

[KV 802]

SEPTEMBER 2009

Sub. Code: 3802

**DOCTOR OF PHARMACY (PHARM. D) DEGREE EXAMINATION**

**(Regulations 2008-2009 )**

**(Candidates admitted from 2008-2009 onwards)**

**FIRST YEAR**

**PAPER II – PHARMACEUTICS**

*Q.P. Code: 383802*

**Time: Three Hours**

**Maximum: 70 marks**

**Answer ALL questions**

**I. Elaborate on:**

**(2 x 20 = 40)**

1. Define prescription.

Write in detail about the various parts and handling of prescriptions.

2. Classify powders. Give example for each type of powder.

Mention the advantages and disadvantages of powders.

**II. Write notes on:**

**(6 x 5 = 30)**

1. Gargles and mouthwash.

2. Stability and evaluation of emulsions.

3. Methods of preparation of spirits.

4. Sutures and ligatures.

5. Lotions and liniments.

6. Calculation of children doses.

\*\*\*\*\*

**FIRST YEAR**

**PAPER II – PHARMACEUTICS**

***Q.P. Code: 383802***

**Time: Three Hours**

**Maximum: 70 marks**

**Answer ALL questions**

**I. Elaborate on:**

**(2 x 20 = 40)**

1. Write the historical background and development of pharmacy and pharmaceutical industry.
2. Define posology. Write the methods of calculation of children and infant doses.  
Write the factors affecting dose selection.

**II. Write notes on:**

**(6 x 5 = 30)**

1. Suspensions and suspending agents.
2. Throat paints.
3. Methods of preparation of suppositories
4. Classify and identification of types of emulsion.
5. Surgical dressings.
6. Physical and chemical incompatibility

\*\*\*\*\*

SEPTEMBER 2010

Sub. Code: 3802

**DOCTOR OF PHARMACY (PHARM. D) DEGREE EXAMINATION**

**(Regulations 2008-2009 )**

**(Candidates admitted from 2008-2009 onwards)**

**FIRST YEAR**

**PAPER II – PHARMACEUTICS**

***Q.P. Code: 383802***

**Time: Three Hours**

**Maximum: 70 marks**

**Answer ALL questions**

**I. Elaborate on:**

**(2 x 20 = 40)**

1. Classify Suppository bases. What are the characteristics of an ideal base?  
Give a detailed method of preparation.

2. Define Emulsion. Classify Emulsifying agents and Explain in detail.

**II. Write notes on:**

**(6 x 5 = 30)**

1. Write about the formulation criteria for effervescent granules.

2. Write about the preparation of calamine lotion.

3. What is therapeutic incompatibility? How do you over come it?

4. Classify medicated bandages and its uses.

5. How much water should be mixed with 6000 ml of 40% (v/v) alcohol to make  
20% (v/v) alcohol?

6. Give a short note on preparation of spirits.

MAY 2011

Sub. Code: 3802

**DOCTOR OF PHARMACY (PHARM. D) DEGREE EXAMINATION**

**(Regulations 2008-2009 )**

**(Candidates admitted from 2008-2009 onwards)**

**FIRST YEAR**

**PAPER II – PHARMACEUTICS**

*Q.P. Code: 383802*

**Time: Three Hours**

**Maximum: 70 marks**

**Answer ALL questions**

**I. Elaborate on:**

**(2 x 20 = 40)**

1. Define and classify monophasic liquid dosage forms.  
Discuss the various adjuvant used in the formulation of oral liquid dosage forms.
2. Define incompatibility and classify them with suitable example.  
Discuss physical incompatibility and therapeutic incompatibility with the help of suitable example.

**II. Write notes on:**

**(6 x 5 = 30)**

1. Discuss different factors affecting fixation of dose of a drug.
2. Convert 40% v/v alcohol into proof strength.
3. Describe the identification tests for emulsion.
4. Displacement value and its importance.
5. Soxhlet extraction process.
6. Differentiate between the procedures followed in the preparation of tinctures from organized and unorganized drugs.

\*\*\*\*\*

**DOCTOR OF PHARMACY (PHARM. D) DEGREE EXAMINATION****FIRST YEAR****PAPER II – PHARMACEUTICS***Q.P. Code: 383802***Time: Three Hours****Maximum: 100 marks****Answer ALL questions in the same order.****I. Elaborate on :**

Pages (Max.)	Time (Max.)	Marks (Max.)
-----------------	----------------	-----------------

- |  |    |         |    |
|--|----|---------|----|
| 1. Discuss about posology. Explain about the factors affecting the dose and action of drugs with examples. | 17 | 40 min. | 20 |
| 2. Explain in detail about suppository bases with examples.  | 17 | 40 min. | 20 |

