FINAL B.D.S. DEGREE EXAMINATION.

Part I
(Modified Regulations) — II

Paper I — ORTHODONTICS AND DENTO FACIAL
ORTHOPAEDICS

Time: Three hours
Sec. A & B: Two hours and forty minutes
Sec. A & B: 80 marks

Section C: Twenty minutes
Section C: 20 marks

Answer Sections A and B in the SAME Answer Book.
Answer Section C in the answer sheet provided.

SECTION A — (2 x 15 = 30 marks)

1. What are the clinical implications of growth and development? (15)

2. Define a functional appliance. What are the indications, mode of action and design of a FR II appliance. (15)

SECTION B — (10 x 5 = 50 marks)

3. Write short notes on:

(a) Nasal septae cartilage
(b) Thumb sucking habit
(c) Face mask
(d) Hand wrist radiograph
(e) Pressure tension hypothesis
(f) Simons classification
(g) Extra oral traction
(h) Orthognathic surgery
(i) Cortical anchorage
(j) Preadjusted Edgewise appliance
FINAL B.D.S. DEGREE EXAMINATION.

Part I
(Modified Regulations) — II

Paper I — ORTHODONTICS AND DENTOFACIAL ORTHOPAEDICS

Time: Three hours  Maximum: 100 marks
Sec. A & B: Two hours and forty minutes  Sec. A & B: 80 marks
Section C: Twenty minutes  Section C: 20 marks

Answer Sections A and B in the SAME Answer Book.
Answer Section C in the Answer Sheet provided.

Answer ALL questions.

SECTION A — (2 × 15 = 30 marks)

1. What are the different theories of growth? Explain the functional Matrix hypothesis in detail. (15)

2. Classify the etiology of malocclusion. Describe the role of mouth breathing in the development of open bite malocclusion. (15)

SECTION B — (10 × 5 = 50 marks)

3. Write short notes on:
(a) Rapid Palatal Expansion.
(b) Cephalo Caudal gradient of growth
(c) Fixed functional appliance
(d) Rotational Relapse
(e) Envelop of discrepancy
(f) Cephalometric radiograph
(g) Buccinator Mechanism
(h) Fixed appliance
(i) Face mask
(j) Inclined plane.
FINAL B.D.S. DEGREE EXAMINATION.
(Modified Regulations — II)

PART I

Paper I — ORTHODONTICS AND DENTOFACIAL
ORTHOPAEDICS

Time: Three hours
Sec. A & B: Two hours and forty minutes
Sec. A & B: 80 marks
Section C: Twenty minutes
Section C: 20 marks

Answer Sections A and B in the SAME Answer Book.
Answer Section C in the answer sheet provided.

SECTION A — (2 × 15 = 30 marks)

1. Define abnormal pressure habits. Write in detail about the classification, clinical findings and treatment for mouth breathers. (15)

2. Define anchorage. What are the different types of anchorage? Discuss with examples. (15)

SECTION B — (10 × 5 = 50 marks)

3. Write short notes on:
(a) Tweeds analysis
(b) Inclined plane
(c) Carpal bones
(d) Spot welder
(e) RME
(f) Springs
(g) Impacted tooth and its orthodontic correction
(h) Nance Carey's analysis
(i) Jackson triad
(j) Occlusal Radiographs.
FINAL B.D.S. DEGREE EXAMINATION.
(Modified Regulations — II, III)
Paper I — ORTHODONTICS AND DENTO FACIAL
ORTHOPAEDICS

Time: Three hours                         Maximum: 100 marks
Sec. A & B: Two hours and forty minutes     Sec. A & B: 80 marks
Section C: Twenty minutes                Section C: 20 marks

Answer Sections A and B in the SAME Answer Book.
Answer Section C in the answer sheet provided.

