

THE TAMIL NADU DR. M.G.R. MEDICAL UNIVERSITY

[MBBS 0223]

FEBRUARY 2023

Sub. Code :6073

M.B.B.S. DEGREE EXAMINATION

(For the candidates admitted from the Academic Year 2019-2020 Batch onwards)

THIRD YEAR – (CBME)

PART - I

PAPER III – COMMUNITY MEDICINE - I

Q.P. Code: 526073

Time: Three hours

Maximum : 100 Marks (80 Theory + 20MCQs)

Answer all the Questions

I. Essay:

(2 x 15 = 30)

1. Define Epidemiology. Classify the various Epidemiological studies. Explain in detail the steps in conducting a randomized controlled trial.
2. Enumerate the various occupational hazards. Discuss in detail the prevention and control of occupational diseases.

II. Write Short notes on:

(10 x 5 = 50)

1. How will you apply integrated vector control measures in village of 500 population?
2. Compare Herd immunity for Measles and Tetanus.
3. Justify self care in diabetes mellitus.
4. Post exposure prophylaxis in HIV.
5. Sampling methods.
6. Oral rehydration therapy.
7. Oxidation pond.
8. Mortality data.
9. Plan Cold chain model at Primary Health Centre Level for routine immunization.
10. Evaluation of screening test.

Sub. Code :6073

M.B.B.S. DEGREE EXAMINATION

(For the candidates admitted from the Academic Year 2019-2020 Batch)

THIRD PROFESSIONAL PART – I (CBME)

PAPER I – COMMUNITY MEDICINE

Q.P. Code: 526073

Time: Three hours

Maximum : 100 Marks (80 Theory + 20MCQs)

Answer all the Questions

I. Essay:

(2 x 15 = 30)

1. A mother of 8 months old male child brought him to a PHC with complaints of breathlessness for one day. The baby had history of fever and cough for 4 days without treatment. On examination baby has temperature-101°F and RR – 64/min without chest in drawing.
 - a) Classify the patient as per IMNCI guidelines.
 - b) Discuss the treatment and follow-up protocol for the child as per IMNCI.
 - c) How will you prevent acute respiratory tract infection?
2. Classify epidemiological study designs. Describe the steps in conducting cohort study and discuss how will you measure the strength of association?

II. Write Short notes on:

(10 x 5 = 50)

1. Describe Human development index.
2. Classify the indicators of health. Enumerate the mortality indicators.
3. Enumerate the procedures in descriptive studies. Discuss about common source epidemic.
4. Explain any five Hill's criteria for association and causation.
5. Grading of dog bite wound and post exposure prophylaxis for rabies.
6. Explain Syndromic management of vaginal discharge and justify this approach.
7. Discuss the various methods of assessment of obesity.
8. Differentiate rapid sand and slow sand filter. Draw a flow diagram of rapid sand filter.
9. Enumerate the benefits under ESI Act. Describe any one benefit briefly.
10. Describe various types of Learning.

(For the candidates admitted from the Academic Year 2019-2020)

THIRD PROFESSIONAL PART – I - SUPPLEMENTARY (CBME)

PAPER I – COMMUNITY MEDICINE

Q.P. Code: 526073

Time: Three hours

Maximum : 100 Marks (80 Theory + 20MCQs)

Answer all the Questions

I. Essay:

(2 x 15 = 30)

(5+10)

1. In a village of population 5000, 25 cases of acute diarrhoeal disease with vomiting reported to the nearest PHC. Entire village receives water supply from a overhead tank. There is no history of common source of food intake. History of pipe leakage near overhead tank present.

- a) Define an Epidemic. List the objectives of an Epidemic investigation.
- b) Assuming yourself as the PHC medical officer, enumerate and describe the steps of conducting outbreak investigation and management in the given scenario.

(2+13)

2. Describe the scope of Employees State Insurance ACT, 1948. Discuss the benefits to the insured persons under the act.

II. Write Short notes on:

(10 x 5 = 50)

1. Draw the web of causation for MI.
2. How will you apply secondary prevention for cancer breast?
3. Discuss in detail about relative risk and attributable risk.
4. Differentiate screening test and diagnostic test.
5. Define Rehabilitation and discuss the various types of rehabilitation.
6. Pasteurization of Milk.
7. Classify the level of hardness in water and discuss the steps in removal of hardness.
8. Explain sanitation barrier with suitable diagram.
9. Classify of occupational diseases with examples.
10. Describe the various pictorial representations of statistical data.
