

**BACHELOR IN AUDIOLOGY & SPEECH LANGUAGE PATHOLOGY**  
**THIRD YEAR**

**PAPER II – NEUROGENIC LANGUAGE DISORDERS IN ADULTS**

*Q.P. Code: 802322*

**Time: Three Hours**

**Maximum: 100 Marks**

**Answer all questions**

**I. Elaborate on:**

**(3 x 10 = 30)**

1. Discuss the neurophysiological correlates of language processing in the brain based on evidence from people with aphasia.
2. Elaborate on the assessment procedure of a person with aphasia who reports to your clinic.
3. Discuss various treatment techniques for persons with non fluent aphasia.

**II. Write notes on:**

**(8 x 5 = 40)**

1. Explain the repetition skills in various types of aphasias.
2. Write a note on crossed aphasia.
3. Difference between aphasia and apraxia of speech.
4. Explain the characteristics of conduction aphasia based on its neural connections.
5. Describe the effectiveness of Alternative Augmentative Communication in aphasia.
6. Discuss the significance of cerebral plasticity and hemispheric lateralization.
7. Explain Promoting Aphasics Communicative effectiveness treatment technique.
8. Write a note on Recovery patterns in bilingual aphasia.

**III. Short answers on:**

**(10 x 3 = 30)**

1. Pure word blindness.
2. Sub-cortical aphasia.
3. Paraphasia.
4. Dynamic aphasia.
5. Computerized Tomography Scan.
6. Revised token test.
7. Lichtheim's model.
8. Contribution of Carl Wernicke to aphasiology.
9. Helm Elicited Program for Syntax Stimulation (HELPSS).
10. De-blocking.
