FOURTH YEAR B.D.S. DEGREE EXAM  
(Common to Third Year Paper IV - Modified Regulation III Candidates and  
Final Year Paper VIII - New Modified Regulation Candidates)  

PAPER VIII – PUBLIC HEALTH DENTISTRY  
Q.P Code: 544223  

Time: 180 Minutes                                    Maximum: 70 Marks  

I. Elaborate on:                                    (2 x 10 = 20)  

1. Mention the various methods of water purification. Write in detail about rapid sand filter method.  
2. Define and classify epidemiology. Describe in detail about descriptive epidemiology.  

II. Write Notes on:                                (10 x 5 = 50)  

1. Barriers of communication.  
2. Comprehensive dental care.  
3. Types of biomedical waste.  
5. Indian Dental Association.  
6. Mechanical plaque control.  
7. Pit and fissure sealant.  
8. Cohort.  
10. Epidemiological triad.  

******
I. Elaborate on: (2 x 10 = 20)

1. Define Potable water. Enumerate various methods of water purification. Write in detail about biological water purification.

2. Define planning. Enumerate the steps in planning.

II. Write Notes on: (10 x 5 = 50)

1. Behaviour learning theory.
2. Differentiate between Propaganda and health education.
3. ASKOV.
5. Community water fluoridation.
6. Cluster sampling.
7. Sampling error.
8. Recommended dietary allowance.
9. ART.
10. Biomedical waste management.
FOURTH YEAR B.D.S. DEGREE EXAM  
(Common to Third Year Paper IV - Modified Regulation III Candidates and Final Year Paper VIII - New Modified Regulation Candidates)

PAPER VIII – PUBLIC HEALTH DENTISTRY

Q.P Code: 544223

Time: 180 Minutes                                    Maximum: 70 Marks

I. Elaborate on:                                      (2 x 10 = 20)

1. Define Health Education. Enumerate various methods of Health Education aids.

2. Describe in detail the various modes of Finance in dental care delivery.

II. Write Notes on:                                  (10 x 5 = 50)

1. Write a brief note on the historical studies on artificial water fluoridation.

2. Enumerate the indications of pit and fissure sealants. Enumerate the various steps in the disposal of hospital waste.

3. Describe in detail the various concepts of disease.

4. Enumerate the various modes of interventions of primary prevention of dental caries.

5. OHI - S Index.

6. Enumerate the various principles of ethics.

7. Describe the Antiplaque mechanism of action of chlorhexidine mouthwash.

8. Defluoridation.

9. Describe the various methods of dispersion in biostatistics.

10. Enumerate the various types of smokeless tobacco products.

*******
I. Elaborate on: (2 x 10 = 20)

1. Discuss the various caries activity and susceptibility test used in dental practice.

2. Define dental auxiliaries. Discuss the functions of various non operating dental auxiliaries in oral health promotion.

II. Write Notes on: (10 x 5 = 50)

1. Describe the difference between a individual and public health practice.

2. Describe the various principles of primary health care approach.

3. Describe the various uses of epidemiology.

4. Discuss the importance of normal distribution.

5. Discuss the various approaches for tobacco cessation practices.

6. Discuss the basis for third party pre payment plans in dental finance.

7. Describe the method and criteria for scoring Plaque Index.

8. Describe the various works of World Health Organization.

9. Discuss the role of caries vaccines in preventive dentistry.

10. Discuss the various concepts of causation of diseases.
I. Elaborate on: 

1. Describe in details the procedural steps in planning a dental public health program.

2. Define Health Education. Enumerate the contents of Health Education. Add a note on mass media.

II. Write Notes on: 

1. Describe the various milestones in dental public health.

2. Describe the importance of Blinding in an epidemiological study.

3. Describe the principle and procedure of Lactobacillus colony count test.

4. Discuss the role of school dental nurse in oral health delivery.

5. Epidemic.

8. Discuss the advantages and disadvantages of 2% Sodium Fluoride Solution.

9. Discuss the importance of recommended index ages for oral health assessment.

10. Discuss the factors affecting the retention of a pit and fissure sealant.
I. Elaborate on: (2 x 10 = 20)

1. Discuss the mechanism of action of systemic fluorides. Write in detail about professionally applied topical fluorides.

2. Discuss in detail prevention of oral cancer.

II. Write Notes on: (10 x 5 = 50)

1. Presentation of Data.
2. Mortality and morbidity indicators.
3. Randomized Control Trial.
5. Chemical plaque control methods.
6. WHO.
7. Dean’s Fluorosis Index.
8. Levels of prevention.
9. Write a brief note on sociology.

*****
I. Elaborate on:  

1. Discuss in detail the components of school oral health program.

2. What is potable water? Discuss in detail large scale purification of water.

II. Write Notes on:  

1. Acute fluoride toxicity and its management.
2. Write a note on screening.
4. Describe Epidemiological Triad
5. Discuss in brief about Cohort study.
6. Write a note on Association and causation.
7. Disposal of solid waste.
8. CPITN.
10. Describe Nicotine Replacement Therapy

FOURTH YEAR B.D.S. DEGREE EXAM
(Common to Third Year Paper IV - Modified Regulation III Candidates and Final Year Paper VIII - New Modified Regulation Candidates)

PAPER VIII – PUBLIC HEALTH DENTISTRY

Q.P Code: 544223

Time: 180 Minutes                                    Maximum: 70 Marks

I. Elaborate on:                                    (2 x 10 = 20)

1. Define Epidemiology. Mention the different Epidemiological studies. Describe in detail about Experimental Epidemiology.

2. Define Survey. Write in detail steps in conducting a Survey.

II. Write Notes on:                                (10 x 5 = 50)

1. Fluoride varnish.
2. Incremental dental care.
4. Interdental cleaning aids.
5. Barriers of health education.
7. Consumer protection act.
8. Write a note on sampling.
9. Functions of Dental Council of India.
10. Write a note on Central Tendency.
