

APRIL 1990

104

**EXAMINATION FOR THE POST-GRADUATE DIPLOMA
IN DERMATOLOGY, APRIL 1990**

DERMATOLOGY INCLUDING THERAPEUTICS

Time : Three hours

Maximum : 100 marks

Answer ALL the questions.

- 1. Describe the classification, clinical features and management of mastocytosis. (25 marks)**
- 2. Classify Ichthyosis and describe its clinical features and that of the syndromes associated with it. (25 marks)**
- 3. Write short notes on :**
 - (a) Mixed connective tissue disease.**
 - (b) Superficial spreading melanoma.**
 - (c) Retinoids and its application in dermatology.**
 - (d) Immunomodulation.**
 - (e) Non-gonococcal urethritis. (5×10=50 marks)**

SEPTEMBER 1990

EXAMINATION FOR THE POST GRADUATE DIPLOMA IN
DERMATOLOGY (D.D), SEPTEMBER 1990.

Paper II — DERMATOLOGY INCLUDING THERAPEUTICS

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Discuss the immunology in relation to leprosy and the vaccines tried in its prophylaxis and therapy.
(25 marks)
 2. Discuss the management of psoriasis. (25 marks)
 3. Write short notes on :
 - (a) Gardenerella vaginalis infection.
 - (b) Langherhan's cell.
 - (c) Management of type II lepra reaction.
 - (d) Topical steroids.
 - (e) Glucagonoma syndrome. (5×10=50 marks)
-

EXAMINATION FOR THE POST-GRADUATE DIPLOMA IN
DERMATOLOGY (D.D.), APRIL 1991.

Paper II — DERMATOLOGY INCLUDING THERAPEUTICS

Time : Three hours. Maximum : 100 marks.

Answer ALL the questions.

1. Discuss animal models in Leprosy. (25 marks)
 2. Discuss antifungals — classification, mechanism of action, untoward effects and indications. (25 marks)
 3. Write short notes on :
 - (a) Insulin.
 - (b) Cephalosporins.
 - (c) Lymphatic drainage of the skin.
 - (d) Lasers in dermatology.
 - (e) Erythema marginatum. (50 marks)
-

OCTOBER 1991

208

**EXAMINATION FOR THE POST-GRADUATE DIPLOMA IN
DERMATOLOGY (D.D.), OCTOBER 1991.**

Paper II — DERMATOLOGY INCLUDING THERAPEUTICS

Time : Three hours.

Maximum : 100 marks.

Answer ALL the questions.

1. What is Photochemotherapy ? Discuss the usefulness of such a therapy in the treatment of Skin disease.
(25 marks)
 2. Enumerate the steps involved in the synthesis of melanin. Discuss the etiology and treatment of Vitiligo.
(25 marks)
 3. Write short notes on :
 - (a) Seronegative arthropathy.
 - (b) Clofazimine.
 - (c) Cafe au lait spots.
 - (d) Asteatotic dermatitis.
 - (e) Palpable purpura. (5 × 10 = 50 marks)
-

APRIL 1992

[208]

**EXAMINATION FOR THE POST-GRADUATE DIPLOMA IN
DERMATOLOGY (D.D.), APRIL 1992.**

Paper II — DERMATOLOGY INCLUDING THERAPEUTICS

Time : Three hours.

Maximum : 100 marks.

Answer ALL the questions.

1. Discuss the differential diagnosis of a hypopigmented patch on the face of a 5 year old child.
(25 marks)
 2. Discuss the pathogenesis, clinical features and management of inflammatory Acne vulgaris. (25 marks)
 3. Write short notes on :
 - (a) Elastosis perforans serpiginosa.
 - (b) Histoid Leprosy.
 - (c) Necrobiosis lipoidica.
 - (d) D-Penicillamine.
 - (e) Male pattern baldness.
-

APRIL 1993

[RS260]

DIPLOMA IN DERMATOLOGY

Paper II

DERMATOLOGY INCLUDING THERAPEUTICS

*Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Describe the mechanisms involved in urticaria. How will you manage a case of chronic urticaria? (25)
 2. How will you investigate and treat leg ulcers in the tropics? (25)
 3. Write short notes on : (5 × 10 = 50)
 - (a) Darier's disease.
 - (b) Intertrigo.
 - (c) Acrosclerosis.
 - (d) Antihistamines.
 - (e) Contact Dermatitis.
-

NOVEMBER 1993

PR500]

DIPLOMA IN DERMATOLOGY.

