

DIPLOMA IN NURSING AIDE
SECOND YEAR
PAPER IV – OBSTETRICS AND GYNECOLOGICAL NURSING
Q.P. Code: 841814

Time: Three Hours**Maximum: 100 marks****Answer ALL questions in the same order****I. Elaborate on:**

	Pages	Time	Marks
	(Max.)	(Max.)	(Max.)

- | | | | |
|--|---|---------|----|
| 1. Explain about Uterine Cancer. | 7 | 20 min. | 10 |
| 2. Explain about changing trends in Gynecological nursing. | 7 | 20 min. | 10 |
| 3. Explain in detail about Descent of the Uterus. | 7 | 20 min. | 10 |

II. Write notes on:

- | | | | |
|---|---|--------|---|
| 1. Gynecological history taking and investigations. | 4 | 9 min. | 5 |
| 2. Breast Abscess. | 4 | 9 min. | 5 |
| 3. Version. | 4 | 9 min. | 5 |
| 4. Uterine polyps. | 4 | 9 min. | 5 |
| 5. Ovarian cancer. | 4 | 9 min. | 5 |
| 6. Endometriosis. | 4 | 9 min. | 5 |
| 7. Cervical Erosion. | 4 | 9 min. | 5 |
| 8. Menstrual cycle. | 4 | 9 min. | 5 |
| 9. Development of sex organs in female. | 4 | 9 min. | 5 |
| 10. HIV Infection. | 4 | 9 min. | 5 |

III. Short answers on:

- | | | | |
|--|---|--------|---|
| 1. Define Warts. | 1 | 3 min. | 2 |
| 2. Mention any 5 Chemotherapeutic drugs. | 1 | 3 min. | 2 |
| 3. What is Mastitis? | 1 | 3 min. | 2 |
| 4. What is Moniliasis? | 1 | 3 min. | 2 |
| 5. What is Cryptomenorrhoea? | 1 | 3 min. | 2 |
| 6. What is Salpingitis? | 1 | 3 min. | 2 |
| 7. What is oophoritis? | 1 | 3 min. | 2 |
| 8. What is Dysmenorrhoea? | 1 | 3 min. | 2 |
| 9. Mention some of the Bacterial infections. | 1 | 3 min. | 2 |
| 10. Mention some of the viral infections. | 1 | 3 min. | 2 |

**DIPLOMA IN NURSING AIDE
SECOND YEAR**

PAPER IV – OBSTETRICS AND GYNECOLOGICAL NURSING

Q.P. Code: 841814

Time: Three Hours

Maximum: 100 marks

Answer ALL questions

I. Elaborate on:

(3 x 10 = 30)

1. Write in detail about benign and malignant neoplasm's of reproductive system.
2. List down the breast disorders & explain in detail any two disorders with nursing care.
3. Explain pelvic infection. Draw the nursing care plan for pelvic infection.

II. Write notes on:

(10 x 5 = 50)

1. Explain in detail about the descent of the uterus.
2. Explain radiotherapy in detail.
3. Define tumors. Write the nursing care plan for tumor patient.
4. What is crytomenorrhoea. Write the signs and symptoms of it with nursing care?
5. Write the prevention of sexually transmitted disease.
6. Difference between fertility & infertility.
7. Define cervical erosion and its management.
8. What is vulvitis. Write the nursing care plan for vulvitis patient.
9. Write in detail about the Gynaecological history taking.
10. Write short notes on Gonorrhoea.

III. Short Answers on:

(10 x 2 = 20)

1. What is Crytomenorrhoea.
2. Specify c any two breast disorders.
3. Explain chemotherapy.
4. What is palliative care.
5. Define retroflexion.
6. What is malignant.
7. Explain Dysmenorrhoea.
8. What is uterine polyps.
9. List down the investigations for Gynecological disorder.
10. What is Moniliasis?

PAPER IV – OBSTETRICS AND GYNECOLOGICAL NURSING

Q.P. Code: 841814

Time: Three Hours

Maximum: 100 marks

Answer ALL questions

I. Elaborate on:

(3 x 10 = 30)

1. a) Define uterine prolapse
b) Stages of uterine prolapse
c) Management of patient with uterine prolapsed.
2. a) Define Menstruation
b) Types of abnormal menstruation
c) Management of patient with abnormal menstruation.
3. a) Define Infertility
b) Causes of Infertility
c) Management of Infertility.

II. Write notes on:

(10 x 5 = 50)

1. Syphilis.
2. Breast Abscess.
3. Self Breast Examination.
4. Ovarian Cyst.
5. Bartholinitis.
6. Acquired Immuno Deficiency Syndrome (AIDS).
7. Pelvic Infections.
8. Menstrual cycle.
9. Uterine Displacement.
10. Role of Nurse in STD (Sexually Transmitted Disease).

III. Short Answers on:

(10 x 2 = 20)

1. Define Mastitis.
2. Two surgical Procedures of Breast Cancer.
3. Types of Pelvis.
4. Define Aminocentesis.
5. Define ovulation.
6. Expand LMP, DUB.
7. Write down the layers of uterine muscles.
8. Four stages of sexual Development.
9. Steps of vaginal examination.
10. Process of oedema in pregnancy.