**II. Write notes on :**

- |   |   |         |   |
|---|---|---------|---|
| 1. a) Give the Latin terms for the following:<br>1. Food 2. Twice a day 3. apply  |   |         |   |
| b) Give the English meaning for the following:<br>1. Pulvis 2. Receipe 3. Solve   | 4 | 10 min. | 6 |
| 2. Explain about soxhlation?  | 4 | 10 min. | 6 |
| 3. What are colouring agents? Explain them with example.  | 4 | 10 min. | 6 |
| 4. What are advantages and disadvantages of suppositories?  | 4 | 10 min. | 6 |
| 5. What is the percentage of zinc oxide in an ointment prepared by mixing 200 g of 10% ointment, 50 g of 20% ointment and 100 g of 5 % ointment?  | 4 | 10 min. | 6 |
| 6. What are the ingredients used in powder formulation?   | 4 | 10 min. | 6 |
| 7. Rx<br>a) Atropine sulphate 0.006<br>Phenobarbital 0.015<br>Aspirin 0.3<br>Sig: One capsule t.i.d<br>Find out the incompatibility problem in the above prescription and the steps to correct it | 4 | 10 min. | 6 |
| b) If 1500g solution containing 75g of a drug substance what is the percentage strength (w/w) of the solution   |   |         |   |
| 8. What is effervescent powder and explain this with example.   | 4 | 10 min. | 6 |

[LC 802]

APRIL 2013

Sub. Code: 3802

**DOCTOR OF PHARMACY (PHARM. D) DEGREE EXAMINATION**

**FIRST YEAR**

**PAPER II – PHARMACEUTICS**

*Q.P. Code: 383802*

**Time: Three Hours**

**Maximum: 100 marks**

**Answer All questions**

**I. Elaborate on:**

**(2 x 20 = 40)**

1. Define Prescription. Discuss in detail the importance of various parts of prescription with suitable example.
2. a) Explain the preparation and Identification methods of emulsion.  
b) Write about factors influencing stability of emulsion.

**II. Write notes on:**

**(10 x 6 = 60)**

1. Explain the methods of evaluation of Suppositories.
2. Describe the technique of “Percolation” process.
3. Write briefly about bi-phasic liquid dosage form.
4. Give the note on National formulary of India.
5. Enumerate the advantages and disadvantages of oral powders.
6. Discuss briefly about throat paints and throat sprays.
7. Explain the role of thickening agents in the formulation of suspensions.
8. Papevarine hydrochloride (M.W 376) is a 2-ion electrolyte dissociating 80% in a given concentration. Calculate its sodium chloride (M.W 58.5) equivalent.  
(Substance dissociate in to 2-ion, i factor is 1.8.)
9. What are the standards prescribed by the B.P.C. for Dressing?
10. Discuss Two Therapeutic Incompatibilities and method to overcome with example.

\*\*\*\*\*

[LD 802]

OCTOBER 2013

Sub. Code: 3802

**DOCTOR OF PHARMACY (PHARM. D) DEGREE EXAMINATION**

**FIRST YEAR**

**PAPER II – PHARMACEUTICS**

*Q.P. Code: 383802*

**Time: Three Hours**

**Maximum: 70 marks**

**Answer All questions**

**I. Elaborate on:**

**(2 x 20 = 40)**

1. Define emulsion.

Give an account of methods of preparation, stability and preservation of emulsion.

2. a) Define and classify mixture with suitable examples.

b) Explain the method of preparation of mixtures containing diffusible and indiffusible solids.

**II. Write notes on:**

**(10 x 3 = 30)**

1. Classify Suppository bases. What are the characteristics of an ideal base?

2. Explain about materials used for primary wound dressing.

3. Physical incompatibility.

4. Discuss about emulsifying agent.

5. Define prescription. Describe the various parts of a prescription.

6. Classify the surgical dressings and write a note on Absorbent Cotton wool.

7. Soxhlet extraction process.

8. Define and classify powders giving their merits and demerits.

9. Historical background and development of pharmacy.

10. Classify the various methods & give the formula for the calculation of paediatric doses.

\*\*\*\*\*

**DOCTOR OF PHARMACY (PHARM. D) DEGREE EXAMINATION****FIRST YEAR****PAPER II – PHARMACEUTICS***Q.P. Code: 383802***Time: Three Hours****Maximum: 70 marks****Answer All questions****I. Elaborate on:****(2 x 20 = 40)**

1. Define incompatibility.

Discuss the various types of incompatibility with three examples each.

How do you overcome chemical incompatibility?

2. a) Define prescription.

Explain the various parts of a prescription.

Give an example of

a. typical prescription.

b. Write on Effervescent Granules.