Paper II

DERMATOLOGY INCLUDING THERAPEUTICS

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Enumerate the Trans-epidermal elimination disorders and discuss any two of them. (25)
 2. What are oral Retinoids. Discuss their merits and demerits in Dermatology. (25)
 3. Write short notes on : (5 × 10 = 50)
 - (a) Pityriasis in Rubra Pelaris.
 - (b) Pre-tibial Myxoedema.
 - (c) H₂ Receptor Antagonists.
 - (d) Roxithromycin.
 - (e) Eosinophilic cellulitis.
-

APRIL 1994

M 1224]

DIPLOMA IN DERMATOLOGY

Paper II

DERMATOLOGY INCLUDING THERAPEUTICS

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Classify amyloidosis and discuss cutaneous amyloidosis.
(25)
 2. Discuss palmo-plantar keratodermas. (25)
 3. Write short notes on : (5 × 10 = 50)
 - (a) Cryostatic agents.
 - (b) Schambergh disease.
 - (c) Itraconazole.
 - (d) Spongiform pustule of Kogoj.
 - (e) Albright's syndrome.
-

NOVEMBER 1994

[ND 326]

DIPLOMA IN DERMATOLOGY.

Paper II

DERMATOLOGY INCLUDING THERAPEUTICS

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Discuss the pathology, clinical features, complications and diagnosis of pseudo-xanthoma elasticum. (25)
 2. Describe the Eye manifestations and their management in Leprosy. (25)
 3. Write short notes on : (5 × 10 = 50)
 - (a) Intensive care in Dermatology
 - (b) Fluconazole
 - (c) EMLA cream
 - (d) Management of Port-wine stain
 - (e) Richner-Hanhurt's syndrome.
-

APRIL 1995

[SB 376]

DIPLOMA IN DERMATOLOGY.

Paper II

DERMATOLOGY INCLUDING THERAPEUTICS

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Give an account of oral retinoids. Discuss their merits and demerits in Dermatology. (25)
 2. Discuss childhood Leprosy. (25)
 3. Write short notes on : (5 × 10 = 50)
 - (a) Calcinosis cutis.
 - (b) Photo Dynamic therapy.
 - (c) Management of Basal Cell Carcinoma.
 - (d) Chemical Peeling.
 - (e) Cyclosporin in Dermatology.
-

APRIL 1995

SB 379]

DIPLOMA IN DERMATOLOGY.

(New Regulations)

Part III

Paper III --- DERMATOLOGY INCLUDING THERAPEUTICS

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Discuss the principles of topical therapy in Dermatology. (25)
 2. Describe various clinical types of drug reactions. Mention the drugs responsible for each such type of reaction. (25)
 3. Write short notes on : (5 × 10 = 50)
 - (a) Patch test.
 - (b) Kerato--Acanthoma.
 - (c) Calcipotriol.
 - (d) Anti--Malarials in Dermatology.
 - (e) Erythema Induratum.
-

OCTOBER 1995

MB 393

DIPLOMA IN DERMATOLOGY

Paper II

DERMATOLOGY INCLUDING THERAPEUTICS

Time: Three hours

Max. marks:100

Answer All Questions

1. Describe the clinical features of atopic dermatitis and discuss its management. (25)
 2. Describe the clinical features of systemic lupus erythematosus and discuss its management. (25)
 3. Write short notes on:
 - (a) Treatment of Acne vulgaris.
 - (b) Treatment of vitiligo
 - (c) Methotrexate
 - (d) Acne conglobata
 - (e) Laser in Dermatology (5x10=50)
-

NOVEMBER 1995

MB 396

DIPLOMA IN DERMATOLOGY

(New Regulations)

Paper III

DERMATOLOGY INCLUDING THERAPEUTICS

Time: Three hours

Max. marks: 100

Answer All Questions

1. *Classify Dermatophytes. Discuss the management of T.Capitis.* (25)
 2. *Describe the pathogenesis and management of Acne vulgaris.* (25)
 3. *Write short notes on:*
 - (a) *Madura foot*
 - (b) *Majocchi's granuloma*
 - (c) *Hidradenitis Suppurativa*
 - (d) *New therapy in Psoriasis*
 - (e) *Sweet syndrome* (5x10=50)
-

APRIL 1997

MP 328

DIPLOMA IN DERMATOLOGY
(New Regulations)

Part II

Paper III - DERMATOLOGY INCLUDING THERAPEUTICS

Time: Three hours

Max.marks:100

Answer All questions

1. Enumerate the histopathological changes in vesicobullous disorders. Draw figures and tabulate. (25)
2. Discuss the aetiology and management of exfoliative dermatitis. (25)
3. Write briefly on:
 - (a) Acyclovir
 - (b) Epidermal Naevus syndrome
 - (c) Balanoposthitis
 - (d) Behcet's syndrome
 - (e) Cryosurgery.

