OCTOBER - 1991

THIRD B.D.S. EXAMINATION, OCTOBER-1991
(OLD REGULATION)

Paper III - GENERAL SURGERY

Time: Three hours

Maximum: 100 marks

Answer all Questions

Answer Sections A and B in separate answer books

Section - I

1. Classify types of shock and briefly outline the Management. 16 Marks

2. Describe the clinical features and management of telenus. 16 Marks

3. Write short notes on any three
   a. Collar stud abscess 16 Marks
   b. Salivary Calculus
   c. Carcinole
   d. Local analgesia.

Section - II

1. Discuss the differential diagnosis of swellings of Mandible 16 Marks

2. Discuss the clinical features and treatment of Cancer tongue 16 Marks

3. Write short notes on any three
   a. Tracheostomy 18 Marks
   b. Adenoma Thyroid
   c. Rodent Ulcer
   d. Actinomycosis (Cervico Facial)
THIRD B.D.S. DEGREE EXAMINATION.
(Old Regulation)

Paper II — GENERAL SURGERY

Time: Three hours  Maximum: 100 marks
Answer ALL questions.
Answer Sections A and B in separate answer books.
Draw diagrams wherever necessary.

SECTION A

1. Following Dental extraction a patient has developed Cervical lymphadenopathy. Discuss the differential diagnosis and management. (16)

2. Classify Odontomes. Discuss the management of adamantinoma. (16)

3. Write short notes on any THREE of the following: (18)
   (a) Orbital cellulitis.
   (b) Sebaceous cyst.
   (c) Rodent ulcer.
   (d) Tracheostomy.
   (e) Parotid abscess.

SECTION B

4. Discuss Faciomaxillary injuries. (16)

5. Classify Salivary tumours. Discuss the treatment of mixed parotid tumour.

6. Write short notes on any THREE of the following: (18)
   (a) Chemotherapy of carcinoma cheek.
   (b) Adenoma thyroid.
   (c) Median mental sinus.
   (d) Ranula.
SECTION B — (6 x 5 = 30 marks)

Answer any SIX questions.

5. Write short notes on:
   (a) Rodent ulcer.
   (b) Lingual thyroid.
   (c) Ranula.
   (d) Quinsy.
   (e) Dental cyst.
   (f) Post Dental extraction Bleeding.
   (g) Cervical Rib.
   (h) Commando operation.
   (i) Alveolar abscess.

1. Describe the aetiology, clinical features and management of Tetanus.

2. Classify goitres. Describe the clinical features, investigation and treatment of Toxic goitre.

3. Enumerate the tumours of the parotid gland. Describe the clinical features and management of the commonest tumour of the parotid gland.

4. Describe the pathology, clinical features and management of carcinoma of the cheek.
Third B.D.S. Degree Examination
(Old Regulations)

Paper III - GENERAL SURGERY

Time: Three hours Maximum: 100 Marks

Answer All questions
Answer sections A and B in separate answer books
Draw diagrams wherever necessary

SECTION A

1. Classify the tumours of salivary gland and write briefly the management of mixed parotid tumour. (16)

2. Enumerate the surgical complications of Diabetes mellitus and discuss in detail the management of Carbuncle. (16)

3. Write short notes on any THREE:
   a) Collor-stud abscess
   b) Branchial cyst
   c) Epulis
   d) Mucous cyst (3x6 = 18)

SECTION B

1. Classify the malignant tumours of thyroid and write briefly about papillary carcinoma of thyroid (16)

2. Discuss the complications and the management of massive blood transfusion. (16)

3. Write short notes on any THREE:
   a) Waldeyer's ring
   b) Bell's palsy
   c) Transillumination
   d) Hilton's method of draining an abscess (3x6 = 18)
APRIL - 1995

Third B. D. S. Degree Examination
(New Regulations)

Paper III—GENERAL SURGERY

Time: Three hours
Maximum: 90 Marks

Two and a half hours
for Sections A and B
Sections A and B: 60 marks

Answer Sections A and B in separate answer books
Answer Section C in the answer sheet provided

SECTION—A

(2 x 15 = 30)

Answer any TWO question:

1. Classify the tumours of lower jaw and write briefly the clinical features and the management of adamantinoma.

2. Discuss the differential diagnosis of an ulcer tongue

3. Enumerate lateral swellings of the neck and write briefly about cystic hygroma

4. Discuss in detail the management of parathyroid adenoma

SECTION—B

(6 x 5 = 30)