SECTION A — (2 × 15 = 30 marks)

1. Define and classify functional appliances. Describe in detail, the activator.

2. What are the various preventive orthodontic procedures? Explain in detail the various space maintainers.

SECTION B — (10 × 5 = 50 marks)

3. Write short notes on:
   (a) Expanding "V" principle
   (b) Drawbacks of Angle's classification
   (c) Mouth breathing habit
   (d) Reciprocal anchorage
   (e) Rapid palatal expansion
   (f) Wolf's law of bone transformation
   (g) Anterior bite planes
   (h) Positioners
   (i) Buccal canine retraction
   (j) Face mask therapy.
FINAL B.D.S. DEGREE EXAMINATION.
(Modified Regulations — II, III)

Paper I — ORTHODONTICS AND DENTO FACIAL ORTHOPAEDICS

Time : Three hours  Maximum : 100 marks
Sec. A & B : Two hours and forty minutes  Sec. A & B : 80 marks
Sec. C : Twenty minutes  Sec. C : 20 marks

Answer Sections A and B in the SAME Answer Book.

Answer Section C in the Answer Sheet provided.

Answer ALL questions.

SECTION A — (2 × 15 = 30 marks)

1. Describe the aetiology, diagnosis and treatment of angle's class III malocclusion patients. (15)

2. Enumerate the various methods of gaining space and discuss extractions in orthodontics. (15)

SECTION B — (10 × 5 = 50 marks)

3. Write short notes on:
(a) Endochondral bone formation
(b) Early loss of deciduous teeth
(c) Resection and osteotomies
(d) Butler's field theory
(e) Development of palate
(f) Electromyography in orthodontics
(g) Arch perimeter analysis
(h) Springs
(i) Uses of cephalometrics
(j) Wrought cobalt-chromium-nickel alloys.
AUGUST - 2006

[KP 669] Sub. Code : 4161

FINAL B.D.S DEGREE EXAMINATION.
(Modified Regulations — II, III)

Paper I — ORTHODONTICS AND DENTO FACIAL ORTHOPAEDICS

Time : Three hours Maximum : 100 marks
Descriptive : Two hours and forty minutes
Descriptive : 80 marks
Objective : Twenty minutes Objective : 20 marks

Answer ALL questions.

Write essay on:

1. Discuss in detail the clinical implications of Growth and Development and enumerate the use of cephalometric to study the same. (20)

2. Classify etiology of malocclusion. Discuss general factors in detail. (15)

3. Define growth and development. Discuss post-natal growth of maxilla. (15)

4. Write short notes on:
   (a) Flux and antiflux
   (b) Carpal radiographs
   (c) Extra oral anchorage
   (d) Pseudo class III
   (e) Buccinator mechanism
   (f) Undermining resorption. (6 x 5 = 30)
FEBRUARY - 2007

[KQ 669] Sub. Code : 4161

FINAL B.D.S. DEGREE EXAMINATION.
(Modified Regulations - II, III)
Paper I — ORTHODONTICS AND DENTAL FACIAL ORTHOPAEDICS

Time : Three hours Maximum : 100 marks
Descriptive : Two hours and forty minutes Descriptive : 80 marks
Objective : Twenty minutes Objective : 20 marks

Answer ALL questions.

1. Define and classify functional appliances. Write in detail about Frankel's appliance.
   (20)

2. Define optimal orthodontic force. Discuss tissue changes subsequent to light and heavy forces.
   (15)

3. Describe various classifications of malocclusions. Write the advantages and disadvantages of Angles classification.
   (15)

4. Write short notes on:
   (6 x 5 = 30)
   (a) Functional matrix theory.
   (b) Hand wrist radiographs.
   (c) Reinforced anchorage.
   (d) Features of class II div 1 malocclusion.
   (e) Uses of Shody models.
   (f) Transient malocclusion.
AUGUST 2007

[KR 669]  
Sub. Code : 4161

FINAL B.D.S. DEGREE EXAMINATION.
(Modified Regulations – II, III)

Paper I — ORTHODONTICS AND DENTOFACIAL ORTHOPAEDICS

Time : Three hours  
Descriptive : Two hours and forty minutes
Objective : Twenty minutes

Maximum : 100 marks  
Descriptive : 80 marks  
Objective : 20 marks

Answer ALL questions.

