FINAL B.D.S. DEGREE EXAMINATION
(Old Regulations)

ORAL SURGERY

Time: Three hours. Maximum: 100 marks.

Answer ALL questions.
Answer Sections A and B in separate answer books.
Draw diagrams wherever necessary.

SECTION A

1. Discuss the classification of Jaw Cysts. How would you proceed to diagnose and treat a case of odontogenic keratocyst occurring at the right side of the angle of the mandible. (20)

2. Write notes on:
(a) Cerebrospinal Rhinorrhea.
(b) Sica dolorosa.
(c) Ridge augmentation technique.
(d) Neuropraxia.
(e) Biopsy.
(f) Hyperbaric oxygen therapy. (6 x 5 = 30)

SECTION B

3. Discuss classifications involving fractured condyle of mandible. How would you treat a bilateral condyle fracture in a young adult. (10)

4. Write short notes on:
(a) Ludwig's Angina,
(b) Mechanism of action of antibiotics,
(c) Mechanism of action of local anaesthetic drugs,
(d) Syncope,
(e) T.M.N. classification,
(f) Complication of fracture healing. (6 x 5 = 30)
Final B.D.S. DEGREE EXAMINATION

(Old Regulations)

ORAL SURGERY

Time: Three hours

Maximum: 100 marks

Answer All questions

Answer Sections A and B in separate answer books

Draw diagrams wherever necessary

SECTION—A

1. Mention the nerves anesthetised to achieve anesthesia of mandibular 3rd molars. Describe the technique and add a note on its complications.

   (20)

2. Write short notes on:
   a) Aspirin
   b) Alveoloplasty
   c) Hemophilia
   d) Dentigerous cyst
   e) Acute parotitis
   f) Subluxation of temporo-mandibular joint.

   (6x5 = 30)

SECTION—B

3. Define a cyst. Discuss the clinical features, radiographic features and investigations of odontogenic cyst. Add a note about its management and complications.

   (20)

4. Write short notes on:
   a) Post extraction bleeding
   b) Frenectomy
   c) Mucocele
   d) Intermaxillary fixation
   e) Submandibular calculi

   (5x6 = 30)
Fourth B.D.S. Degree Examination
(New Regulations)

Paper V - ORAL SURGERY

Time: Three hours
Maximum: 90 Marks

Two and a half hours
Sec. A and B: 60 marks
for Sections A and B

Answer All questions

Answer Sections A and B in separate answer books
Answer Section C in the answer sheet provided
Draw diagrams wherever necessary

SECTION—A

1. Describe the clinical features, investigations
   and treatment of a displaced fracture of an angle
   fracture of mandible

2. Describe the anatomy of maxillary sinus. How
   will you manage an oro antral fistula

SECTION—B

3. Write short notes on:

   a) Syncope
   b) Submandibular calculi
   c) Metronidazole
   d) Trigeminal neuralgia
   e) Biopsies
   f) Mucoceles

[6×5=30]
Final B. D. S. Degree Examination

(Old Regulations)

Paper V - ORAL SURGERY

Time: Three hours        Maximum: 100 marks

Answer All questions

Answer Sections A and B in separate answer books

Draw diagrams wherever necessary.

SECTION—A

1. Describe the composition of Local Anesthesia? Discuss its complications and management. (20)

2. Write short notes on:
   a) Syncope
   b) Alveol osteomy
   c) Trigeminal neuralgia
   d) Torus palatinus
   e) Hepatitis-B
   f) Post extraction complications. (6X5 = 30)

SECTION—B

3. Describe the management of fractures at the angle of mandible. (20)

4. Write short notes on:
   a) Cerebrospinal fluid rhinorrhoes
   b) Tinel's sign
   c) Ameloblastoma
   d) Apicoectomy
   e) Oro-antral fistula
   f) Sialolith (6X5 = 30)
Fourth B. D. S. Degree Examination

(New Regulations)

Paper V - ORAL SURGERY

Time: Three hours

Maximum: 90 marks

Two and a half an hour

Sec. A and B: 60 marks

for Sec. A and B

Answer sections A and B in separate answer books.