PAPER IV – OBSTETRICS AND GYNECOLOGICAL NURSING

Q.P. Code: 841814

Time: Three Hours

Maximum: 100 marks

Answer ALL questions

I. Elaborate on:

(3 x 10 = 30)

1. a) Define menstruation.
b) Phases in menstrual cycle.
c) Health education on menstrual hygiene.
2. a) What is uterine prolapse?
b) Degrees of uterine prolapse.
c) Management of patient with uterine prolapse.
3. a) Draw female reproductive organs.
b) Explain the structure and function of uterus.

II. Write notes on:

(10 x 5 = 50)

1. AIDS.
2. Self-breast examination.
3. Explain cervical erosion.
4. Advantages of breast feeding.
5. Role of nurse during pregnancy.
6. Syphilis.
7. Metritis.
8. Mastitis.
9. Pelvic inflammatory disease.
10. Infertility.

III. Short Answers on:

(10 x 2 = 20)

1. What is Hysterectomy?
2. Expand PIH, GDM.
3. What is vasectomy?
4. Define puberty.
5. Name some IUD.
6. What is tubectomy?
7. Define cryptomenorrhoea.
8. What is moniliasis?
9. List different types of pelvis.
10. Define amniocentesis.

SECOND YEAR
PAPER IV – OBSTETRICS AND GYNAECOLOGICAL NURSING

Q.P. Code: 841814

Time : Three Hours

Maximum : 100 Marks

Answer All questions.

I. Elaborate on: **(3 x 10 = 30)**

1. Explain about structure and function of Internal organs of Female Reproductive system with suitable diagrams.
2. a) Define Menstruation.
b) Write about types of abnormal menstruation and its management.
c) Gynaecological history taking examination and investigation.
3. Cancers of female reproductive system.

II. Write notes on: **(10 x 5 = 50)**

1. Syphilis.
2. Uterine polyps.
3. Difference between fertility and infertility.
4. Define cervical erosion and its management.
5. Explain radiotherapy.
6. Uterine displacement.
7. Pelvic inflammatory disease.
8. Explain about moniliasis.
9. Endometriosis.
10. Write about version.

III. Short answers on: **(10 x 2 = 20)**

1. Mention the female hormones.
2. What is tubectomy?
3. Define warts.
4. Role of the nurse in prevention of STD.
5. Mention the layers of uterine muscles.
6. Define salpingitis.
7. Define mastitis.
8. Expand-ELISA, PID.
9. Steps of vaginal examination.
10. Define – ovulation.

DIPLOMA IN NURSING AIDE COURSE

SECOND YEAR

PAPER IV – OBSTETRICS AND GYNAECOLOGICAL NURSING

Q.P. Code: 841814

Time : Three Hours

Maximum : 100 Marks

Answer All questions.

I. Elaborate on:

(3 x 10 = 30)

1. Define uterine prolapse, Stages of uterine prolapse and Management of patient with uterine prolapse.
2. List down the Sexually transmitted diseases and explain in detail any two diseases.
3. Define Amenorrhoea, explain in detail about primary and secondary Amenorrhoea and its management.

II. Write notes on:

(10 x 5 = 50)

1. Breast Abscess.
2. Leucorrhoea
3. Self Breast examination.
4. Ovarian cancer.
5. Dyspareunia.
6. Difference between Benign and Malignant tumors.
7. Vulvitis.
8. Chemotherapy.
9. Ovarian cyst.
10. Dysmenorrhea.

III. Short answers on:

(10 x 2 = 20)

1. Four stages of sexual development.
2. What is assisted reproductive technology?
3. What is oophoritis?
4. What is uterine polyps?
5. What are the elements of palliative care?
6. Define retro flexion.
7. What is pap smear?
8. Menstrual cycle.
9. Write two surgical Procedures of Breast Cancer.
10. What is radiotherapy?

DIPLOMA IN NURSING AIDE COURSE
SECOND YEAR
PAPER IV – OBSTETRICS AND GYNAECOLOGICAL NURSING

Q.P. Code: 841814

Time : Three Hours

Maximum : 100 Marks

Answer All questions.

I. Elaborate on:

(3 x 10 = 30)

1. a) Define cancer of cervix.
b) Stages of cervical cancer.
c) Management of patient with cancer of cervix.
2. Elaborate the different types of menstrual abnormalities.
3. Explain in detail about male infertility and its management.

II. Write notes on:

(10 x 5 = 50)

1. Write a note on menstrual cycle.
2. Prolapse of the uterus.
3. Explain syphilis.
4. Elaborate on fibroid uterus.
5. Female breast disorders.
6. Pap smear.
7. Findings of semen analysis.
8. Techniques of breast self examination.
9. What is vulvitis? Write a nursing care plan for vulvitis patient.
10. How to prepare a woman for hysterosalpingogram?

III. Short answers on:

(10 x 2 = 20)

1. Define Bartholinitis.
2. What is meant by metritis?
3. Retroversion of the uterus.
4. What is malignancy?
5. What is the causative organism for Trichomonas vaginalis?
6. Define ovulation.
7. List any four secondary sexual characters in a female.
8. Radical mastectomy.
9. What is the role of Mullerian duct in female genital organ development?
10. Inflammation of the fallopian tube is called as ----- .
