
(Old Regulation)

Paper II — MEDICINE

Time: Three hours. Maximum: 100 marks.

Answer ALL questions.

Answer Sections A and B in separate answer books.

SECTION A

1. Mention the common causes of Headache. How will you proceed to investigate a case of headache? (15 marks)

2. Discuss the Oro-dental manifestations of systemic diseases. (15 marks)

3. Write short notes on any THREE:
   (a) Trigeminal neuralgia.
   (b) Angina Pectoris.
   (c) Vitamin A.
   (d) Bleeding time. (18 marks)

SECTION B

1. How is the normal serum calcium level maintained? What are the clinical manifestations of hypocalcaemia? (16 marks)

2. Discuss the Clinical manifestations of Diabetes Mellitus. (16 marks)

3. Write short notes on any THREE:
   (a) Metronidazole.
   (b) Ludwig's Angina.
   (c) Ulcerative gingivitis.
   (d) Dysphagia. (18 marks)
THIRD B.D.S. DEGREE EXAMINATION

(Old Regulation)

Paper II — GENERAL MEDICINE

Time: Three hours. Maximum: 100 marks.

Answer ALL questions.
Answer Sections A and B in separate answer books.

SECTION A

1. What are the clinical features of T.B. Meningitis? Describe the complications and management. (15)

2. What are the clinical symptoms and signs of Myxoedema in an adult? Discuss in detail all the investigations that can be done to confirm the diagnosis. (15)

3. Write short notes on any four:
   (a) Syncope
   (b) Chorea
   (c) Pellagra
   (d) Beta blockers
   (e) Tremors of fingers
   (f) Babinski’s sign. (4 × 5 = 20)

SECTION B

4. What is Essential Hypertension? Discuss the clinical symptoms, signs and complications of untreated Hypertension. (15)

5. Enumerate the causes of haematemesis. Discuss in detail the clinical features of any one of the causative diseases and its management. (15)

6. Write short notes on any four:
   (a) Anaemia
   (b) Kernig’s sign
   (c) Night blindness
   (d) Tetany
   (e) Angina Pectoris.
   (f) Primary complex.
THIRD B.D.S. DEGREE EXAMINATION.

(New Regulations)

Paper II — GENERAL MEDICINE

Time: Three hours 
Maximum: 90 marks
Two and a half hours 
Sections A and B: 60 marks.
for Sections A and B

Answer Sections A and B in separate answer books.

Answer Section C in the answer sheet provided.

SECTION A — (2 × 15 = 30 marks)

Answer any TWO questions.

1. Describe the clinical features of cirrhosis of liver.

2. Describe the gross anatomy of trigeminal nerve.
Describe trigeminal neuralgia, its diagnosis and management.

3. Describe the etiology clinical features and management of enteric fevers.

4. Describe the orodental manifestations of various systemic diseases.

SECTION B — (6 × 5 = 30 marks)

Answer any SIX questions.

5. (a) Medical emergencies in dental practice.
(b) Hepatic amoebiasis.
(c) Agranulocytosis
(d) Treatment of left ventricular failure.
(e) Cretinism.
(f) Syncope.
(g) Tetany.
(h) Penicillin anaphylaxis.
(i) Clinical features of fibrocytovascular disease.
Third B.D.S. Degree Examination
(Old Regulations)

Paper II - GENERAL MEDICINE

Time: Three hours    Maximum: 100 marks

Answer All questions
Answer Sections A and B in separate answer books.

SECTION—A

1. Describe the causes, clinical features and complications of cirrhosis of liver. Outline the management of any one of its complications. (15)

2. Describe the clinical features and treatment of Rheumatic Mitral Stenosis. Add a note on the dental significance. (15)

3. Write short notes on any FOUR: (4x5 = 20)
   a) Trigeminal neuralgia
   b) NSAID
   c) Scurvy
   d) Widal test
   e) Hemophilia
   f) Tropical pulmonary eosinophilia

SECTION—B

4. Discuss the clinical features of pulmonary tuberculosis and its complications. Add a note on short course anti tuberculous treatment. (15)

5. Describe the classification and diagnostic criterion of diabetes mellitus. Add a note on the management of an obese NIDDM patient. (15)

6. Write short notes on any FOUR:
   a) Amoebic dysentery
   b) Causes of jaundice
   c) Nifedipine
   d) Urinary findings in acute glomerulo nephritis
   e) Migrain
   f) Mumps (4x5 = 20)
Third B. D. S. Degree Examination

(New Regulations)

Paper II - GENERAL MEDICINE

Time: Three hours  Maximum: 90 marks
Two and a half hours  Sections A and B: 60 marks
for Sections A and B

Answer sections A and B in separate answer books
Answer Section C in the answer sheet provided

SECTION A

[2X15 = 30]

Answer any Two Questions

1. Enumerate the causes of cirrhosis of liver.
   Describe the clinical features of Alcoholic Cirrhosis. Add a note on the dental considerations.

