

[LA 2094]

Sub. Code: 2094

**M.D. DEGREE EXAMINATION  
BRANCH XX – DERMATOLOGY, VENEREOLOGY AND LEPROSY**

**GENERAL DERMATOLOGY, LEPROSY AND VENEREOLOGY**

**Q.P. Code : 202094**

**Time : 3 hours  
(180 Min)**

**Maximum : 100 marks**

**Answer ALL questions in the same order.  
Write Section A and Section B Separately.**

**SECTION – A  
DERMATOLOGY AND LEPROSY**

| <b>I. Elaborate on :</b>                                                                                                                                                                          | <b>Pages<br/>(Max.)</b> | <b>Time<br/>(Max.)</b> | <b>Marks<br/>(Max.)</b> |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|------------------------|-------------------------|
| 1. Mention the differential diagnosis for patchy non scarring hair loss over the scalp. Discuss in detail etiology, pathogenesis, pathology, clinical features and management of alopecia areata. | 16                      | 35                     | 15                      |
| <b>II. Write notes on :</b>                                                                                                                                                                       |                         |                        |                         |
| 1. Write about the causes, clinical features and management of Myiasis.                                                                                                                           | 4                       | 10                     | 7                       |
| 2. Write a note on epidermo dysplasia verruciformes.                                                                                                                                              | 4                       | 10                     | 7                       |
| 3. Describe the causes, clinical features and management of Kaposi's varicelliform eruption.                                                                                                      | 4                       | 10                     | 7                       |
| 4. Write about the importance of crusted scabies.                                                                                                                                                 | 4                       | 10                     | 7                       |
| 5. Differentiate : swimmers itch and sea bathers eruption.                                                                                                                                        | 4                       | 10                     | 7                       |
| 6. Write a note on cutaneous tuberculosis with Montoux negativity.                                                                                                                                | 4                       | 10                     | 7                       |
| 7. Write about the types of tinea capitis                                                                                                                                                         | 4                       | 10                     | 7                       |

**SECTION – B  
VENEREOLOGY**

|                                                                                                    |    |    |    |
|----------------------------------------------------------------------------------------------------|----|----|----|
| <b>I. Elaborate on:</b>                                                                            |    |    |    |
| 1. Define and discuss in detail the aetiology, and management of Balanoposthitis in an adult male. | 16 | 35 | 15 |
| <b>II. Write notes on :</b>                                                                        |    |    |    |
| 1. Explain the manifestations and treatment of Scabies in Immunocompromised host.                  | 4  | 10 | 7  |
| 2. Discuss the various modes of treatment of Genital warts.                                        | 4  | 10 | 7  |
| 3. Describe Amsel's criteria and its importance.                                                   | 4  | 10 | 7  |

OCTOBER 2012

Sub. Code: 2094

**M.D. DEGREE EXAMINATION**

**BRANCH XX – DERMATOLOGY, VENEREOLOGY AND LEPROSY**

**GENERAL DERMATOLOGY, LEPROSY AND VENEREOLOGY**

**Q.P. Code : 202094**

**Time : 3 hours  
(180 Min)**

**Maximum : 100 marks**

**Answer ALL questions in the same order.**

**Write Section A and Section B Separately.**

**SECTION – A**

**DERMATOLOGY AND LEPROSY**

**I. Elaborate on :**

1. Classify cutaneous tuberculosis. Write in detail about lupus vulgaris.

| Pages<br>(Max.) | Time<br>(Max.) | Marks<br>(Max.) |
|-----------------|----------------|-----------------|
|-----------------|----------------|-----------------|

|    |    |    |
|----|----|----|
| 16 | 35 | 15 |
|----|----|----|

**1. II. Write notes on :**

1. Write a note on Demodex folliculorum.
2. Describe the role of steroids in leprosy.
3. Describe the causes, clinical features and management of mycetoma.
4. Mention about the pyodermas.
5. Write a note on cimetosis.
6. Mention the types of Miliaria.
7. Write about the differential diagnosis and management of Pediculosis capitis.

|   |    |   |
|---|----|---|
| 4 | 10 | 7 |
| 4 | 10 | 7 |
| 4 | 10 | 7 |
| 4 | 10 | 7 |
| 4 | 10 | 7 |
| 4 | 10 | 7 |
| 4 | 10 | 7 |

**SECTION – B**

**VENEREOLOGY**

**I. Elaborate on :**

1. Draw a neat diagram of HIV Structure and discuss in detail the treatment approach in a HIV positive patient.

|    |    |    |
|----|----|----|
| 16 | 35 | 15 |
|----|----|----|

**II. Write notes on :**

1. Explain Argyll Robertson Pupil
2. Discuss about Penile intraepithelial neoplasia.
3. Discuss the causes, complications and management of Bartholin cyst.

