

**DIPLOMA IN NURSING AIDE**  
**SECOND YEAR**  
**PAPER II – PAEDIATRIC NURSING**  
*Q.P. Code : 841812*

**Time: Three Hours****Maximum: 100 marks****Answer ALL questions in the same order****I. Elaborate on:**

	<b>Pages (Max.)</b>	<b>Time (Max.)</b>	<b>Marks (Max.)</b>
1. (a) Define Growth and Development (b) List the principles of Growth and Development.	7	20 min.	10
2. Write the Preoperative and Postoperative management of 5 year old child with Intestinal Obstruction.	7	20 min.	10
3. (a) Write role of Paediatric nurse in child care (b) Explain the concept of child care.	7	20 min.	10

**II. Write Notes on:**

1. Difference between cyanotic and acyanotic heart disease with suitable example.	4	9 min.	5
2. HIV Infection.	4	9 min.	5
3. Scabies in children.	4	9 min.	5
4. Glomerulonephritis.	4	9 min.	5
5. Juvenile Diabetes Mellitus.	4	9 min.	5
6. Hemophilia.	4	9 min.	5
7. Oesophageal fistula.	4	9 min.	5
8. Failure to thrive.	4	9 min.	5
9. Phototherapy.	4	9 min.	5
10. Ano Rectal malformations.	4	9 min.	5

**III. Short Answers on:**

1. Mention the surgical management of child with Cryptorchidism?	1	3 min.	2
2. What is Retrolental Fibroplasia?	1	3 min.	2
3. Mention the characteristics of Toddler.	1	3 min.	2
4. Mention any 4 complications of fracture in children.	1	3 min.	2
5. Mention 4 National Programmes related to children.	1	3 min.	2
6. List out the contents of ORS.	1	3 min.	2
7. Mention the anti-tuberculosis drug.	1	3 min.	2
8. What is Meningomyelocele?	1	3 min.	2
9. Mention the six killer diseases.	1	3 min.	2
10. Write two Congenital Anomalies of head.	1	3 min.	2

FEBRUARY 2013

Sub. Code: 1812

**DIPLOMA IN NURSING AIDE**  
**SECOND YEAR**  
**PAPER II – PAEDIATRIC NURSING**  
*Q.P. Code : 841812*

**Time: Three Hours**

**Maximum: 100 marks**

**Answer ALL questions**

**I. Elaborate on:**

**(3 x 10 = 30)**

1. (a) Define chronic suppurative otitis media (CSOM).  
(b) Explain about a medical and nursing management of CSOM, its Prevention.
2. (a) Define pneumonia, write the etiology, signs and symptoms, complications of pneumonia.  
(b) Draw a Nursing care plan of a child with pneumonia.
3. (a) Define cyanotic Heart Disease.  
(b) Discuss in detail about ventricular septal defect (VSD).

**II. Write Notes on:**

**(10 x 5 = 50)**

1. Emerging Challenges Related to pediatric Nursing.
2. Erythroblastosis foetalis.
3. Care of child in Incubator.
4. Assessment of Nutritional Status in children.
5. Care of child with cleft lip and cleft palate.
6. Thalassemia.
7. Integrated child development services (ICDS).
8. Factors affecting growth and development.
9. Rehydration therapy in severe diarrhea.
10. Importance and Techniques of Breast feeding.

**III. Short Answers on:**

**(10 x 2 = 20)**

1. Erythema toxicum.
2. Common types of club foot.
3. Colostomy irrigation.
4. Failure to thrive.
5. Hermaphroditism.
6. Types of abnormal curvatures of spine.
7. Febrile convulsion.
8. Atelectasis.
9. Estimation of burns surface area in children.
10. Mention four congenital anomalies associated with anorectal Malformations.

**DIPLOMA IN NURSING AIDE**  
**SECOND YEAR**  
**PAPER II – PAEDIATRIC NURSING**  
*Q.P. Code : 841812*

**Time: Three Hours**

**Maximum: 100 marks**

**Answer ALL questions**

**I. Elaborate on:**

**(3 x 10 = 30)**

1. (a) Define diarrhea  
(b) List down the clinical manifestations of diarrhea  
(c) Write the Medical and Nursing management of diarrhea.
2. (a) Define glomerulo nephritis  
(b) List down the causes of glomerulo nephritis  
(c) Write the medical management of glomerulo nephritis.
3. Write in detail about acyanotic heart defects.

