

April-2001

[KD 188]

Sub. Code : 2096

M.D. DEGREE EXAMINATION

(Revised Regulations)

Branch XVII — Tuberculosis and Rep. Diseases

Part II

Paper I — TUBERCULOSIS

(PULMONARY AND EXTRA PULMONARY)

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Discuss the Epidemiology of Pulmonary Tuberculosis in India (25)
 2. Discuss the pathogenesis, Diagnosis and management of Abdominal Tuberculosis. (25)
 3. Discuss briefly : (5 × 10 = 50)
 - (a) Tuberculosis test
 - (b) Chemoprophylation for tuberculosis
 - (c) Polymerase chain reaction in diagnosis of tuberculosis
 - (d) Cytokines in Tuberculosis
 - (e) Corticosteroid in Tuberculosis.
-

March-2002

[KG 188]

Sub. Code : 2096

M.D. DEGREE EXAMINATION.

(Revised Regulations)

Branch XVII — Tuberculosis and Respiratory Diseases

Part II

Paper I — TUBERCULOSIS (PULMONARY AND
EXTRAPULMONARY)

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. What are the clinical manifestations of Tuberculosis (pulmonary and extrapulmonary) in a patient with HIV infection? How will you manage both the disease? What is the chemoprophylaxis you will suggest for Tuberculosis in HIV infected individuals.
(10 + 10 + 5 = 25)
2. Describe the objectives of the Revised National Tuberculosis Control Programme (RNTCP) and discuss the problems in implementing it. (10 + 15 = 25)
3. Write briefly on : (5 × 10 = 50)
 - (a) Tuberculin testing.
 - (b) Treatment of a chronic case of pulmonary tuberculosis.
 - (c) Congenital tuberculosis.
 - (d) Skeletal tuberculosis.
 - (e) Bactec test in tuberculosis.

April-2003

[KI 188]

Sub. Code : 2096

M.D. DEGREE EXAMINATION.

(Revised Regulations)

Branch XVII — Tuberculosis and Respiratory Diseases

Part II

Paper I — TUBERCULOSIS

(PULMONARY AND EXTRA PULMONARY)

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Give in short pathogenesis and treatment of T.B. Spine. (25)
 2. Discuss pathology of T.B. pericarditis. Discuss line of treatment. (25)
 3. Write briefly on : (5 × 10 = 50)
 - (a) Revised T.B. control programme
 - (b) Surgery in Tuberculosis
 - (c) T.B. of Hip joint
 - (d) T.B. of Skin
 - (e) Complication of Pulmonary Tuberculosis.
-

[KR 182]

Sub. Code : 2075

M.D. DEGREE EXAMINATION.

Branch XVII — Tuberculosis and Respiratory Diseases

TUBERCULOSIS

(PULMONARY AND EXTRA PULMONARY)

Common to :

Part II — Paper I — (Old/New/Revised Regulations)

(Candidates admitted from 1988–89 onwards)

And

Paper II — (For candidates admitted from 2004–05 onwards)

Time : Three hours

Maximum : 100 marks

Theory : Two hours and
forty minutes

Theory : 80 marks

M.C.Q. : Twenty minutes

M.C.Q. : 20 marks

Answer ALL questions.

I. Essay questions :

1. Discuss the organizational set up of RNTCP. What is the scientific basis of Intermittent DOTS? (20)

2. What is MDR-TB? Discuss the issues in relation to management of a case of MDR-TB. (15)

3. Describe the clinical presentations and management of M.Tb infection in an HIV patient (15)

II. Write short notes on : (6 × 5 = 30)

(a) Tuberculin test

(b) Pyrazinamide

(c) Lupus vulgaris

(d) Constrictive pericarditis

(e) Mycobacterium avium intercellulare

(f) Chengelpet trial

MARCH 2008

[KS 167]

Sub. Code : 2062

M.D. DEGREE EXAMINATION.

