I. Elaborate on:  

2. Classify mandibular fractures. Describe in detail signs symptoms, radiological features and management of bilateral condylar fracture.

II. Write Notes on:  

1. Lefort I fracture and management.
2. Kaban’s protocol.
3. Composition of cornoys solution and its use.
5. Various extra oral approaches to the temporomandibular joint.
6. Kelsey fry’s technique.
7. Garrres Osteomyelitis.
8. Genioplasty.
9. Anterior superior alveolar nerve block.
10. Ashley’s flap.

********
I. Elaborate on:    

1. Define and classify ankylosis. Describe in detail about the etiology, pathogenesis, clinical features, radiographic features and surgical management of bilateral ankylosis.

2. Classify fracture mandible. Discuss in detail the etiology, clinical and radiological features and management of # of the angle of the mandible.

II. Write Notes on:    

1. Alveolar osteitis.
2. Oro antral fistula.
3. War lines.
4. CSF rhinorrhea.
5. Bi-rotational Insertion technique.
6. Eutectic mixture of local anesthetic.
7. Lingual split technique.
10. Tic douleraex.
I. Elaborate on:  

1. Define TRIGEMINAL NEURALGIA. Discuss in detail about causes, clinical features and medical/surgical management of the trigeminal neuralgia.

2. Discuss surgical anatomy of maxillary sinus. Elaborate on various methods of closure of oro antral fistula.

II. Write Notes on:  

1. Pell and Gregory classification of impacted lower third molar.
2. Posterior superior Alveolar nerve block.
3. Tracheostomy.
4. Marsupialisation.
5. TNM classification.
7. Pre anaesthetic medication.
8. Dry socket.
10. Ludwig’s Angina.

******
FOURTH YEAR B.D.S. DEGREE EXAM
(Common to Final Year Paper VI - Modified Regulation III and
Final Year Paper VII - New Modified Regulation Candidates)

PAPER VII – ORAL AND MAXILLOFACIAL SURGERY

Q.P Code: 544222

Time: Three Hours Maximum : 70 Marks

Answer All questions in the same order
Draw suitable diagrams wherever necessary

I. Elaborate on: (2 x 10 = 20)

1. Enumerate the causes of intra operative and post extraction haemorrhage. Write in detail the management of intraoperative haemorrhage.

2. Define and classify ankylosis of Temporomandibular joint. Describe the etiology, clinical and radiological features and management of unilateral bony ankylosis in a 10-year-old child.

II. Write Notes on: (10 x 5 = 50)

1. Antibiotic prophylaxis for infective endocarditis.
2. Marsupialization.
3. TNM classification.
5. Etiology, clinical features and management of Pterygomandibular space infection.
6. Composition of local anesthesia.
7. Hyperbaric oxygen therapy.
8. Oral manifestations of HIV.
10. What are the types of Biopsy? Add a note on FNAC.

******
I. Elaborate on:  

2. Classify odontogenic tumors. Define ameloblastoma and discuss the diagnosis and treatment of unicystic ameloblastoma.

II. Write Notes on:  

1. Cardio pulmonary resuscitation.
2. Classification of suture materials.
3. Indications and surgical steps in alveoloplasty.
4. Caldwell luc procedure.
5. Management of primary haemorrhage during extraction of teeth.
6. Local and Systemic actions of Lidocaine.
7. WAR lines and it’s implications.
8. MARX protocol in the treatment of osteoradionecrosis (ORN).
9. Surgical options for prognathic mandible.
FEBRUARY 2019

FOURTH YEAR B.D.S. DEGREE EXAM
(Common to Final Year Paper VI - Modified Regulation III and Final Year Paper VII - New Modified Regulation Candidates)

PAPER VII – ORAL AND MAXILLOFACIAL SURGERY

Q.P Code: 544222

Time: Three Hours
Maximum: 70 Marks

Answer All questions in the same order
Draw suitable diagrams wherever necessary

I. Elaborate on: 

(2 x 10 = 20)

1. Classify Le fort fractures. Discuss in detail about clinical features and surgical management of Le fort II fractures.

2. Classify Pre-prosthetic procedures. Write in detail about the indications and surgical steps in vestibuloplasty procedures.

II. Write Notes on: 

(10 x 5 = 50)

1. Emergency drugs used in dental practice.

2. Carnoy’s solution.

3. Clinical features and surgical management of chronic osteomyelitis of the jaw.

4. Basic life support.

5. Landmarks and technique of Inferior alveolar block.

7. Genioplasty.

8. Local hemostatic agents.

9. Universal infection control precautions.

10. Anterior maxillary segmental osteotomy (AMO).