Answer Section C in the answer sheet provided.

SECTION—A  (2×15 = 30)

1. Describe the mode of spread of infection in the Maxillo-Facial region. How will you manage a case of Ludwig’s angina.

2. Define Trismus? Discuss the causes of Trismus and its management in brief?

SECTION—B  (6×5 = 30)

3. Write short notes on:

a) Biopsy
b) Suturing material
c) Hepatitis B
d) Emergency drugs in oral surgery
e) Oro-antral Fistula
f) Mucocles
OCTOBER - 1996

FINAL B.D.S. DEGREE EXAMINATION.
(Old Regulations)

ORAL SURGERY

Time : Three hours               Maximum : 100 marks

Answer Sections A and B in separate answer books.

SECTION A

1. Classify lower third molar impaction. Discuss the step by step procedure in removal of an impacted tooth. (20)

2. Write short notes on:
   (a) Sterilization.
   (b) Tuberosity block.
   (c) Halothane.
   (d) Relative analgesia.
   (e) Broken needles.
   (f) Hemophilia. (6 x 5 = 30)

SECTION B

3. Classify maxillary fractures? Discuss the signs, symptoms and management of LeFort I fracture. (20)

(6 x 5 = 30)
FINAL B.D.S. DEGREE EXAMINATION.

(New Regulations)

ORAL SURGERY

Time: Three hours Maximum: 90 marks

Two and a half hours Sections A and B: 60 marks

for Sec. A and B

Answer Sections A and B in separate answer books.

Answer Section C in the answer sheet provided.

SECTION A — (2 x 15 = 30 marks)

1. Describe the technique of Infra orbital Nerve block? Describe its complications.

2. Discuss the management of Fracture Mandible in a child aged 7 years.

SECTION B — (6 x 5 = 30 marks)

3. Write short notes on:
   (a) Dry socket.
   (b) Marsupialisation.
   (c) Asepsis.
   (d) Syncope.
   (e) Cortico steroids in Oral surgery.
   (f) Haemophilia.
FINAL B.D.S. DEGREE EXAMINATION
(Old Regulations)

PAPER-V ORAL SURGERY

Time: Three hours
Max: 100 marks

Answer Sections A and B in separate answer books

SECTION-A

1. Classify local anaesthetic solutions. Discuss the mechanism of action of local anaesthetic solution. (20)

2. Write short notes on: (6x5=30)
   a) Sialolith.
   b) Suture materials.
   c) Ranula.
   d) Dry socket.
   e) Marsupialization.
   f) Keratocyst.

SECTION-B

3. Discuss the classification, investigations and management of condylar fractures. (20)

4. Write short notes on: (6x5=30)
   a) Ludwig's angina.
   b) Odontome.
   c) Diclofenac sodium.
   d) Caldwell luc procedure.
   e) Biopsy.
   f) Classification of mandibular impacted teeth.

###
FINAL B.D.S. DEGREE EXAMINATION.

(New Regulations)

Paper V — ORAL SURGERY

Time: Three hours

Maximum: 90 marks

Two and a half hours

Sections A & B: 60 marks

for Sections A and B

Answer Sections A and B in separate answer books.

Answer Section C in the answer sheet provided.

SECTION A — (2 x 15 = 30 marks)

1. Describe the causes, signs, symptoms and management of oro-antral fistula.

2. Classify mandibular fractures. Describe the management of a fracture at the angle of mandible.

SECTION B — (6 x 5 = 30 marks)

3. Write short notes on:
   (a) Submasseteric space infection.
   (b) Ameloblastoma.
   (c) Dry socket.
   (d) C.S.F. rhinorrhoea.
   (e) Preanaesthetic medication.
   (f) Trismus.
FINAL B.D.S. DEGREE EXAMINATION.

(New/Revised Regulations)

Paper V — ORAL SURGERY

Time : Three hours

Maximum : 100 marks

Two and a half hours

Sec. A & B : 70 marks

for Sec. A and B

Answer Sections A and B in separate answer books.

Answer Section C in the answer sheet provided.