(5x10=50)

OCTOBER 1997

MS 326

DIPLOMA IN DERMATOLOGY

(New Regulations)

Part II

Paper III - DERMATOLOGY INCLUDING
THERAPEUTICS

Time: Three hours

Max.marks:100

Answer All Questions

Sketch diagrams wherever necessary

1. Enumerate the annular erythemas. Describe the aetiology, clinical features and treatment of lyme disease. (25)
2. Discuss alopecias and management of alopecia areata. (25)
3. Write briefly on:
 - (a) Toxic epidermal necrolysis
 - (b) Dapsone syndrome
 - (c) Colchicine
 - (d) Sub cutaneous phycomycosis
 - (e) Inflammatory linear verrucous epidermal naevus. (ILVEN).(5x10=50)

APRIL 1998

SV 348

DIPLOMA IN DERMATOLOGY
(Old Regulations)

Paper II - DERMATOLOGY INCLUDING
THERAPEUTICS

Time: Three hours

Max.marks:100

Answer All Questions

1. Write the clinical features and management of scleroderma. (25)
2. Discuss the aetiopathogenesis of exfoliative dermatitis and describe its complications. (25)
3. Write briefly on:
 - (a) Treatment of psoriasis
 - (b) Treatment of Alopecia areata
 - (c) Chloroquine
 - (d) Acne fulminans
 - (e) Cryosurgery.

(5x10=50)

APRIL 1998

SV 351

DIPLOMA IN DERMATOLOGY

(New Regulations)

Part II

Paper III - DERMATOLOGY INCLUDING
THERAPEUTICS

Time: Three hours

Max.marks:100

Answer All Questions

1. Enumerate the list of photosensitive dermatoses and discuss the investigations and indicate the therapy. (25)
2. Describe the mast cells. Classify mast cell disease and discuss the management of urticaria pigmentosa. (25)
3. Write briefly on:
 - (a) Plexiform neurofibromatosis
 - (b) Acantholytic disorders
 - (c) Topical steroid therapy
 - (d) Hypertrichosis
 - (e) Pentoxifyphylline.

(5x10=50)

APRIL 1999

[SG 1534]

DIPLOMA IN DERMATOLOGY EXAMINATION.

(New Regulations)

Part II

Paper II — DERMATOLOGY INCLUDING
THERAPEUTICS

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

Sketch diagrams wherever necessary.

1. Enumerate various types of cutaneous tuberculosis, clinical features and management. (25)
 2. Discuss differential diagnosis of childhood eczemas. (25)
 3. Write short notes on : (5 × 10 = 50)
 - (a) Topical anti-pruritic agents.
 - (b) Management of molluscum contagiosum in children.
 - (c) Fabry's disease.
 - (d) Cutaneous leishmaniasis.
 - (e) Lupus anticoagulant.
-

SEPTEMBER 1999

[KA 1534]

Sub. Code : 3042

DIPLOMA IN DERMATOLOGY EXAMINATION.

(New Regulations)

Part II

Paper II — DERMATOLOGY INCLUDING
THERAPEUTICS

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Write an essay on the surgical approach to vitiligo. (25)
 2. Describe lichen planus and its treatment. (25)
 3. Write short notes on : (5 × 10 = 50)
 - (a) Erythema annulare centrifugum
 - (b) Podophyllotoxin
 - (c) Fixed drug eruption
 - (d) Hydroquinone
 - (e) Pulse therapy versus daily dose therapy with corticosteroids.
-

MARCH 2000

[KB 1534]

Sub. Code : 3042

DIPLOMA IN DERMATOLOGY EXAMINATION.

(New Regulations)

Part III

**Paper III — DERMATOLOGY INCLUDING
THERAPEUTICS**

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Classify Cutaneous Vasculitis. Write in detail about clinical features, investigations and treatment of a case of Henoch–Schonlein Purpura. (25)
 2. Discuss the aetio–pathogenesis, clinical features and approach to management of Phytophotodermatitis. (25)
 3. Write briefly on : (5 × 10 = 50)
 - (a) Clofazimine
 - (b) Naevus sebaceous
 - (c) Electrolysis
 - (d) Differential diagnosis of patchy hair loss on the scalp.
 - (e) Mupirocin.
-

SEPTEMBER 2000

[KC 1534]

Sub. Code : 3042

DIPLOMA IN DERMATOLOGY EXAMINATION.

(New Regulations)

Part II

**Paper II — DERMATOLOGY INCLUDING
THERAPEUTICS**

Time : Three hours

Maximum : 100 marks

1. Discuss the aetiopathogenesis of Urticaria.
Discuss the investigations and management of chronic
idiopathic urticaria. (25)
2. Discuss the differential diagnosis of facial
hyperpigmentation. Describe the management of
melasma. (25)
- 3 Write short notes on (5 × 10 = 50)
 - (a) Mupirocin.
 - (b) PUVA therapy.
 - (c) Methotrexate.
 - (d) Chemical leucoderma.
 - (e) Electrolysis.