5. Write short notes on any SIX:

   a) Torti collis
   b) Leukoplakia
   c) Dry gangrene
   d) Lucid interval
   e) Tinel's sign
   f) Skin grafting
   g) Rodent ulcer
   h) Retrosternal goitre
   i) Cellulitis
SECTION - A

1. Discuss the differential diagnosis and management of single nodular goitre (solitary nodule) of Thyroid. (16)

2. Mention the various types of shock. Discuss the method of treatment of traumatic hypovolaemic shock. (16)

3. Write short notes on any Three. (3 x 6 = 18)
   a). Dentigerous cyst
   b). Hypothyroidism
   c). Tetanus
   d). Dermoid cyst

SECTION - B

5. Discuss the differential diagnosis of a swelling in the submandibular region. (16)

6. Write short notes on any Three: (3 x 6 = 18)
   a). Lingual dermoid
   b). Epithelioma (squamous cell carcinoma)
   c). Treatment of submandibular salivary calculus
   d). Secondary hemorrhage
Third B.D.S. Degree Examination  
(New Regulations)  
Paper III - GENERAL SURGERY  

Time : Three hours  
Max : 90 marks.  
Two and a half an hour  
for Sec. A and B.  
Sec. A and B : 60 marks.  

Answer Sections A and B in separate answer books.  
Answer Section C in the answer sheet provided.  

SECTION—A  
(2 × 15 = 30)  

Answer any TWO questions.  

1. Define carbuncle and discuss the pathology and management of carbuncle over the nape of neck.  

2. Describe the indications for blood transfusion and discuss its complications.  

3. Define ulcer. Discuss the differential diagnosis of ulcers of the tongue.  

4. Discuss the differential diagnosis of swellings in parotid region. Mention the treatment of mixed parotid tumours (Pleomorphic Adenoma).  

SECTION—B  
(6 × 5 = 30)  

5. Answer any SIX questions:  
   a) Haemangioma  
   b) Gas Gangrene  
   c) Dental cyst  
   d) Osteosarcoma  
   e) Sebaceous cyst  
   f) Secondary hemorrhage  
   g) Anaphylactic shock  
   h) Ranula  
   i) Trismus
APRIL - 1996

Third B.D.S. Degree Examination

(Revised Regulations)

Paper III - GENERAL SURGERY

Time: Three hours Maximum: 100 marks
Two and a half an hour Sec. A and B: 70 marks
for Section A and B

Answer Sections A and B in separate answer books.
Answer Section C in the answer sheet provided

SECTION—A (2×15 = 30)

1. Classify jaw tumors. Discuss the management of adamantinoma.

2. Discuss the clinical features and management of cervical tuberculous lymphadenitis.

SECTION—B (8×5 = 40)

3. Answer in brief:
   a) Primary thyrotoxicosis
   b) Hypovolemic shock
   c) Tetany
   d) Epulis
   e) Actinomycosis
   f) Dermoid cyst
   g) Cleft lip
   h) Salivary calculus
THIRD B.D.S. DEGREE EXAMINATION.
(Old Regulations)

Paper III — GENERAL SURGERY

Time: Three hours. Maximum: 100 marks

Answer Sections A and B in separate answer books.

SECTION A

1. Discuss the clinical features, investigations and management of Primary Toxic Goitre. (16)

2. Define ulcer. Discuss the differential diagnosis of ulcers of the tongue. (16)

3. Write short notes on any THREE: \(3 \times 6 = 18\)
   (a) Ranula.
   (b) Dental cyst.
   (c) Cleft palate.
   (d) Hypotensive shock.

SECTION B

4. Discuss the differential diagnosis of Mid-line swellings in the neck. (16)

5. Discuss the Aetiology, clinical features and management of carcinoma of the tongue. (16)

6. Write short notes on any THREE: \(3 \times 6 = 18\)
   (a) Thyroglossal cyst.
   (b) Causes of bleeding after dental extraction.
   (c) Cold abscess.
   (d) Staging of lymphoma.
THIRD B.D.S. DEGREE EXAMINATION.
(New Regulations)
Paper III — GENERAL SURGERY

Time: Three hours
Maximum: 90 marks

Sections A and B: 60 marks

Answer Sections A and B in separate answer books.
Answer Section C in the answer sheet provided.

SECTION A — (2 x 15 = 30 marks)
Answer any TWO questions.
1. How do you investigate and manage a case of solitary nodule thyroid.
2. Discuss the management of Tetanus.
3. Classify haemorrhage. Discuss the management of external haemorrhage.
4. Discuss the differential diagnosis of ulcers of the tongue.