**II. Write notes on:****(10 x 3 = 30)**

1. What are the factors that influence the dose of a drug?

2. Explain the various formulae used for calculating child dose from adult dose.

3. How are potent drugs dispensed as powders?

4. What are liniments? Give few examples, preparation and use.

5. Mention the types of emulsions and explain the preparation of emulsion by the dry gum method.

6. List out any four Latin terms, abbreviations and English meaning for time of administration of medicines.

7. Maceration process.

8. Identification test available for the types of emulsion.

9. a) Adult dose of a drug is 420 mg. Calculate the dose for 9 years old child.

(Show calculations).

b) Prepare 250 ml. of 40% alcohol from 66% and 10% alcohol (alligation method).

10. Mixtures containing indiffusible solids with examples.

**PAPER II – PHARMACEUTICS**

*Q.P. Code: 383802*

**Time : Three hours**

**Maximum : 70 Marks**

**I. Elaborate on:**

**(4 x 10 = 40)**

1. Define 'Surgical dressings'. Write the ideal characteristics of surgical dressings and explain about bandages.
2. Explain the preparation and Identification methods of emulsion.
3. Define and classify Monophasic liquid dosage forms with examples. Explain the preparation of Throat paint.
4. Classify Suppositories. Give in detail about the method of preparation of suppositories.

**II. Write notes on:**

**(6 x 5 = 30)**

1. Factors affecting the stability of emulsion.
2. Decoction and infusion.
3. Displacement value and its significance.
4. Simple and multiple Maceration.
5. Explain the role of thickening agents in the formulation of suspensions.
6. Merits and Demerits of powders.

**(OCTOBER 2020 EXAM SESSION)  
PHARM. 'D' DEGREE EXAMINATION  
FIRST YEAR (2009-2010 Regulation)  
PAPER II – PHARMACEUTICS  
Q.P. Code : 383802**

**Time : Three hours**

**Maximum : 70 Marks**

**I. Elaborate on:**

**(4 x 10 = 40)**

1. Explain the stability problem of suspension and methods to overcome.
2. The method of preparation of Effervescent powder and classify powders.
3. Write in detail about the various factors affecting Posology.
4. Describe any two therapeutic incompatibilities and methods to overcome it with examples.

**II. Write notes on:**

**(6 x 5 = 30)**

1. The method of preparation of suppositories.
2. Maceration process.
3. Lotion and Liniment.
4. Explain the evaluation of suspension.
5. Surgical sutures and ligatures.
6. The development of pharmacy profession.

PAPER II – PHARMACEUTICS  
*Q.P. Code : 383802***

**Time : Three hours**

**Answer ALL Questions**

**Maximum : 70 Marks**

**I. Elaborate on:**

**(4 x 10 = 40)**

1. Define Mixture. Explain the method of preparation of Mixtures containing diffusible and indiffusible solids.
2. Define Posology. Write the methods of calculation of children and infant doses.
3. Define biphasic liquid dosage forms. Write in detail about the formulation of suspensions.
4. Define incompatibility. Discuss the various types of incompatibilities with example.

**II. Write notes on:**

**(6 x 5 = 30)**

1. Surgical Sutures.
2. Emulsifying agents.
3. Classify suppository bases.
4. Organoleptic additives.
5. Method of preparation of tinctures from organized and unorganized drugs.
6. Classify Powders.

*Q.P. Code : 383802***

**Time : Three hours**

**Answer ALL Questions**

**Maximum : 70 Marks**

**I. Elaborate on:**

**(4 x 10 = 40)**

1. The Monophasic dosage forms and its classification with examples.
2. Classify suppository bases. Write their advantages, disadvantages and ideal properties with example.
3. Define prescription and explain the handling of prescription.
4. Discuss in detail about different types of Pharmacopoeia.

**II. Write notes on:**

**(6 x 5 = 30)**

1. Medical bandages and its uses.
2. Classify powders. Give example for each type of powder.
3. Flocculated suspension and deflocculated suspension.
4. Describe the technique used for percolation process.
5. What is chemical incompatibility? How do you overcome it?
6. Mouth washes.

**Answer ALL Questions**

**Maximum : 70 Marks**

**I. Elaborate on:**

**(4 x 10 = 40)**

1. Define and classify Monophasic Liquid dosage form. Explain preparation of throat pain.
2. Classify Suppository bases. What are the characteristics of an ideal base? Give a detailed method of preparation.
3. Define Emulsion. Classify Emulsifying agents and explain in detail.
4. Define 'Surgical dressings'. Write the ideal characteristics of surgical dressings and explain about bandages.

**II. Write notes on:**

**(6 x 5 = 30)**

1. Displacement value and its significance.
2. Write about the preparation of calamine lotion.
3. Classify medicated bandages and its uses.
4. Decoction and infusion.
5. Differentiate between the procedures followed in the preparation of tinctures from organized and unorganized drugs.
6. Syrups and elixirs.