2. Discuss the symptoms, signs, diagnosis and treatment of lung abscess. Mention the dental significance.

3. Discuss the oral manifestations of acute leukemia. How would you manage a case of acute promyelocytic leukemia?

4. Discuss the differential diagnosis of unilateral headache. Outline the management of any one of them.

SECTION B

[6X5 = 30]

5. Write Short notes on any Six of the following:
   a) Angular stomatitis
   b) Tender Hepatomegaly
   c) Aortic Regurgitation
   d) Widal test
   e) Bell's Palsy
   f) Hypoglycemia
   g) Diuretics
   h) Obstructive jaundice
   i) Anti hypertensives
APRIL - 1996

AK 620

Third B.D.S. DEGREE EXAMINATION
(Old Regulations)

Paper II - GENERAL MEDICINE

Time : Three hours
Max : 100 Marks

Answer All questions.
Answer Sections A and B in separate answer books.
Draw diagrams wherever necessary.

SECTION - A

1. Discuss the pathogenesis, clinical features, complications and management of intestinal amoebiasis. (15)

2. Classify pneumonias. Describe clinical features, diagnosis and management of pneumococcal pneumonia. (15)

3. Write short notes on any Four: (4 X 5 = 20)
   a). HBs Ag
   b). Prothrombine time
   c). Tender hepatomegaly
   d). Rheumatic prophylaxis
   e). Tropical Eosinophilia
   f). Pernicious Anaemia

SECTION - B

4. Describe the clinical features diagnosis and management of enteric fever. (15)

5. Mention the causes of bleeding from gums. How will you proceed with investigating the patient. (15)

6. Write short notes on any Four: (4 X 5 = 20)
   a). Haemolytic jaundice
   b). Patient Ductus Arteriosus
   c). Anaphylactic shock
   d). Hypothyroidism
   e). Bell’s palsy
   f). Riboflavin

**********
Third B. D. S. Degree Examination

(New Regulations)

Paper II - GENERAL MEDICINE

Time : Three hours Max. : 90 marks
Two and a half an hour Sec. A and B : 60 marks
for Sec. A and B

Answer Sections A and B in separate answer books.
Answer Section C in the answer sheet provided.

SECTION - A (2X15 = 30)

Answer any TWO questions.

1. Classify jaundice. Describe the clinical features, diagnosis and management of Hepatitis A.

2. Describe the clinical features, diagnosis and management of subacute bacterial endocarditis.

3. Describe the clinical features, diagnosis and management of post primary pulmonary tuberculosis.

4. Discuss the oral lesions of systemic diseases.

SECTION - B (6X5 = 30)

5. Write short notes on any SIX of the following:
   a) Ventricular Septal Defect
   b) Infective diarrhoea
   c) Human insulin
   d) HIV infection
   e) Respiratory failure
   f) Angina pectoris
   g) Anaphylactic shock
   h) Vitamin B₁₂
   i) Idiopathic thrombocytic purpura
Third B.D.S. Degree Examination
(Revised Regulations)

Paper II - GENERAL MEDICINE

Time: Three hours  Maximum: 100 marks
Two and a half hours  Sec. A and B: 70 marks
for Section A and B

Answer Sections A and B in separate answer books.
Answer Section C in the answer sheet provided.

SECTION - A
(2×15 = 30)

1. Define Headache. Enumerate its causes.
   Describe the etiology, clinical features and treatment of migraine.

2. Describe the etiology, clinical features and management of acute nephritis.

SECTION - B
(8×5 = 40)

3. Write short notes on:
   a) Jones's criteria
   b) Glomerulitis
   c) Complications of typhoid fever
   d) Tetany
   e) Diagnosis of diabetes mellitus
   f) Tender hepatomegaly
   g) Calcium channel blockers
   h) Agranulocytosis
THIRD B.D.S. DEGREE EXAMINATION.

(Old Regulations)

Paper II — GENERAL MEDICINE

Time : Three hours

Answer Sections A and B in separate answer books.

SECTION A

1. Describe the calcium homeostasis in health and disease. Add a note on tetany. (15)

2. Mention the causes of nephrotic syndrome. Describe the clinical features, investigations and treatment of nephrotic syndrome. (15)

3. Write short notes on any FOUR : (4 x 5 = 20)
   (a) Diagnosis of diabetes mellitus.
   (b) Agranulocytosis.
   (c) Diagnosis of rheumatic fever.
   (d) Glossitis.
   (e) Acute Gastritis.
   (f) Chloroquine.