SECTION B — (6 x 5 = 30 marks)
5. Answer briefly any SIX questions:
   (a) Carbuncle.
   (b) Cold abscess.
   (c) Actino mycosis.
   (d) Pleomorphic adenoma of parotid gland.
   (e) Autoimmune thyroiditis.
   (f) Tetany.
   (g) Adamantinoma.
   (h) Dentigerous cyst.
OCTOBER - 1996

[PK 629] Subject Code : 4093

THIRD B.D.S. DEGREE EXAMINATION.
(Revised Regulations)

Paper III — GENERAL SURGERY

Time : Three hours Maximum : 100 marks
Two and a half hours Sections A and B : 70 marks
for Sec. A and B

Answer Sections A and B in separate answer books.
Answer Section C in the answer sheet provided.

SECTION A — (2 x 15 = 30 marks)

1. Classify Goitres. Discuss the various investigations that are
done in a case of Goitre.

2. Discuss the clinical features, investigations and manage-
ment of a case of carcinoma cheek.

SECTION B — (8 x 5 = 40 marks)

3. Answer in brief:
   (a) Cold Abscess.
   (b) Gangrene.
   (c) Indications for blood transfusion.
   (d) Factors influencing wound healing.
   (e) Pleomorphic Adenoma.
   (f) Thyroglossal cyst.
   (g) Cervical Rib.
   (h) Ranula.
OCTOBER - 1997

THIRD B.D.S. DEGREE EXAMINATION
(Old Regulations)

PAPER-III GENERAL SURGERY

Time: Three hours Max:100 marks

Answer Sections A and B in separate answer books

SECTION-A

1. Discuss the aetiology, clinical features and management of Carcinoma of tongue. (16)

2. Classify the jaw tumours. Discuss the clinical features and management of Adamantinoma. (16)

3. Write short notes on any THREE: (3x6=18)
   a) Rodent ulcer
   b) Epulis
   c) Branchial cyst
   d) Acinomycosis

SECTION-B

4. Describe the stages of tuberculous lymphadenitis and discuss the management of cold abscess. (16)

5. Discuss the aetiology, clinical features and management of Hyper-parathyroidism. (16)

6. Write short notes on any THREE: (3x6=18)
   a) Lingual thyroid
   b) Cleft lip
   c) Diathermy
   d) Anaphylactic shock
THIRD B.D.S. DEGREE EXAMINATION
(New Regulations)

PAPER-III GENERAL SURGERY

Time: Three hours
Two and a half hours for Sec. A and B
Max: 90 marks
Sec. A & B: 60 marks

Answer Sections A and B in separate answer books
Answer Section C in the answer sheet provided

SECTION-A (2x15=30 marks)
Answer any TWO Questions

1. Discuss the differential diagnosis of midline swelling of the neck. Describe the management of thyroglossal cyst.

2. Define shock. Discuss the management of hypovolaemic shock.

3. Classify goitres. Discuss the investigation and management of primary thyrotoxicosis.

4. Discuss the clinical features and management of Tetanus.

SECTION-B

(6x5=30 marks)

3. Write short notes on any SIX:
   a) Mixed parotid tumour
   b) Leukoplakia
   c) Epulis
   d) Cold abscess
   e) Tracheostomy
   f) Haemophilia
   g) Cervico facial actinomycosis
   h) Management of squamous cell carcinoma of the lip.

####

####
THIRD B.D.S. DEGREE EXAMINATION.
(New/Revised Regulations)
Paper III — GENERAL SURGERY

Time: Three hours Maximum: 100 marks
Two and a half hours Sec. A and B: 70 marks

for Section A and B

Answer Sections A and B in separate answer books.
Answer Section C in the answer sheet provided.

SECTION A (2 x 15 = 30 marks)

1. Classify the tumors of parotid gland and discuss the clinical features and management of pleomorphic adenoma.

2. Discuss the etiology, clinical features and management of tetanus.

SECTION B

3. Write short notes on: (8 x 5 = 40 marks)
   (a) Carbuncle.
   (b) Solitary thyroid nodule.
   (c) Branchial fistula.
   (d) Thyroglossal cyst.
   (e) Cold abscess.
   (f) Dermoid cyst.
   (g) Ludwig's angina.
   (h) Local anaesthesia in dentistry.
THIRD B.D.S. DEGREE EXAMINATION
(New Regulations)
PAPER-III GENERAL SURGERY

Time: Three hours
Two and a half hours
for Sec. A and B
Max: 90 marks
Sec. A & B: 60 marks

Answer Sections A and B in separate answer books
Answer Section C in the answer sheet provided

SECTION-A

Answer any TWO Questions (2x15 = 30)