|   |    |   |
|---|----|---|
| 4 | 10 | 7 |
| 4 | 10 | 7 |
| 4 | 10 | 7 |

BRANCH XX – DERMATOLOGY, VENEREOLOGY AND LEPROSY**

**GENERAL DERMATOLOGY, LEPROSY AND VENEREOLOGY  
Q.P. Code : 202094**

**Time: Three Hours**

**Maximum: 100 marks**

**(ANSWER SECTION A & B SEPARATELY)**

**SECTION – A  
(DERMATOLOGY & LEPROSY)**

**I. Elaborate on:**

**(1X15=15)**

1. Classify Lupus erythematosus. Discuss the aetiopathogenesis, clinical features and management of Systemic Lupus Erythematosus

**II. Write notes on:**

**(7X7=49)**

1. Chromoblastomycosis
2. Nevus Sebaceous
3. Pseudo xanthoma elasticum
4. Pilonidal sinus
5. Persisters
6. Lucio phenomenon
7. Trophic ulcer

**SECTION – B  
(VENEREOLOGY)**

**I. Elaborate on:**

**(1X15=15)**

1. Discuss clinical features, Differential diagnosis, complications and management of Secondary Syphilis in a pregnant woman

**II. Write notes on:**

**(3X7=21)**

1. Herpes Genitalis and HIV
2. Ophthalmia Neonatorum – clinical features, treatment and prevention
3. Differential diagnosis for Inguinal Bubos

**(ANSWER SECTION A & B SEPARATELY)**

**SECTION – A**

**(DERMATOLOGY & LEPROSY)**

**I. Elaborate on:**

**(1X15=15)**

1. Discuss in detail about Hidradenitis Suppurativa.

**II. Write notes on:**

**(7X7=49)**

1. Mycetoma foot.
2. Type I and II reactions in leprosy.
3. Pseudomonas and skin.
4. Toxic shock syndrome.
5. Animal models in leprosy.
6. Rhinosporidiosis.
7. Rhinoscleroma.

**SECTION – B  
(VENEREOLOGY)**

**I. Elaborate on:**

**(1X15=15)**

1. Discuss in detail about Neurosyphilis.

**II. Write notes on:**

**(3X7=21)**

1. Pseudochancre redux.
2. Strategies in HIV testing.
3. Genital Mycoplasmas.

**Time : Three Hours**

**Maximum : 100 marks**

**(ANSWER SECTION A & B SEPARATELY)**

**SECTION – A**

**DERMATOLOGY AND LEPROSY**

**I. Elaborate on:** (1X15=15)

1. Classify Fungal infections of skin and write in detail about Onychomycosis

**II. Write Notes on:** (7X7=49)

1. Lepromin test
2. Erythema nodosum
3. Herpes simplex
4. Subcutaneous Zygomycosis
5. Erucism
6. Nodular scabies
7. Light induced dermatosis

**SECTION – B  
(VENEREOLOGY)**

**I. Elaborate on:** (1X15=15)

1. Discuss in detail about Lymphogranuloma Venereum

**II. Write Notes on:** (3X7=21)

1. Non-gonococcal urethritis
2. Plasma cell balanitis
3. Vulvovaginal candidiasis

**Time: Three Hours**

**Maximum: 100 marks**

**(ANSWER SECTION A & B SEPARATELY)**

**SECTION – A  
(DERMATOLOGY & LEPROSY)**

**I. Elaborate on:** **(1 x 15 = 15)**

1. Discuss the pathogenesis, clinical features and management of atopic dermatitis in childhood.

**II. Write notes on:** **(7 x 7 = 49)**

1. Hirsutism.
2. Granulomatous tissue reaction.
3. Perioral dermatitis.
4. Staphylococcal infections of skin.
5. Deformities of the face in leprosy.
6. Acquired ichthyosis.
7. Aplasia cutis.

**SECTION – B  
(VENEREOLOGY)**

**I. Elaborate on:** **(1 x 15 = 15)**

1. Classify syphilis. Discuss congenital syphilis.

**II. Write notes on:** **(3 x 7 = 21)**

1. Oral hairy leukoplakia.
2. Bacillary angiomatosis.
3. Single dose therapy of sexually transmitted infections.

\*\*\*\*\*

**Time: Three Hours**

**Maximum: 100 marks**

**(ANSWER SECTION A & B SEPARATELY)**

**SECTION – A**

**(DERMATOLOGY & LEPROSY)**

**I. Elaborate on:**

**(1 x 15 = 15)**

1. A 50 year old man presents with exfoliative dermatitis and generalized lymphadenopathy of 3 months duration. Discuss the etiology, complications and management of the condition.

