

MARCH - 1990

M.Ch. DEGREE EXAMINATION, MARCH 1990

(Higher Specialities)

Branch II — Neurosurgery

Part

GENERAL SURGERY

Three hours.

Answer ALL the questions.

Discuss the differential diagnosis of lump in the iliac fossa.

Describe the clinical features and discuss the management of gas gangrene.

Write short notes on :

- (a) Renal colic.**
- (b) Varicose veins.**
- (c) Fat embolism.**
- (d) Recurrent laryngeal nerve palsy.**
- (e) Rodent ulcer.**

SEPTEMBER - 1990

302 B

M.Ch. DEGREE EXAMINATION, SEPTEMBER 1990.

(Higher Specialities)

Branch II — Neurosurgery

Part I

Paper II — GENERAL SURGERY

Time : Three hours.

Answer ALL the questions.

1. A 32 year old male is brought to the casualty 2 hours after being involved in a road traffic accident. On examination his blood pressure is 80 mm Hg systolic, he is dyspnoeic, and there is tenderness all over abdomen. Discuss your plan of management of this patient.
 2. Discuss the indications, complications and management of Tracheostomy.
 3. Write short notes on :
 - (a) Osteogenic sarcoma.
 - (b) Biliary atresia.
 - (c) Clatrunk's operation.
 - (d) External angular dermoid.
 - (e) Polycystic kidney.
-

MARCH - 1991

M.Ch. DEGREE EXAMINATION, MARCH 1991.

(Higher Specialities)

(New Regulations)

Branch II — Neurosurgery

Part I

Paper II — GENERAL SURGERY

Three hours.

Maximum 100 marks.

Answer ALL the questions.

A 32 year old man is brought to the casualty after being involved in a road traffic accident. On examination he is restless, his blood pressure is 80 mm Hg systolic, bladder is distended and some blood leaks from the perineal urethral meatus. Discuss your plan of management of this patient. (25 marks)

Discuss the management of a penetrating chest wound. (25 marks)

Write short notes on : (5 × 10 = 50 marks)

- (a) Sir Percival Pott.
- (b) Classification of nerve injuries.
- (c) Treatment of stage IV Hodgkin's disease.
- (d) Stress fractures.
- (e) Arterial supply of the Gall bladder.

SEPTEMBER - 1991

347

M.Ch. DEGREE EXAMINATION, SEPTEMBER 1991.

(Old and New Regulations)

Branch II — Neurosurgery

Part I — Paper II — GENERAL SURGERY

Time : Three hours

Maximum : 100 marks

Answer ALL the questions.

1. Discuss the aetiology, clinical features and management of Deep Palmar abscess. (25 marks)
2. Discuss in detail the clinical features and management of Carcinoma of Tongue. (25 marks)
3. Write short notes on: (5×10=50 marks)
 - (a) Adamantinoma of jaw.
 - (b) Sublingual dermoid.
 - (c) Acute Parotitis.
 - (d) Crile's block dissection.
 - (e) Exomphalos.

SEPTEMBER - 1992

[347]

M.Ch. DEGREE EXAMINATION, SEPTEMBER 1992.

Branch II — Neurosurgery

Part I

Paper II — GENERAL SURGERY

Time : Three hours.

Maximum : 100 marks.

1. What is Appendicitis? Discuss the Etiopathogenesis, Pathology and management of acute appendicitis in an adult male. Touch upon modern trends in diagnosis and therapy.
(25)
 2. What is Thyrotoxicosis? Discuss the management of Multinodular Goitre with Thyrotoxicosis in a lady of 30 years. Discuss the modern trends.
(25)
 3. Write short notes on : (5×10=50)
 - (a) Tracheostomy.
 - (b) Tumours of testis.
 - (c) Endoscopy.
 - (d) Bleeding PR.
 - (e) Suture materials.
-

MARCH - 1993

1123

M.CH. DEGREE EXAMINATION MARCH, 1993

Branch II - NEURO SURGERY

OLD/NEW REGULATIONS

PART I

GENERAL SURGERY

Time: Three hours

Maximum: 100 Marks

1. Discuss the management of closed injury of the abdomen. (25)
 2. Discuss the management of varicose veins. (25)
 3. Write short notes on: (5 x 10 =50)
 1. Surgical complications of ascariasis.
 2. Unilateral Ptosis.
 3. Cysts of the epididymis.
 4. Supraspinatus tendinitis.
 5. Stress fractures.
-

NOVEMBER - 1993

[PR 323]

M.Ch. DEGREE EXAMINATION

(Higher Specialities)

Branch II — Neurosurgery

(Old / New Regulations)

Part I

Paper II — GENERAL SURGERY

Time : Three hours.

Maximum : 100 marks.

Answer ALL questions.

1. Discuss the etiology, pathology, clinical features and management of ileocaecal tuberculosis. (25)
2. What are the complications of Duodenal ulcer? Discuss the management of a case of duodenal ulcer perforation. (25)

Write short notes on :

[5 × 10 = 50]

- (a) Pleomorphic adenoma.
- (b) Fissure in ano.
- (c) Meckel's diverticulum.
- (d) Paraphimosis.
- (e) FNAC.

APRIL - 1994

**M.Ch. DEGREE EXAMINATION
(Higher Specialities)
Branch II - Neurosurgery
(Old/New Regulations)
Part I**

Paper II - GENERAL SURGERY

Three hours.

Max.marks:100

Answer ALL questions.

**What are the complications of an inguinal hernia?
How will you manage a case of strangulated
inguinal hernia? (25)**

**What are the modes of spread of gastric carcinoma?
Discuss the clinical features, diagnosis and
management of a case of carcinoma pyloric region
of the stomach. (25)**

Write short notes on: (5 x 10 = 50)

Fibro adenoma

Spinal anaesthesia

Ischio-rectal abscess

Branchial Cyst

Medullary Carcinoma of the Thyroid

APRIL - 1995

[SB 123]

M.Ch. DEGREE EXAMINATION.