SECTION A — (2 × 15 = 30 marks)

Classify odontogenic cysts of the jaws. Describe the clinical features and management of odontogenic keratocyst in detail.

2. Classify fractures of zygomatic complex. Describe the clinical features and management of zygomatic fractures.

SECTION B — (8 × 5 = 40 marks)

3. Write short notes on:

(a) Infraorbital nerve block.

(b) Postextraction bleeding.

(c) Palatal abscess.

(d) Dislocation of temporomandibular joint.

(e) Classification of impacted third molar.

(f) Cryosurgery.

(g) Marsupialization.

(h) Dry socket.
FINAL B.D.S. DEGREE EXAMINATION.

(New Regulations)

Paper V — ORAL SURGERY

Time: Three hours

Two and a half hours

for Sec. A and Sec. B

Maximum: 90 marks

Sec. A & Sec. B: 60 marks

Section C: 30 marks

Answer Sections A and B in separate answer books.

Answer Section C in the answer sheet provided.

SECTION A — (2 x 15 = 30 marks)

1. Describe the signs and symptoms of Ameloblastoma. Outline the method of treatment of ameloblastomas of the mandible.

2. Classify maxillary fractures. Discuss the signs, symptoms and management of LeFort I fracture.

SECTION B — (6 x 5 = 30 marks)

3. Write short notes on:
   (a) Cavernous sinus thrombosis.
   (b) Oro antral fistula.
   (c) Osteo radio necrosis.
   (d) Malunion.
   (e) CSF rhinorrhea.
   (f) Ankylosis of Temporo mandibular joint.
FINAL B.D.S. DEGREE EXAMINATION.
(Old/Revised Regulations)

Paper V — ORAL SURGERY

Time: Three hours
Maximum: 100 marks

Two and a half hours
Sec. A & Sec. B: 70 marks

for Sec. A and Sec. B
Section C: 30 marks

Answer Sections A and B in separate answer books.

Answer Section C in the answer sheet provided.

SECTION A — (2 × 15 = 30 marks)

1. Define Impaction. Write about the classification, surgical management and associated complications of impacted mandibular third molar.

2. Describe the aetiology, pathophysiology, clinical features and management of dry socket.

SECTION B — (8 × 5 = 40 marks)

3. Write short notes on:
   (a) Fibrous dysplasia.
   (b) Hemorrhage after extraction.
   (c) Bone cysts.
   (d) Non union.
   (e) Adeno ameloblastoma.
   (f) Metabolism of Lignocaine.
   (g) Anatomy of maxillary sinus.
   (h) Submasseteric space infection.

FINAL B.D.S. DEGREE EXAMINATION.

(New Regulations)

Paper V — ORAL SURGERY

Time: Three hours
Two and a half hours
for Sec. A and Sec. B

Maximum: 90 marks
Sec. A & Sec. B: 60 marks
Section C: 30 marks

Answer Sections A and B in separate answer books.
Answer Section C in the answer sheet provided.

SECTION A — (2 x 15 = 30 marks)

1. What are the causes for inability to open the mouth. Describe in short the methods of managing each of them.
2. Give an account of the odontogenic tumours of the oral cavity and its management.

SECTION B — (6 x 5 = 30 marks)

3. Write short notes on:
   (a) Complications of local anaesthetics
   (b) Trans alveolar extraction
   (c) Antibiotics in oral surgery
   (d) Sialolith
   (e) Methods of fixation of jaw fractures
   (f) Bell's palsy.

FINAL B.D.S. DEGREE EXAMINATION.
(Old/Revised Regulations)
Paper V — ORAL SURGERY

Time : Three hours
Maximum : 100 marks

Two and a half hours
Sec. A & Sec. B : 70 marks

for Sec. A and Sec. B
Section C : 30 marks

Answer Sections A and B in separate answer books.
Answer Section C in the answer sheet provided.

SECTION A — (2 x 15 = 30 marks)

1. Classify mandibular fractures. Describe the signs and symptoms associated with left parasymphysis fracture and its management.

2. Define and enumerate the facial spaces. Describe the spread of infection from lower first molar till the development of Ludwig's Angina and its management.