1. Discuss the differential diagnosis of lateral swellings in the neck.

2. Define shock. Discuss the management of septic shock.

3. Discuss the clinical features, investigations and management of a case of carcinoma check.

4. Describe the indications for Blood Transfusion and discuss its complications.

SECTION-B

5. Answer any SIX: (6x5 = 30)
   a) Anthrax.
   b) Dentigerous cyst.
   c) Cervical rib.
   d) Auto immune thyroiditis.
   e) Mixed Parotid tumours.
   f) Lipoma.
   g) Factors influencing wound healing.
   h) Ranula.
THIRD B.D.S. DEGREE EXAMINATION.
(Old/Revised Regulations)
Paper III — GENERAL SURGERY

Time: Three hours
Two and a half hours
for Sec. A and Sec. B

Answers Sections A and B in separate answer books.

Maximum: 100 marks
Sec. A & Sec. B: 70 marks
Section C: 30 marks

Answer Section C in the answer sheet provided.

SECTION A — (2 x 15 = 30 marks)

1. Discuss the differential Diagnosis of ulcers of the tongue.

2. Discuss the staging, investigations and management of Hodgekin's lymphoma.

SECTION B — (8 x 5 = 40 marks)

3. Write short notes on:
   (a) Alveolar abscess.
   (b) Cleft Lip.
   (c) Septicaemia.
   (d) Submandibular salivary adenitis
   (e) Clinical features of thyrotoxicosis
   (f) Cystic hygroma.
   (g) Cellulitis.
   (h) Skin grafting.
THIRD B.D.S. DEGREE EXAMINATION
(New Regulations)

Paper III — GENERAL SURGERY

Time : Three hours

Maximum : 90 marks

Two and a half hours Sec. A & Sec. B : 60 marks

for Sec. A and Sec. B

Section C : 30 marks

Answer Sections A and B in separate answer books.

Answer Section C in the answer sheet provided.

SECTION A — (2 x 15 = 30 marks)

Answer any TWO questions.

1. Discuss etiology and clinical features of TETANUS infection. Briefly mention the treatment.

2. Discuss cervical tuberculous lymphadenitis and its management.

3. What are the indications for Tracheostomy? How do you manage Tracheostomy?

4. Discuss the clinical features and management of Primary Thyrotoxicosis.

SECTION B — (6 x 5 = 30 marks)

5. Answer any SIX :
   (a) Trigeminal neuralgia.
   (b) Branchial cyst.
   (c) Epulis.
   (d) Cancrum oris.
   (e) Malignant secondary lymph nodes.
   (f) Sequestration dermoid.
   (g) Carbuncle.
   (h) 'Golden Hour' in injury.
THIRD B.D.S. DEGREE EXAMINATION.
(Old/Revised Regulations)

Paper III — GENERAL SURGERY

Time : Three hours  Maximum : 100 marks
Two and a half hours  Sec. A & Sec. B : 70 marks
for Sec. A and Sec. B  Section C : 30 marks

Answer Sections A and B in separate answer books.
Answer Section C in the answer sheet provided.

SECTION A  \((2 \times 15 = 30\) marks\)

1. Discuss Haemorrhage and its brief management.
2. Discuss cellulitis and its complications and management.

SECTION B  \((8 \times 5 = 40\) marks\)

3. (a) Gas gangrene
   (b) Salivary Fistula
   (c) Tetany
   (d) Basal cell carcinoma
   (e) Thyroid storm
   (f) Leukoplakia
   (g) Ranula
   (h) Keloid.
THIRD B.D.S. DEGREE EXAMINATION.
(Revised Regulations)
Paper III — GENERAL SURGERY

Time: Three hours  Maximum: 100 marks
Two and a half hours  Sec. A & Sec. B: 70 marks
for Sec. A and Sec. B  Section C: 30 marks

Answer Sections A and B in separate answer books.

Answer Section C in the answer sheet provided.

SECTION A  (2 x 15 = 30 marks)

1. What is goitre? What are the different types of goitre? Describe the signs, symptoms and management of a case of thyrotoxicosis.

2. Describe the pathology, clinical features, prophylaxis and management of a case of Tetanus.

SECTION B  (3 x 5 = 40 marks)

3. Write short notes on:
   (a) Rodent ulcer
   (b) Lipoma
   (c) Cleft lip
   (d) Carbuncle
   (e) Glasgow coma scale
   (f) Hypovolaemic shock
   (g) Bleeding from gums
   (h) Cystic hygroma.
THIRD B.D.S. DEGREE EXAMINATION.
(Revised Regulations)

Paper III — GENERAL SURGERY

Time : Three hours  Maximum : 100 marks
Two and a half hours  Sec. A & Sec. B :  70 marks
for Sec. A and Sec. B  Section C :  30 marks

Answer Sections A and B in separate answer books.
Answer Section C in the answer sheet provided.