I. Essays : (2 × 15 = 30)

1. Enumerate the various theories of growth and explain in detail functional matrix theory as related to cranio-facial growth. (15)

2. Define retention. Explain the various theorems of retention. (15)

II. Short notes : (10 × 5 = 50)

3. (a) Law of canine.
   (b) Tongue thrusting habit.
   (c) Line of treatment in cleft palate patients.
   (d) Space regainers.
   (e) Head gears.
   (f) Types of tooth movement.
   (g) Management of anterior crossbite.
   (h) Components of fixed appliance.
   (i) 18 – 8 stainless steel.
   (j) Therapeutic extraction.
FEBRUARY 2008

FINAL B.D.S. DEGREE EXAMINATION.

(Modified Regulations — III)

Paper I — ORTHODONTICS AND DENTOFACIAL ORTHOPAEDICS

Q.P. Code: 544161

Time: Three hours Maximum: 100 marks
Descriptive: Two hours and forty minutes Descriptive: 80 marks
Objective: Twenty minutes Objective: 20 marks

Answer ALL questions.

I. Essay: (2 x 15 = 30)

(1) Describe in detail about extra oral radiography and its importance in orthodontic diagnosis and treatment planning.

(2) Classify the etiology of malocclusion. Write in detail about the environmental factors causing malocclusion.

II. Write short notes on: (10 x 5 = 50)

(1) Canine retractors.
(2) Incisor liability

(3) Curve of spee
(4) Twin block appliance.
(5) Preventive orthodontics.
(6) Model analysis.
(7) Bonded retainers.
(8) Theories of growth
(9) Undermining resorption.
(10) Gum pads.
FINAL B.D.S DEGREE EXAMINATION
(Modified Regulations – III)
Paper I– ORTHODONTICS AND DENTOFACIAL ORTHOPAEDICS

Q.P. Code: 544161

Time: Three hours
Maximum: 100 Marks

ANSWER ALL QUESTIONS

I. Essays: (2 X 20 = 40)

1. Define and classify Myofunctional appliance. Discuss any one appliance in detail.

2. Discuss in detail about various interceptive procedures in Orthodontics.

II. Write short notes on: (10 X 6 = 60)

1. Imaginary Occlusal Curves.
2. Keslings Diagnostic Set up.
3. Phases of Tooth Movement.
5. Serial Extraction.
6. Proximal Stripping.
7. Classification and Designing of Springs.
10. Cartilaginous theory.
FINAL B.D.S DEGREE EXAMINATION
(Modified Regulations – III)

Paper I – ORTHODONTICS AND DENTOFACIAL ORTHOPAEDICS

Q. P. Code : 544161

Time : Three hours
Maximum: 100 Marks
Answer ALL questions.

I. Essays : (2 x 20 = 40)

1. Define and classify malocclusions. Describe in detail about the advantages, disadvantages and modifications of Angle’s classification.

II. Write Short notes on : (10 x 6 = 60)

1. Soldering and Welding.
2. Cephalometrics.
3. Extra oral anchorage.
4. Acid etching.
5. Slenderisation.
7. Interceptive orthodontics.
10. Serial extraction.

*****
August 2009

FINAL B.D.S DEGREE EXAMINATION
(Modified Regulations – III)

Paper I – ORTHODONTICS AND DENTOFACIAL ORTHOPAEDICS

Q. P. Code : 544161

Time : Three hours Maximum: 100 Marks

Answer ALL questions.

I. Essays :

1. Define anchorage. Discuss in detail the various types of anchorage with examples and illustrations.

2. Write in detail the postnatal growth of the craniofacial complex and mention the clinical importance of the various growth spurts.

II. Write Short notes on :

1. Activator.
2. Ackermann and proffit classification.
3. Optimum orthodontic force.
4. Serial extraction.
5. Steiner’s analysis.
6. Direct bonding.
7. Rapid maxillary expansion.
8. Functional shift of the mandible.
10. Arch wires.