SECTION B

4. Define and classify hypertension. Describe the complications of hypertension. Add a note on non-drug therapy of hypertension. (15)

5. Describe the causes, clinical features, diagnosis and treatment of thiamine deficiency. (15)

6. Write short notes on any FOUR: (4 x 5 = 20)
   (a) Atrial septal defect.
   (b) Phenytoin sodium.
   (c) Widal test.
   (d) Goiter.
   (e) Trigeminal neuralgia.
   (f) Infective endocarditis prophylaxis.
OCTOBER - 1996

Subject Code : 4092

THIRD B.D.S. DEGREE EXAMINATION.

(New Regulations)

Paper II — GENERAL MEDICINE

Time : Three hours
Maximum : 90 marks

Two and a half hours
Sec. A & B : 60 marks

for Sec. A and Sec. B

Answer Sections A and B in separate answer books.

Answer Section C in the answer sheet provided.

SECTION A — (2 x 15 = 30 marks)

Answer any TWO questions.

1. Describe the causes, clinical features and treatment of thrombocytopenic purpuras.

2. Compare and contrast insulin dependent diabetes mellitus versus non–insulin dependent diabetes mellitus. Describe the drug therapy of diabetes mellitus.

3. Describe the clinical features, investigations and treatment of tubercular pleural effusion.

4. Classify epilepsy. Describe the clinical features, investigations and treatment of grand mal epilepsy.

SECTION B — (6 x 5 = 30 marks)

5. Write short notes on any SIX:

(a) Retroviruses.

(b) Folic acid.

(c) Christmas disease.

(d) Constipation.

(e) Chancre.

(f) Beta Blockers.

(g) Mumps.

(h) Cyanosis.
THIRD B.D.S. DEGREE EXAMINATION.
(Revised Regulations)
Paper II — GENERAL MEDICINE
Time: Three hours
Maximum: 100 marks
Two and a half hours
Sec. A & Sec. B: 70 marks
for Sec. A and Sec. B

Answer Section A and B in separate answer books.
Answer Section C in the answer sheet provided.

SECTION A — (2 x 15 = 30 marks)

1. Describe the etiology, clinical features, investigations and treatment of acute pyogenic meningitis.

2. Enumerate the causes of cirrhosis of the liver. Describe the pathogenesis, clinical features and treatment of cirrhotic ascites.

SECTION B — (8 x 5 = 40 marks)

3. Write short notes on:
   (a) Complications of pneumonia.
   (b) Status asthmaticus.
   (c) Treatment of acute pulmonary oedema.
   (d) Migraine.
   (e) Sulphonyl ureas.
   (f) Proteinuria.
   (g) Oral manifestations of aids.
   (h) Herpes zoster.
THIRD B.D.S. DEGREE EXAMINATION

(Old Regulations)

PAPER-II GENERAL MEDICINE

Time: Three hours

Max: 100 marks

Answer Sections A and B in separate answer books

SECTION-A

1. Discuss aetiology, clinical features and management of acute left ventricular failure. (15)

2. Classify Leukemia. Describe clinical features diagnosis and treatment of chronic myeloid leukemia. (15)

3. Write short notes on any FOUR: (4x5=20)
   a) Atrial septal defect
   b) Emphysema
   c) Agranulocytosis
   d) Trigeminal neuralgia
   e) Malabsorption syndrome
   f) Folic acid

SECTION-B

4. Describe causes, diagnosis and management of acute glomerulonephritis. (15)

5. Define Diabetes mellitus and describe its clinical features. How will you manage a case of diabetic ketoacidosis. (15)

6. Write short notes on any FOUR: (4x5=20)
   a) Aortic stenosis
   b) Acute bronchitis
   c) Mantoux test
   d) Syncope
   e) Vitamin E
   f) Splenomegaly
OCTOBER - 1997

THIRD B.D.S. DEGREE EXAMINATION
(New Regulations)

PAPER-II GENERAL MEDICINE

Time: Three hours
Two and a half hours
for Sec. A and B

Max: 90 marks
Sec. A & B: 60
marks

Answer Sections A and B in
separate answer books

Answer Section C in the
answer sheet provided

SECTION-A (2x15=30)

Answer any TWO Questions

1. Compare and contrast acute bacillary dysentery
   with acute amoebic dysentery. Describe the
   investigations and treatment for both disorders.

2. Describe the aetiology, clinical features,
   investigations and treatment of infective
   endocarditis.

3. Enumerate the causes of cirrhosis of the liver.
   Describe the clinical features, investigations
   and treatment of Hepatocellular failure.

4. Describe the aetiology, clinical features and
   management of Nephrotic syndrome.

SECTION-B (6x5=30)

Answer any SIX Questions

5. Write short notes on:
   a) Anaphylaxis
   b) Chancre
   c) Status asthmaticus
   d) Prophylaxis of rheumatic fever
   e) Status epilepticus
   f) Complications of pneumonia
   g) Ventricular septal defect
   h) Beta blockers