SECTION B — (8 x 5 = 40 marks)

3. Write short notes on:
   (a) Sterilization
   (b) Vestibuloplasty
   (c) Trigeminal neuralgia
   (d) Acute dislocation of TM joint
   (e) Bone plates
   (f) Blow out fracture
   (g) Keratocyst
   (h) Biopsy.
FINAL B.D.S. DEGREE EXAMINATION.
(Revised Regulations)
Paper V — ORAL SURGERY
Time: Three hours
Two and a half hours
for Sec. A and Sec. B
Maximum: 100 marks
Sec. A & Sec. B: 70 marks
Section C: 30 marks

Answer Sections A and B in separate answer books.
Answer Section C in the answer sheet provided.

SECTION A — (2 x 15 = 30 marks)
1. Classify Zygomatic complex fractures. Describe the late complications of these fractures and their management.
2. Discuss the differential diagnosis of multilocular radiolucencies in the angle of the mandible. Outline the method of treatment of odontogenic keratocyst of the mandible.

SECTION B — (8 x 5 = 40 marks)
3. Write short notes on:
   (a) Radiotherapy for cancer of tongue.
   (b) Maxillary canine impaction.
   (c) Malunion.
   (d) Complications of local anaesthesia.
   (e) Pleomorphic adenoma.
   (f) Mandibular prognathism.
   (g) Fibrous dysplasia.
   (h) Marsupialization.
OCTOBER - 1999 Sub. Code: 4120

FINAL B.D.S DEGREE EXAMINATION.

(Revised Regulations)

Paper V — ORAL SURGERY

Time: Three hours

Maximum: 100 marks

Two and a half hours

Sec. A & Sec. B: 70 marks

for Sec. A and Sec. B

Section C: 30 marks

Answer Section A and Section B in separate answer books.

Answer Section C in the answer sheet provided.

SECTION A — (2 × 15 = 30 marks)

2. Define Oro-antral Fistula. Describe the Etiology, diagnosis and management of chronic Oro-antral Fistula.

SECTION B — (8 × 5 = 40 marks)

3. Write short notes on:

   (a) Non Union
   (b) Nerve Injuries
   (c) Emergency drugs in oral surgery
   (d) Gellie's Temporal approach
   (e) Hyper baric oxygen
   (f) Dry socket.
   (g) Anaphylaxis
   (h) Ameloblastoma—surgical management.
FINAL B.D.S. DEGREE EXAMINATION.

(Revised Regulations)

Paper V — ORAL SURGERY

Time: Three hours
Two and a half hours for Sec. A and Sec. B

Maximum: 100 marks
Sec. A & Sec. B: 70 marks
Section C: 30 marks

Answer Sections A and B in separate answer books.

Answer Section C in the answer sheet provided.

SECTION A — (2 x 15 = 30 marks)

1. Describe spread of infection from mandibular first molar. How will you manage a case of Ludwig Angina?

2. Classify cysts of the jaw bone. Give various modalities of surgical management of cystic lesion with advantages and disadvantages.

SECTION B — (8 x 5 = 40 marks)

3. Write short notes on:
   (a) Osteoradionecrosis
   (b) Dislocation of TMJ
   (c) Submucous fibrosis
   (d) Alveoloplasty
   (e) Cryosurgery
   (f) Epulis
   (g) Suture materials
   (h) Apisectomy.
SECTION B — (8 × 5 = 40 marks)

3. Write short notes on:
   (a) Rigid osteosynthesis
   (b) Gilley’s temporal approach
   (c) Odontectomy
   (d) Idiosyncracy
   (e) Shock
   (f) Non-steroidal anti-inflammatory drugs
   (g) Closed mouth technique for inferior alveolar nerve block
   (h) Vestibuloplasty.

1. Classify odontogenic tumours. Write about the etiology, clinical features, radiological and histopathological findings of odontogenic myxoma of the mandible and its management.

2. Give an account of the indications, contra-indications and instrumentation for extraction of the tooth. Write a note on the assessment of impacted mandibular III molar tooth for surgery.
