5. Write short notes on any *three* of the following:
 - (a) Therapeutic communication.
 - (b) Care of the aged.
 - (c) Record-review and audit.
 - (d) Types of leadership.
-

NOVEMBER 1990

315 D

M.Sc. DEGREE EXAMINATION IN NURSING,
NOVEMBER 1990.

Third Semester

Branch III — Community Health Nursing

Paper II — CLINICAL SPECIALITY—I
(Community Health Nursing)

Time : Three hours.

Maximum : 150 marks.

Answer ALL the questions.

All questions carry equal marks.

1. Describe the concept of nursing process. How is it applied by a community health nurse while working in the families ?

2. Discuss the meaning of "Epidemiological Triad". Describe the various host factors in the causation of diseases.

3. (a) What methods can you employ while conducting a nutrition-survey in a given community to detect malnutrition among children under five years.

Or

(b) "Community participation is important in the success of nutrition education programme" — Discuss.

4. How would you supervise the community health workers for promotion of environmental sanitation in a given community ?

5. Write short notes on any *three* of the following :

(a) Supplementary feeding programme.

(b) Food laws.

(c) Objectives of health education.

(d) Immunity.

(e) Food hygiene.

**M.Sc. DEGREE EXAMINATION IN NURSING,
NOVEMBER 1990.**

Fourth Semester

Branch IV — Clinical Speciality—II

COMMUNITY HEALTH NURSING

Time : Three hours

Maximum : 150 marks

Answer ALL questions.

All questions carry equal marks.

1. (a) Explain the different methods and techniques of communication. (10)
- (b) How will you overcome the barriers of communication? (6)
- (c) Criticise the present system of communication in a primary health centre. (8)
- (d) Suggest measures for improvement. (6)
2. (a) Compare the historical development of community mental health and its present status in India and in developed countries. (10)
- (b) Explain the role of community health nurse in improving the mental health of the community. (20)

3. (a) Briefly explain the criteria of evaluation. (10)
- (b) List the principles of evaluation. (5)
- (c) How will you evaluate the work of your subordinates. (15)
4. (a) As an efficient supervisor, explain the different measures you would adopt to prevent and control tuberculosis in your area. (15)
- (b) Briefly explain the industrial health hazards. (7)
- (c) What measures would you adopt to improve the health status of the industrial workers. (8)
5. Write short notes on any SIX of the following :
 - (a) Importance of the care of the aged.
 - (b) Population explosion in India.
 - (c) Training of auxiliary workers.
 - (d) Rating scales.
 - (e) Nursing process.
 - (f) Crisis intervention.
 - (g) Primary health care.
 - (h) Group dynamics. (6 × 5 = 30)

M.Sc. DEGREE EXAMINATION IN NURSING, APRIL 1991.

Third Semester

Branch III — Community Health Nursing

Paper II — CLINICAL SPECIALITY—I

(Community Health Nursing—I)

Time: Three hours. Maximum: 150 marks.

Answer ALL questions.

All questions carry equal marks.

1. As a Public Health Nurse posted in a new Primary Health Centre, how will you plan for your service?

State the preparation of community leaders for involving in your programmes.

2. Discuss the importance of Epidemiological investigation in any situation and explain the process of intervention in an epidemic of Typhoid.