**II. Write notes on:**

**(7 x 7 = 49)**

1. Histoid leprosy.
2. Creeping eruption.
3. Chronic mucocutaneous candidiasis.
4. Complications of stasis ulcer.
5. Rosacea.
6. Henoch Schonlein purpura.
7. Epidermal Nevus syndromes.

**SECTION – B**

**(VENEREOLOGY)**

**I. Elaborate on:**

**(1 x 15 = 15)**

1. Discuss the differential diagnosis of genital ulcer disease in a male.

**II. Write notes on:**

**(3 x 7 = 21)**

1. Vaginal pH.
2. Pelvic inflammatory disease.
3. Sexually acquired reactive arthritis.

**SECTION – A**

**(DERMATOLOGY & LEPROSY)**

**I. Elaborate on:**

**(1 x 15 = 15)**

1. Write in detail about the etiology, pathogenesis, classification, investigations and management of Dermatomyositis.

**II. Write notes on:**

**(7 x 7 = 49)**

1. Insect bite allergy.
2. Norwegian scabies.
3. Bone involvement in leprosy.
4. Lazarine leprosy.
5. Cutis laxa.
6. Telogen effluvium.
7. Onchocerciasis.

**SECTION – B**

**(VENEREOLOGY)**

**I. Elaborate on:**

**(1 x 15 = 15)**

1. Discuss the cutaneous lesions seen in HIV infection.

**II. Write notes on:**

**(3 x 7 = 21)**

1. Extragenital manifestations lymphogranuloma venereum.
2. Clinical types and complications of donovanosis.
3. Dhat syndrome.

**(ANSWER SECTION A & B SEPARATELY)**

**SECTION – A**

**(DERMATOLOGY & LEPROSY)**

**I. Elaborate on:** **(1 x 15 = 15)**

1. Write in detail about the aetiology, pathogenesis, classification and management of Pyoderma gangrenosum.

**II. Write notes on:** **(7 x 7 = 49)**

1. Hyper IgE syndrome.
2. Nerve function assessment in leprosy.
3. Conidiobolomycosis.
4. Erythema nodosum leprosum.
5. Calcinosis cutis.
6. Monilethrix.
7. Lipoid Proteinosis.

**SECTION – B**  
**(VENEREOLOGY)**

**I. Elaborate on:** **(1 x 15 = 15)**

1. Discuss the role of HIV infection in the pathogenesis, transmission and clinical presentation of other sexually transmitted diseases.

**II. Write notes on:** **(3 x 7 = 21)**

1. Non gonococcal urethritis.
2. Laboratory tests in Syphilis.
3. Donovanosis.

**Maximum: 100 Marks**

**(ANSWER SECTION A & B SEPARATELY)**

**SECTION – A**

**(DERMATOLOGY & LEPROSY)**

**I. Elaborate on:** **(1 x 15 = 15)**

1. Write in detail about the aetiology, pathogenesis, classification and management of Sweet's syndrome.

**II. Write notes on:** **(7 x 7 = 49)**

1. Gianotti-Crosti syndrome.
2. Eye involvement in leprosy.
3. Chromoblastomycosis.
4. Serological diagnosis of leprosy.
5. Necrolytic migratory erythema.
6. Trichotillomania.
7. Pachyonychia congenital.

**SECTION – B**  
**(VENEREOLOGY)**

**I. Elaborate on:** **(1 x 15 = 15)**

1. Discuss the differential diagnoses of vaginal discharge in a female and its management.

**II. Write notes on:** **(3 x 7 = 21)**

1. Disseminated gonococcal infection.
2. Jarisch Herxheimer reaction.
3. Inguinal bubo.

**Maximum: 100 Marks**

**(ANSWER SECTION A & B SEPARATELY)**

**SECTION – A**

**(DERMATOLOGY & LEPROSY)**

**I. Elaborate on:** **(1 x 15 = 15)**

1. Discuss in detail about etiology, epidemiology, pathogenesis, clinical features, differential diagnosis and management of candidiasis involving skin and mucosa.

**II. Write notes on:** **(7 x 7 = 49)**

1. Tropical ulcer.
2. Role of nerve biopsy in leprosy.
3. Define: elimination of leprosy. Write about National Leprosy Eradication Program.
4. Foot wears in leprosy.
5. Causes of pedal oedema in leprosy.
6. Nevus spilus.
7. Post herpetic neuralgia.

