anastomosis.
3. Free functional muscle transfer.
4. Macrostomia correction.
5. Baby sitter procedure in facial reanimation.
6. Facial skeleton buttresses.
7. Scapular flaps.
8. Bilaminar skin substitutes.
9. Modified Somsak nerve transfer.
10. MRSA infections.

THE TAMIL NADU DR.M.G.R. MEDICAL UNIVERSITY

(MCH 0822)

AUGUST 2022

Sub. Code: 1602

M.Ch. – PLASTIC & RECONSTRUCTIVE SURGERY

Paper II – PLASTIC SURGERY – REGIONAL

Q.P. Code: 181602

Time: Three Hours

Maximum: 100 Marks

I. Elaborate on: **(2 x 15 = 30)**

1. Describe anatomy of brachial plexus. Management of a 20 year male patient attending your OP with 9-month old pan brachial plexus injury.
2. Describe pathophysiology of distraction osteogenesis. Enumerate in detail about its uses in plastic surgery.

II. Write notes on: **(10 x 7 = 70)**

1. Pierre Robin syndrome clinical features and management.
2. Boutonniere deformity.
3. Role of tissue expanders in aesthetic plastic surgery.
4. Le forte fracture classification and management.
5. Bat ear.
6. Surgical anatomy of extensor apparatus of fingers with relevant diagrams.
7. Stenson's duct injuries.
8. Hemifacial microsomia.
9. Management of telecanthus and hypertelorism.
10. Clinical features and management of blow-out fracture orbit.

(MCH 0823)

AUGUST 2023

Sub. Code: 1602

M.Ch. –BRANCH III - PLASTIC & RECONSTRUCTIVE SURGERY

PAPER II – PLASTIC SURGERY – REGIONAL

Q.P. Code: 181602

Time: Three Hours

Maximum: 100 Marks

I. Elaborate on: **(2 x 15 = 30)**

1. What are the pathophysiological changes that take place in the human body following moderate to major thermal burn injury and its management.
2. Describe the embryological development of Ear. Discuss the types of Microtia. Compare Brent method of reconstruction with Nagata technique.

II. Write notes on: **(10 x 7 = 70)**

1. Facial artery musculomucosal flap.
2. Pierre Robin syndrome.
3. Thumb replantation.
4. Riché – Cannieu Anastomosis.
5. Gram negative septicemia.
6. Cleft lip nose deformity.
7. Vascularised Nerve graft.
8. Saha's technique for shoulder abduction.
9. Cadaver skin graft.
10. Tangential excision.

THE TAMIL NADU DR.M.G.R. MEDICAL UNIVERSITY

(MCH 0124)

JANUARY 2024

Sub. Code: 1602

M.Ch. – PLASTIC & RECONSTRUCTIVE SURGERY

PAPER II – PLASTIC SURGERY – REGIONAL

Q.P. Code: 181602

Time: Three Hours

Maximum: 100 Marks

I. Elaborate on: **(2 x 15 = 30)**

1. Discuss the various angles associated with neck. Outline the various procedures available for reconstruction of Post Burn Scar Contracture Neck with 10 x 8 cm raw area in a 18 year old male.
2. Discuss the Vascular anatomy, Indications, Operative procedure for Free Radial Forearm flap elevation with its complications.

II. Write notes on: **(10 x 7 = 70)**

1. Transverse Rectus Abdominus Muscle (TRAM) flap.
2. Vascularised nerve graft.
3. Intrinsic minus deformity.
4. Foot drop.
5. Supinator Tunnel syndrome.
6. Washio flap.
7. VAC therapy.
8. Silver dressing.
9. Skin substitutes.
10. Distraction histogenesis.
