SEPTEMBER 1991

395

M.D.S DEGREE EXAMINATION, SEPTEMBER 1991

Part II

Branch VII — Oral Medicine, Diagnosis and Radiology

Paper II — ORAL MEDICINE, THERAPEUTICS AND
APPLIED ORAL PATHOLOGY

Time Three hours

Maximum 100 marks

Answer ALL questions

- Discuss pain control methods of various lesions that produce Oro-facial pain.
- Discuss the Oral changes in Toxicity Add a note on management of individual lesion.
- 3 Write short notes on
 - (a) Giant cell lesions of Jaw
 - (b) Immuno suppression
 - (c) Premature exfoliation of teeth

M.D.S DEGREE EXAMINATION SEPTEMBER 1992
PART II

Branch VII - ORAL MEDICINE DIAGNOSIS AND RADIOLOGY

Paper II - ORAL MEDICINE, THERAPEUTICS AND APPLIED ORAL PATHOLOGY

Time: Three hours Maximum 100 marks

- Discuss the local and systemic conditions that produce stomatopyrosis and describe in detail the mode of treatments for different conditions.
- Describe the uses of chemotherapeutic agents of Malignancy in oral lesions mention the complications of these agents.
- Write briefly:
 - (a) Giant cells of lesions of oral carity and bone.
 - (b) Diseases of epstein bar virus
 - (e) Mouth in Hemoglobinopathies

NOVEMBER 1993

[PR449]

M.D.S. DEGREE EXAMINATION

Part II

Branch VII - Oral Medicine and Radiology

Paper II — ORAL MEDICINE THERAPEUTICS AND APPLIED ORAL PATHOLOGY

Time Three hours

Maximum 100 marks.

Answer ALL questions

- Discuss the Etiology, Pathogenesis and Clinical Diagnostic features of osteo-dystrophies of systemic origin. Add a note on the management of burning-mouthsyndrome.
- Describe the role of chemotherapy in the manage ment of oral malignant lesions. Add a note on Immuno therapy.
- Write briefly:
- (a) Oral manifestations and management of blood diseases.
- (b) Oral manifestations and management of acute herpetic gingivo-stomatitis.
- (c) Oral manifestations and management of different osteomyelitis.

[SB 288]

M.D.S. DEGREE EXAMINATION.

New Regulations

Part II

Branch VII - Oral Medicine and Radiology

Paper II — ORAL MEDICINE, THERAPEUTICS AND APPLIED ORAL PATHOLOGY

Time Three hours

Maximum 100 marks.

Answer ALL questions

- Discuss the vesiculo-bullous lesions in the Orofacial regions and the therapy of one of them. (25)
- Discuss the oral manifestations of kidney transplantation. (25)
- 3 Write the recent developments briefly: $(5 \times 10 = 50)$
 - (a) Aids and prevention and control.
 - (b) Therapy of aerodigestive cancers.
 - (c) Smokeless tobacco and oral lesions.
 - (d) Progressive systemic sclerosis,
 - (e) Critical analysis of oral L P.

NOVEMBER 1995

MB 285

M.D.S DEGREE EXAMINATION

New Regulations

Part Il

Branch VII - Oral Medicine and Radiology

Paper II - ORAL MEDICINE, THERAPEUTICS AND APPLIED ORAL PATHOLOGY

Time: Three hours Nax. marks: 100

Answer All Questions

- Discuss Granulomatous lesions of oral mucosa. (25)
- 2 Discuss opportunistic infections of oral cavity. (25)
- 3 Write short notes on: (5x10=50)
 - (a) Management of Trigeminal Neuralgia
 - (b) Occupational diseases of oral cavity
 - (c) White lesions of oral mucosa
 - (d) Maxillary sinusitis
 - (e) Drug hypersensitivity

MP230

M.D.S. DEGREE EXAMINATION

Branch VII - Oral Medicine and Radiology (Revised Regulations)

Part II

Paper II - ORAL MEDICINE, THERAPEUTIC AND APPLIED ORAL PATHOLOGY

Time: Three hours

Max.marks:100

(5x10=50)

Answer All Questions

- Discuss fungal lesions affecting the oral cavity and their management in detail. (25)
- Discuss diagnosis and management of nonhealing ulcer of the tongue. (25)
- Write briefly on:
 - (a) Leukaemia
 - (b) Herpes Zoster
 - (c) Management of oral sub mucous fibrosis
 - (d) Facial palsy
 - (e) Erosive Lichen Planus

SV 244

M.D.S. DEGREE EXAMINATION

(Revised Regulations)

Branch VII - Oral Medicine and Radiology

Part II

Paper II - ORAL MEDICINE, THERAPEUTICS AND APPLIED ORAL PATHOLOGY

Time: Three hours Max.marks:100

Answer All Questions

- Discuss the oral manifestations of disturbances in hormone metabolism. (25)
- Discuss about cystic lesions of the oral cavity. (25)
- Write briefly on: (5x10=50)
 - (a) Lipid reticuloendotheliosis
 - (b) Osteitis deformans
 - (c) Use and abuse of non-steroidal antiinflammatory drugs
 - (d) Sickle cell anaemia
 - (e) Kerato acanthoma.

[KB 377]

M.D.S. DEGREE EXAMINATION.

(Revised Regulations)

Branch VII - Oral Medicine and Radiology

Part II

Paper II — ORAL MEDICINE, THERAPEUTICS AND APPLIED PATHOLOGY

Time: Three hours Maximum: 100 marks

Answer ALL questions.

- Discuss the histological basis of pathogenesis, clinical features, diagnosis and management of leukoplakia. (25)
- Describe in detail oral candidiasis. (25)
- 3. Write briefly on: $(5 \times 10 = 50)$
 - (a) Recurrent aphthous stomatitis.
 - (b) Management of oral lichen planus.
 - (c) Corticosteroids in management of oral lesions.
- (d) Oral manifestations in white blood cell disorders.
- (e) Dental considerations in a hypertensive patient.

OCTOBER 2000

[KC 377]

M.D.S. DEGREE EXAMINATION

Part II

Branch VII -- Oral Medicine and Radiology

Paper II — ORAL MEDICINE THERAPEUTICS AND APPLIED ORAL PATHOLOGY

Time: Three hours Maximum: 100 marks

Answer ALL questions.

- Discuss candidiasis in detail and their therapy.
 (25)
- Discuss orofacial manifestations of renal diseases and their implications for drugs in dentistry. (25)
- Write briefly on :

 $(5 \times 10 = 50)$

- (a) Multiple myeloma.
- (b) Management of Mucositis.
- (c) Dental management of coronary heard disease.
- (d) Dental considerations in mycobacterial infections.
 - (e) Chronic orofacial pain.