**II. Write Notes on:**

**(10 x 5 = 50)**

1. Role of paediatric Nurse in child care.
2. Meningitis.
3. Poliomyelitis.
4. Growth and development of toddler.
5. Care of child in incubator.
6. Day care centers.
7. Neonatal convulsion.
8. Birth injuries.
9. Immunization.
10. Phototherapy.

**III. Short Answers on:**

**(10 x 2 = 20)**

1. Define Weaning
2. Two purposes of breast feeding.
3. Four complications of diarrhea.
4. Define oral thrush.
5. Four congenital mal formations.
6. Define pre-term.
7. Four reflexes of the neonate.
8. List down the cyanotic heart defects.
9. Four common accidents in children.
10. Define hypospadias.

Sub. Code: 1812

**DIPLOMA IN NURSING AIDE**  
**SECOND YEAR**  
**PAPER II – PAEDIATRIC NURSING**  
*Q.P. Code : 841812*

**Time: Three Hours**

**Maximum: 100 marks**

**Answer ALL questions**

**I. Elaborate on:**

**(3 x 10 = 30)**

1. (a) Define growth and development.  
(b) Enumerate factors influencing growth and development.  
(c) Discuss in detail about growth and development of infant.
2. (a) Define the term “diarrhea”.  
(b) What are the risk factors of diarrhea in Children?  
(c) Write about the fluid management.  
(d) Discuss the nursing management.
3. (a) Define Burns.  
(b) Write the treatment of immediate care.  
(c) Describe the nursing management of child with burns.

**II. Write Notes on:**

**(10 x 5 = 50)**

1. Apgar Score.
2. Impetigo.
3. Birth injuries.
4. Reflexes of the new born.
5. Immunization Schedule.
6. Immediate care of the new born.
7. Hydrocephalus.
8. Otitis Media.
9. Worm Infestation.
10. Care of child with cleft lip and cleft palate.

**III. Short Answers on:**

**(10 x 2 = 20)**

1. Enlist common accidents among toddler.
2. Define weaning.
3. List out four newborn reflexes in relation to feeding.
4. List four cyanotic congenital heart disease.
5. Define Tetralogy of Fallots.
6. Write four types of play.
7. List four behavioral problems in children.
8. Write any two contra indications for breast feeding.
9. Define fracture.
10. List out the contents of ORS.

AUGUST 2014

Sub. Code: 1812

**DIPLOMA IN NURSING AIDE**  
**SECOND YEAR**  
**PAPER II – PAEDIATRIC NURSING**  
*Q.P. Code : 841812*

**Time: Three Hours**

**Maximum: 100 marks**

**Answer ALL questions**

**I. Elaborate on:** **(3 x 10 = 30)**

1. (a) Define meningitis and discuss the causes, clinical signs of meningitis.  
(b) Write the medical and nursing management of child with meningitis.
2. (a) Define growth and development and enumerate the factors affecting the growth and development  
(b) List an important developmental milestone during infancy.
3. What is Diarrhea and write the causes symptoms medical and Nursing management?

**II. Write Notes on:** **(10 x 5 = 50)**

1. Role of Pediatric nurse in child care.
2. Advantages of Breast feeding.
3. Neonatal Jaundice.
4. Nursing care of baby born to HIV +ve mother.
5. Care of child under phototherapy.
6. Hook worm infestation in children.
7. Care of child with cleft lip.
8. Intestinal Obstruction.
9. Internationally accepted Rights of the child.
10. Pituitary Dwarfism.

**III. Short Answers on:** **(10 x 2 = 20)**

1. Expansion of BFHI, TOF
2. Erb's palsy.
3. Cleft Lip & Palate.
4. Caput Succedaneum.
5. List cyanotic Heart disease.
6. Post term Baby – List any four causes.
7. Definition of Toilet Training.
8. List any 4 types of Restraints.
9. Types of Neural tube defects.
10. Kyphosis & Scoliosis.