(Higher Specialities)

Branch II — Neurosurgery

(Old/New Regulations)

Part I

Paper II — GENERAL SURGERY

Time : Three hours

Maximum 100 marks

Answer ALL questions.

1. Describe the aetiology, pathology, clinical features, diagnosis and management of Acute Pancreatitis. (25)
2. What are the complications of Inguinal Hernia? How will you manage a case of strangulated Inguinal Hernia? (25)
3. Write short notes on : (5 × 10 = 50)
 - (a) Implantation mold.
 - (b) Venous ulcer.
 - (c) Carcinoma penis.
 - (d) Salivary Calculus.
 - (e) Fibroadenoma.

APRIL - 1996

AK 44

M.Ch. DEGREE EXAMINATION

(Higher Specialities)

Branch II - Neuro Surgery

(Old/New Regulations)

Part I

Paper II - GENERAL SURGERY

Time: Three hours

Max. marks:100

Answer All Questions

1. Discuss the causes of haemorrhagic pleural effusion and their management. (25)
2. Surgical significance of the fascial planes in the neck - Discuss. (25)
3. Write short notes on: (5x10=50)
 - (a) Imperforate anus
 - (b) Pilonidal sinus
 - (c) Rodent ulcer
 - (d) Otitis media
 - (e) Hydronephrosis

APRIL - 1997

M.Ch. DEGREE EXAMINATION
(Higher Specialities)
Branch II - Neuro Surgery
(Revised Regulations)

Part I

Paper II - GENERAL SURGERY

Time: Three hours

Max.marks:100

Answer All Questions

1. Discuss the indications for urinary diversion and describe the procedures available for diversion. (25)
2. Discuss the aetiology, diagnosis and management of gangrene of fingers. (25)
3. Write briefly on: (5×10=50)
 - (a) Sentinel piles
 - (b) Flail chest
 - (c) Hyperparathyroidism
 - (d) Principles and precautions in use of diathermy in surgery
 - (e) Gall stones.

APRIL - 1998

SV 33

M.Ch. DEGREE EXAMINATION

(Higher Specialities)

Branch II - Neurosurgery

(Revised Regulations)

Part I

Paper II - GENERAL SURGERY

Time: Three hours

Max. marks: 100

Answer All Questions

1. Describe the aetiology, pathology, clinical features, diagnosis and management of cancer stomach. (25)
2. Describe the aetiology, pathology, clinical features, diagnosis and management of intestinal obstruction. (25)
3. Write briefly on: (5x10=50)

Blood groups - massive blood transfusion

Ludwig's angina

Management of intractable visceral pain

Renal calculus

(e) Haemorrhoids.

OCTOBER - 1998

[SM 030]

M.Ch. DEGREE EXAMINATION.

(Higher Specialities)

Branch II — Neurosurgery

(Revised Regulations)

Part I

Paper II — GENERAL SURGERY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Discuss etiology, diagnosis and management of obstructive jaundice in a man aged sixty five years old. (25)
2. Discuss the causes of haemoperitoneum and its management. (25)
3. Write short notes on : (5 × 10 = 50)
 - (a) Post operative laryngeal paralysis.
 - (b) HIV infection.
 - (c) Septic shock.
 - (d) Staplers in surgery.
 - (e) Magnetic resonance imaging.

OCTOBER - 1999

[KA 030]

Sub. Code : 1552

M.Ch. DEGREE EXAMINATION.

(Higher Specialities)

Branch II — Neuro-surgery

(Revised Regulations)

Part I

Paper II — GENERAL SURGERY

Time : Three hours

Maximum : 100 marks

1. Discuss the etiology, pathology, clinical features and management of ileocaecal tuberculosis. (25)
2. What is thyro toxicosis? Discuss the management of multinodular goitre with thyrotoxicosis in a lady of 30 years. Discuss the modern trend. (25)
3. Write briefly on : (5 × 10 = 50)
 - (a) Tracheostomy
 - (b) Sublingual dermoid
 - (c) Polycystic Kidney
 - (d) Recurrent laryngeal nerve palsy
 - (e) Paraphimosis. _____

APRIL - 2000

[KB 030]

Sub. Code : 1552

M.Ch. DEGREE EXAMINATION

(Higher Specialities)

Branch II — Neurosurgery

(Revised Regulations)

Part I

Paper II — GENERAL SURGERY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Enumerate various causes of Dysphagia. Discuss etiopathology and management of hiatus hernia. (25)
2. Discuss etiopathology, clinical features and management of Hydatid Cyst of Liver. (25)
3. Write briefly on : (5 × 10 = 50)
 - (a) Multiple Endocrine Neoplasia (MEN).
 - (b) Neurogenic bladder.
 - (c) Brachy therapy.
 - (d) Sympathectomy.
 - (e) Fractures of maxilla.

OCTOBER - 2000

[KC 030]

Sub. Code : 1552

M.Ch. DEGREE EXAMINATION.

(Higher Specialities)

Branch II — Neurosurgery

(New and Revised Regulations for 5 years course)

Part I

Paper II — GENERAL SURGERY

Time : Three hours

Maximum : 100 marks

Answer ALL questions

1. Discuss surgical pathology, clinical presentation and management of Carcinoma lung. (25)
 2. Describe various types of fractures of femur and their management. (25)
 3. Write briefly on : (5 × 10 = 50)
 - (a) Acute arterial occlusion
 - (b) Percutaneous nephrolithotomy (PCNL)
 - (c) Pseudopancreatic cyst
 - (d) Abdominal Tuberculosis
 - (e) Intestinal stomas.
-