SECTION A

(2 x 15 = 30 marks)

1. Classify tumours of salivary glands and discuss the clinical features and management of pleomorphic adenoma of parotid gland.

2. What are the clinical features of hypovolemic shock? Briefly outline its management.

SECTION B

3. Write short notes on :  (8 x 5 = 40 marks)
   (a) Alveolar abscess
   (b) Basal cell carcinoma
   (c) Cellulitis
   (d) Salivary calculus
   (e) Tracheostomy
   (f) Frey's syndrome
   (g) Septicaemia
   (h) Lingual Thyroid.
THIRD B.D.S. DEGREE EXAMINATION.
(Revised Regulations)
Paper III — GENERAL SURGERY

Time : Three hours
Maximum : 100 marks
Two and a half hours
Sec. A & Sec. B : 70 marks
for Sec. A and Sec. B
Section C : 30 marks

Answer Sections A and B in separate Answer books.
Answer Section C in the answer sheet provided.

Answer ALL questions.

SECTION A — (2 × 15 = 30 marks)

1. Describe the aetiology, clinical features and principles of treatment of Tetanus. Describe how tetanus can be prevented.

2. Enumerate the causes for carcinoma tongue. Describe the clinical features, complications and treatment of carcinoma tongue.

SECTION B — (8 × 5 = 40 marks)

3. Write short notes on :
   (a) Abscess—clinical features and treatment
   (b) Cervicofacial Actinomycosis
   (c) Basal cell carcinoma
   (d) Complications of thyroid surgery
   (e) Indications for Tracheostomy
   (f) Causes for Gangrene
   (g) Causes for Non–healing of a fistula or sinus
   (h) Neuropraxia.
THIRD B.D.S. DEGREE EXAMINATION.

(Modified Regulations)

Paper III — GENERAL SURGERY

Time: Three hours  Maximum: 100 marks
Two and a half hours  Sec. A & Sec. B: 70 marks
for Sec. A and Sec. B  Section C: 30 marks

Answer Section A and B in separate answer books.

Answer Section C in the answer sheet provided.

Answer ALL questions.

SECTION A — (2 × 15 = 30 marks)

1. What is cellulitis? Discuss the causes, clinical features and management of cellulitis.

2. Describe the pathology, clinical features, investigation and treatment of tuberculous lymphadenitis.

SECTION B — (8 × 5 = 40 marks)

3. Write short notes on:
   (a) Carbuncle
   (b) Reactionary haemorrhage

   (c) Ludwig's angina
   (d) Complications of parotid surgery
   (e) Prophylaxis against tetanus
   (f) Staging of Hodgkin's lymphoma
   (g) Mixed Salivary tumour
   (h) Haemophilia.
(c) Tetanus prophylaxis.
(d) Ludwig’s Angina.
(e) Leukoplakia.
(f) Plunging Goitre.
(g) Factors influencing wound healing.
(h) Tracheostomy.

Answer Sections A and B in separate Answer Books.

Answer Section C in the Answer Sheet provided.

Answer ALL questions.

SECTION A — (2 x 15 = 30 marks)

1. Define a wound. Describe the types of wound healing, process of wound healing, complications and management.

2. Describe the pathology, clinical features, classification, investigation and treatment policy of Hodgkin’s disease.

SECTION B — (8 x 5 = 40 marks)

3. Write short notes on:
   (a) Complications of Blood Transfusion.
   (b) Dental cyst.
OCTOBER - 2000

[KC 660]  
Sub. Code : 4143

THIRD B.D.S. DEGREE EXAMINATION.
(Modified Regulations)

Paper III — GENERAL SURGERY

Time : Three hours  
Two and a half hours  
for Sec. A & Sec. B

Maximum : 100 marks  
Sec. A & Sec. B : 70 marks  
Section C : 30 marks

Answer Sections A and B in separate Answer Books.

Answer Section C in the Answer Sheet provided.

SECTION A — (2 x 15 = 30 marks)

1. How will you classify goitres? Discuss the clinical features and management of diffuse toxic goitre (Grave's disease)

2. Define and classify the various types of shock. Discuss briefly the clinical features and management of shock.

SECTION B — (8 x 5 = 40 marks)

3. Write short notes on:
   (a) Thyroglossal cyst.
   (b) Cold Abscess.
   (c) Rodent ulcer.