**SECTION – B**  
**(VENEREOLOGY)**

**I. Elaborate on:** **(1 x 15 = 15)**

1. Discuss about the opportunistic infections in HIV/AIDS.

**II. Write notes on:** **(3 x 7 = 21)**

1. Anorectic gonorrhea.
2. Lymphadenopathy in syphilis.
3. Vulvodynia.

\*\*\*\*\*

**Time: Three Hours**

**Maximum: 100 Marks**

**(ANSWER SECTION A & B SEPARATELY)**

**SECTION – A**  
**(DERMATOLOGY & LEPROSY)**

**I. Elaborate on:** **(1 x 15 = 15)**

1. Discuss in detail about the reactions in leprosy and their management.

**II. Write notes on:** **(7 x 7 = 49)**

1. Chromoblastomycosis.
2. Kaposi's varicelliform eruptions.
3. Demodicidosis.
4. Histoid leprosy.
5. Id eruptions.
6. Hand eczema.
7. Lupus vulgaris.

**SECTION – B**  
**(VENEREOLOGY)**

**I. Elaborate on:** **(1 x 15 = 15)**

1. Write in detail about the non venereal penile dermatosis.

**II. Write notes on:** **(3 x 7 = 21)**

1. VDRL.
2. Ocular manifestations of HIV.
3. Clinical features and management of disseminated gonococcal infection.

\*\*\*\*\*

**M.D. DEGREE EXAMINATION**  
**BRANCH XX – DERMATOLOGY, VENEREOLOGY AND LEPROSY**

**Time: Three Hours**

**Maximum: 100 Marks**

**(ANSWER SECTION A & B SEPARATELY)**

**SECTION – A**  
**(DERMATOLOGY & LEPROSY)**

**I. Elaborate on:** **(1 x 15 = 15)**

1. Classify urticaria. Discuss in detail about classification, clinical features, investigations and treatment ladder of mastocytosis.

**II. Write notes on:** **(7 x 7 = 49)**

1. Dermographism.
2. Wells syndrome.
3. Coccidioidomycosis.
4. Melanocytic Naevi.
5. Majocchi's granuloma.
6. Lucio leprosy.
7. Relapse in leprosy.

**SECTION – B**  
**(VENEREOLOGY)**

**I. Elaborate on:** **(1 x 15 = 15)**

1. Discuss the differential diagnosis and management of urethral discharge in a male.

**II. Write notes on:** **(3 x 7 = 21)**

1. Premature ejaculation and its management.
2. Pneumocystis Pneumonia and its management in HIV infection.
3. Complications and management of Trichomoniasis.

**M.D. DEGREE EXAMINATION**  
**BRANCH XX – DERMATOLOGY, VENEREOLOGY AND LEPROSY**  
**PAPER II – GENERAL DERMATOLOGY, LEPROSY AND VENEREOLOGY**

*Q.P. Code: 202094*

**Time: Three Hours**

**Maximum: 100 Marks**

**(ANSWER SECTION A & B SEPARATELY)**

**SECTION – A**  
**(DERMATOLOGY & LEPROSY)**

**I. Elaborate on:** **(1 x 15 = 15)**

1. Mention various types of classifications of leprosy.  
Write in detail about Ridley Jopling classification.

**II. Write notes on:** **(7 x 7 = 49)**

1. Herpetic Whitlow.
2. Musculo skeletal manifestations of leprosy.
3. Trichorrexia nodosa.
4. Notalgia paresthetica.
5. Pityriasis rotunda.
6. Milroy disease.
7. Goltz syndrome.

**SECTION – B**  
**(VENEREOLOGY)**

**I. Elaborate on:** **(1 x 15 = 15)**

1. Classification of ART drugs. Write in detail about PrEP and comment about its use in India.

**II. Write notes on:** **(3 x 7 = 21)**

1. First episode non primary genital herpes.
2. Aceto whitening.
3. Balanoposthitis.

**Time: Three Hours**

**Maximum: 100 Marks**

**(ANSWER SECTION A & B SEPARATELY)**

**SECTION – A**

**(DERMATOLOGY & LEPROSY)**

**I. Elaborate on:** (1 x 15 = 15)

1. Describe in detail the etiopathogenesis, classification, clinical features and management of Alopecia areata.

**II. Write notes on:** (7 x 7 = 49)

1. Infantile gluteal granuloma.
2. Perioral dermatitis.
3. Paraneoplastic Pemphigus.
4. Hand foot mouth disease.
5. Cold urticaria.
6. Differentiate Reversal reaction from Relapse in leprosy.
7. Immunology in Leprosy.

**SECTION – B  
(VENEREOLOGY)**

**I. Elaborate on:** (1 x 15 = 15)

1. Describe in detail the clinical features, differential diagnosis and management of genital herpes.

**II. Write notes on:** (3 x 7 = 21)

1. Vulvodynia.
2. Bacterial vaginosis.
3. Pearly penile papule.