*****
February 2010

FINAL B.D.S DEGREE EXAMINATION
(Modified Regulations – III)

Paper I – ORTHODONTICS AND DENTOFACIAL ORTHOPAEDICS

Q. P. Code : 544161

Time : Three hours Maximum: 100 Marks

Answer ALL questions.

I. Essays : (2 x 20 = 40)

1. What are the causes for cleft lip and palate? How will you manage the problems associated with them?

2. Classify orthodontics. What are the procedures under taken in preventive orthodontics and explain in detail.

II. Write Short notes on : (10 x 6 = 60)

1. Planning extractions.
2. Skeletal malocclusion.
3. Functional examination.
4. Phases of tooth movement.
5. Planning for space maintenance.
6. Treatment and age.
7. Modifications of activator.
8. Arch expansion.
9. Genetic disorders.
10. Arch wires.

*****
August 2010

FINAL B.D.S DEGREE EXAMINATION
(Modified Regulations – III)

Paper I– ORTHODONTICS AND DENTOFACIAL
ORTHOPAEDICS

Q.P. Code: 544161

Time: Three hours             Maximum: 100 Marks

Answer ALL Questions

I. Essays:            (2 x 20 = 40)

1. Discuss Tissue changes during orthodontic tooth movement.

2. Enumerate various interceptive orthodontic procedures. Explain in detail the indication, contraindication and procedures of serial extraction.

II. Write short notes on:          (10 x 6 = 60)

1. Ugly duckling stage.
2. ANB angle.
4. Gnathostatic models.
5. Head gears.
6. Delaire’s face mask.
7. Leeway’s space of Nance.
8. Direct bonding technique.
9. Advantages and disadvantages fixed appliance.
10. Various methods of gaining space.

*****
Final B.D.S degree examination
(Modified Regulations – III)

Paper I - Orthodontics and Dentofacial Orthopaedics

Q.P. Code: 544161

Time: Three hours
Maximum: 100 marks

Answer ALL questions.

I. Essays: (2 x 20 = 40)

II. Write short notes on: (10 x 6 = 60)

1. Pericision.

2. Classification of cleft lip and palate.

4. Prenatal causes of malocclusion.

6. Undermining resorption.

7. Tweed’s diagnostic triangle.

8. Reinforced anchorage.

10. Space – Age wires.

*****
I. Essay Questions:                                                                                     (2 x 20 = 40)

1. Define anchorage in Orthodontics. Classify anchorage. Discuss in detail the different types of anchorage.

2. Enumerate the various methods of classification etiological factors of malocclusion.
   Write in detail Graber’s classification of general factors.

II. Write Short notes on :                                                                           (10 x 6 = 60)

1. Define Orthodontics and it branches.
3. Functional Matrix theory.
4. Steiner’s Cephalometric analysis.
5. Space regainers.
6. Undermining resorption.
7. Twin block appliance.
8. Management of anterior cross bite
9. Total space analysis
10. Serial extractions.
I. Elaborate on:

1. Define orthodontics. Enumerate the various classifications of malocclusion. Discuss in detail Angle’s classification.
2. Write the various schools of thought of retention. Discuss in detail the theorems of retention.

II. Write notes on:

1. Safety valve mechanism
2. Undermining resorption
3. Wolff’s law and stress trajectories
4. Circumferential supracrestal fibrotomy
5. Activator Vs Frankel
6. Wits analysis
7. Meckels cartilage
8. Space Age wires
9. Guided springs
10. Hyrax screw

*****
I. Elaborate on: (2x10=20)

1. Define Growth and explain Functional matrix theory in detail.
2. What are Removal orthodontic appliances? Explain in detail the various parts of it and add a note on Adam’s clasp.

II. Write notes on: (10x5=50)

1. Growth spurt.
4. 18/8 Stainless steel.
5. Prenatal ethiology of malocclusion.
6. Poorman’s Cephalometry
7. Crossbite correction.
8. Speech sounds.
10. Genetics in Orthodontics.