**DIPLOMA IN NURSING AIDE**  
**SECOND YEAR**  
**PAPER II – PAEDIATRIC NURSING**  
*Q.P. Code : 841812*

**Time: Three Hours**

**Maximum: 100 marks**

**Answer ALL questions**

**I. Elaborate on:** **(3 x 10 = 30)**

1. (a) Define hydrocephalus; enumerate the causes, clinical features and diagnosis of it.  
(b) Discuss the Medical & Nursing Management of child diagnosed as hydrocephalus.
2. (a) Give an account on classification and calculation of burns.  
(b) Care of child with 40% of burns.
3. Immediate assessment and care of newborn and list the neonatal reflexes.

**II. Write Notes on:** **(10 x 5 = 50)**

1. Concept of preventive Paediatrics.
2. Febrile convulsion.
3. Factors affecting growth and development.
4. Restraints used in immobilization of child.
5. Care of mentally challenged children.
6. Protein energy malnutrition (PEM).
7. Tracheo-esophageal fistula. (TEF)
8. Describe the types of club foot.
9. Diabetic Insipidus in children.
10. Thalassemias.

**III. Short Answers on:** **(10 x 2 = 20)**

1. Expand TORCH.
2. Any four indications of Gastrostomy feeding.
3. List any four causes of temper tantrums.
4. Anorexia Nervosa and Anorexia Bulimia.
5. What is Gynaecomastia?
6. Define Hiatus hernia.
7. Types of leukemia in children.
8. Dextrocardia.
9. Mention the clinical term and definition of undescended testis.
10. List the types of Ano-rectal malformations.

**SECOND YEAR**  
**PAPER II – PAEDIATRIC NURSING**

*Q.P. Code : 841812*

**Time : Three Hours**

**Maximum : 100 marks**

**Answer ALL questions**

**I. Elaborate on:** **(3 x 10 = 30)**

1. Define worm infestation, state the types of worm infestation, causes, clinical manifestations and also write the Management and Nursing care of child with worm infestation.
2. Define Burns, write the types of burns, degrees of burns and also write how will you care the child with burns?
3. Define Appendicitis, list the clinical Manifestations, Etiology and also write the management of child with Appendicitis.

**II. Write notes on:** **(10 x 5 = 50)**

1. Explain the procedure of colostomy care.
2. What is rheumatic fever, also write the causes, clinical manifestation and management of it?
3. Explain what is Baby Friendly Hospital.
4. Explain the Breast feeding techniques.
5. List the types of restrains and explain three in it.
6. Explain the types of oxygen administration briefly.
7. Explain the Procedure of Baby bath.
8. Assessment of Dehydration.
9. Define Tetanus, write its clinical manifestations, causes and management.
10. Explain the temporary reflexes of newborn.

**III. Short Answers on:** **(10 x 2 = 20)**

1. State the complications of phototherapy.
2. Define anorexia nervosa.
3. Define meconium.
4. What is pseudo menstruation?
5. Types of reflexus.
6. Define cerebral palsy.
7. List four behavioural problems of toddler.
8. List four characteristics of preterm baby.
9. Define hydrocephalus.
10. Types of enema.

**DIPLOMA IN NURSING AIDE COURSE  
SECOND YEAR  
PAPER II – PAEDIATRIC NURSING**

*Q.P. Code: 841812*

**Time: Three Hours**

**Maximum : 100 Marks**

**Answer All questions**

**I. Elaborate on:**

**(3 x 10 = 30)**

1. (a) Define – congenital Heart diseases.  
(b) Explain – Tetralogy of pallot.
2. (a) Define – Meningitis.  
(b) Enumerate the signs and symptoms of Meningitis.  
(c) Explain the management of Meningitis.
3. (a) Concept of child care.  
(b) Rights of the Children.

**II. Write notes on:**

**(10 x 5 = 50)**

1. Neonatal reflexes.
2. Temper Tantrum.
3. Protein energy malnutrition.
4. Child abuse.
5. HIV infection in Children.
6. Diarrhoea.
7. Neonatal Jaundice.
8. Role of Nurse in child care.
9. Care of child in Incubator.
10. Enuresis.

**III. Short answers on:**

**(10 x 2 = 20)**

1. Define Hydrocephalus.
2. List any four behavioural disorders in children.
3. Mention four welfare programmes related to children.
4. Mention the six killers Diseases.
5. List down the contents of ORS.
6. Four reflexes of new born.
7. Define weaning.
8. Define Growth and development.
9. Any four causes of Juvenile delinquency.
10. List any four types of play.