Branch XVII — Tuberculosis and Respiratory Diseases

TUBERCULOSIS

(PULMONARY AND EXTRA PULMONARY)

Common to

Part II — Paper I — (Old/New/Revised Regulations)

(Candidates admitted from 2003-04)

And

Paper II — (For candidates admitted from 2004-05 onwards)

Q.P. Code : 202062

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

- I. Essays : (2 × 20 = 40)
- (1) Write in detail the epidemiological status, pathogenesis, diagnosis and treatment of coinfection of MTB-HIV.
 - (2) Discuss in detail about second line anti TB drugs and therapy of M.D.R. tuberculosis.
- II. Short notes : (10 × 6 = 60)
- (1) Immune reconstitution syndrome.
 - (2) Ocular tuberculosis.
 - (3) Latent tuberculosis.
 - (4) Mycobacterium marinum.
 - (5) Bactec system.
 - (6) Rifabutin.
 - (7) Niacin test.
 - (8) DNA probes.
 - (9) Meningial tuberculosis.
 - (10) B.C.G.
-

M.D. DEGREE EXAMINATION

Branch XVII –Tuberculosis and Respiratory Diseases

**TUBERCULOSIS
(PULMONARY AND EXTRA PULMONARY)**

**Common to
Part II – Paper I - (Old /New/Revised Regulations)
(Candidates admitted upto 2003-04) and
Paper II – (For candidates admitted from 2004-2005 onwards)
Q.P. Code : 202062**

Time : Three hours

Maximum : 100 marks

Draw suitable diagram wherever necessary.

Answer ALL questions.

I. Essay questions : (2 X 20 = 40)

1. Discuss the epidemiological basis of revised national TB control programme and mention it's merits and demerits.
2. Describe the formation, fate and complications of a tuberculous cavity.

II. Write short notes on : (10 X 6 = 60)

1. Congenital tuberculosis.
 2. Rifampicin toxicity.
 3. Thoracoplasty.
 4. Lag period.
 5. Robert Koch.
 6. H37 RV.
 7. Tuberculosis in pregnancy.
 8. Breast feeding in the post partum patient with tuberculosis.
 9. Luciferase reporter assay.
 10. Diagnosis of MDR – TB.

Paper II – (For candidates admitted from 2004-2005 to 2007-2008)**

**TUBERCULOSIS
(PULMONARY AND EXTRA PULMONARY)**

Q.P. Code : 202062

Time : Three hours

Maximum : 100 marks

Draw suitable diagram wherever necessary

Answer ALL questions

I. Essay questions :

(2 x 20 = 40)

1. Discuss the merits and demerits of DOTS. What is DOTS PLUS?
2. Discuss the clinical features, diagnosis and management of tuberculous pericarditis.

II. Write short notes on :

(10 x 6 = 60)

1. Lupus vulgaris.
2. Poncets disease.
3. Tuberculosis in pregnancy.
4. Lower lung field tuberculosis.
5. Brock's syndrome.
6. Thoracoplasty.
7. Cycloserine.
8. Koch's postulates.
9. Primary drug resistance.
10. National sample survey.

TUBERCULOSIS

(PULMONARY AND EXTRA PULMONARY)

Q.P. Code : 202062

Time : Three hours

Maximum : 100 marks

Draw suitable diagram wherever necessary

Answer ALL questions

I. Essay questions :

(2 x 20 = 40)

1. Define drug resistance in mycobacteria. Describe the various mechanisms of drug resistance in mycobacteria. Discuss the DOTS PLUS programme.
2. Describe the conventional and newer techniques for the diagnosis of tuberculous disease.

II. Write short notes on :

(10 x 6 = 60)

1. Tuberculous cavity.
2. Collapse therapy.
3. Nosocomial tuberculosis and its prevention.
4. Tuberculous lymphadenitis.
5. Management of HIV – TB co-infection.
6. Principles of Anti-Tuberculous therapy.
7. Miliary Tuberculosis.
8. BCG vaccination.
9. Clinical features and management of MAIC disease.
10. Pericardial Tuberculosis.