*******
I. Elaborate on: (2x10=20)

1. Enumerate the various Theories of Growth. Discuss in detail the post natal growth of Mandible.
2. Classify and enumerate the various Diagnostic Aids in Orthodontics. Explain in detail about Carey’s Analysis.

II. Write notes on: (10x5=50)

1. Reciprocal Anchorage
2. Oral Screen
3. Overjet, Overbite
4. Hawley Retainer
5. Growth spurts
6. Welding in Orthodontics
7. Factors affecting Growth
8. Curve of Spee
9. Tweed Triangle
10. Ideal Occlusion
I. Elaborate on: (2X10=20)

1. Tissue response to orthodontic force application.

2. Define cephalometrics. Describe the cephalostat and write in detail about Steiner’s analysis.

II. Write Notes on: (10X5=50)

1. Direct ossification
2. Bionator
3. Adams clasp
4. Spacing in deciduous dentition
5. Stress trajectories
6. Merits and demerits of Angel’s classification
7. Bolton’s ratio
8. Headgears
9. Functional examination in orthodontics
10. Fixed retainers

*******
I. Elaborate on: (2X10=20)

1. Tabulate the Chronology of eruption in Permanent Dentition, and add a note on the clinical significance of the various eruption stages.

2. Enumerate the methods of gaining space in Orthodontics, Write in detail about proximal reduction.

II. Write Notes on: (10X5=50)

1. Malocclusion.
2. Blanch Test.
3. Biological Indicators of Maturity.
4. Anterior Cross Bite.
5. Soldering in Orthodontics.
6. Ugly Duckling Stage.
7. Types of Tooth Movement.
8. Frenectomy.
10. Primary Molar Relationship.
I. Elaborate on: 

1. Define retention and relapse. What are the causes for relapse and methods to prevent relapse?

2. Write about the etiology, clinical features, diagnosis and management of class II division 1 malocclusion in a growing child.

II. Write Notes on: 

1. Safety valve mechanism.
2. Functional matrix.
3. Resorption patterns following orthodontic force application.
5. Incisal liability.
6. Chin cup.
7. Dewel’s technique.
10. Extra oral examination.
I. Elaborate on: (2 x 10 = 20)

1. What is a “Cephaolstat”?
   Write 4 difference between a lateral view skull radiograph and a cephalogram.
   Write about the need for a cephalometric analysis.
   Write about any 4 cephalometric parameters and their clinical inference.

2. Define a “Growth Spurt”.
   Write the types of growth spurts and significance of each spurt.
   List the different methods of assessing skeletal growth status and describe any one method.

II. Write notes on: (10 x 5 = 50)

1. Adam’s Clasp.

2. Classify upper expansion appliances and write the difference between Slow and Rapid Maxillary Expansion Appliances. Explain about any one expansion appliance.

3. Head Gears.

4. Types of orthodontic tooth movement.

5. Arch perimeter analysis.

6. Correction of Anterior Open Bites.

7. Methods of gaining space.

8. Reinforced anchorage.

9. Classification of Cleft palate and Lip.

10. What is Retention? Write briefly theorems involved.
I. Elaborate on: 

1. What is an Ideal Orthodontic Force? Name the types of orthodontic forces. Name the theories of tooth movement. Write the histological changes in periodontium following application of different magnitudes of orthodontic forces.

2. An eight year old boy was diagnosed to be having a Skeletal Class II discrepancy with Angle’s Dentoalveolar Cl II division 1 subdivision Malocclusion. Describe the extra oral clinical features, probable intra oral clinical features. Write the various skeletal combinations and cephalometric findings contributing to such a skeletal discrepancy. Write the treatment for each of such skeletal situation.

II. Write Notes on: 

1. Infantile swallowing.

2. Reciprocal Anchorage.

4. Systemic diseases that cause Malocclusion.

5. Mixed dentition analysis.

6. Correction of Anterior cross bite.

7. Reverse Pull Head Gear.

8. Any three local etiological factors for malocclusion.

10. Cephalocaudal growth gradient.
