

M.S. DEGREE EXAMINATION, MARCH 1990

Branch - General Surgery

Part II

Paper II - SURGERY

Time : Three hours.

SECTION I

1. Discuss the causes and management of gangrene distal phalanx index finger.
2. Discuss the differential diagnosis of acute pain in the lower abdomen in a 20 years old patient.

SECTION II

3. Discuss briefly on:
 - (a) Chasmodactoma.
 - (b) Myocutaneous flaps.
 - (c) Mackel's diverticulum.

M.S. DEGREE EXAMINATION, OCTOBER 1990.

Branch I — General Surgery

Part II

Paper II — SURGERY

Time : Three hours

Answer ALL the questions.

1. Classify the indications of splenectomy. Discuss the post-operative complications of splenectomy.
 2. Discuss the investigations and management of hyperparathyroidism.
 3. Write notes on :
 - (a) Appendicular lump
 - (b) Gall stone ileus
 - (c) Esophageal diverticula
 - (d) Torsion testis.
-

March-1991

113

M.S. DEGREE EXAMINATION, MARCH 1991

Branch General Surgery

Part II

Paper II — SURGERY

Time Three hours.

Answer ALL the questions.

1. Classify anorectal anomalies. Discuss management of high anomalies.
2. Describe the etiological factors in the formation of renal calculi. Discuss in detail the management of stones in upper urinary tract.
3. Write short notes on
 - (a) Therapeutic vascular embolisation.
 - (b) Entrapment neuropathy.
 - (c) Caroli's disease.
 - (d) Gastro-oesophageal reflux.
 - (e) Tumour markers.

M. S. DEGREE EXAMINATION, SEPTEMBER 1991.

Branch I — General Surgery

Part II

Paper II — SURGERY

*Time : Three hours.**Maximum : 100 marks.**Answer ALL the questions.*

1. Discuss the management of varicose veins.
(25 marks)
 2. How will you evaluate a case of carcinoma of oesophagus? Discuss the current trends in its management.
(25 marks)
 3. Write short notes on :
 - (a) Periarthritis of the shoulder
 - (b) Pros and cons of laparoscopic cholecystectomy
 - (c) Intrahepatic calculi
 - (d) Surgical complications of ascariasis
 - (e) Phimosis. (5 × 10 = 50 marks)
-

M. S. DEGREE EXAMINATION, MARCH 1992

General Surgery

Part II

Paper II SURGERY

Time Three hours

Maximum 100 marks

Answer ALL the questions.

Discuss the management of acute unilateral lower
limb ischaemia. (25 marks)

Discuss the management of carcinoma of rectum.
(25 marks)

Write short notes on :

- (a) Thyroglossal cyst
- (b) Pancreatic abscess
- (c) Extracorporeal lithotripsy
- (d) Supraspinatus tendinitis
- (e) Mallory-Weiss syndrome.

(5 × 10 = 50 marks)

September-1992

313]

M.S. DEGREE EXAMINATION, SEPTEMBER 1992.

Branch — General Surgery

Part II

Paper II — SURGERY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

Draw diagrams wherever necessary.

1. Discuss the diagnosis and management of Benign lesions of the breast. (25)
2. Discuss the evolution of etiopathogenesis, pathology and management of Pancreatitis. (25)
3. Briefly discuss (5 × 10 = 50)
 - (a) Laparoscopic Surgery.
 - (b) Surgical Diarrhoea.
 - (c) Tumour markers.
 - (d) Treatment of Varicose Veins Lower Limb.
 - (e) Diaphragmatic Hernia.

March-1993

[1215]

M.S. DEGREE EXAMINATION, MARCH 1993

General Surgery

Part II

GERY

Time Three hours

Maximum 100 marks

Answer ALL questions.

1. Describe the anatomy of sub-phrenic spaces and aetiology, clinical features and management of sub-phrenic abscess on the right side. (25)
2. Discuss the values of soft tissue radiography in acute abdomen and describe the management of adynamic ileus. (25)
3. Write short notes on: (5 × 10 = 50)
 - (a) Peutz-Jegger's Syndrome.
 - (b) Maldescented Testis.
 - (c) Cavernous Lymphangioma
 - (d) Total Parenteral Nutrition.
 - (e) Cystosarcoma Phylloides

November-1993

PR 413]

M.S. DEGREE EXAMINATION

Branch — General Surgery

(Old/New Regulations)

Part II

SURGERY

Time Three hours

Maximum 100 marks.

Answer ALL questions

1. How would you diagnose and stage pancreatic cancer? Discuss in detail the management of carcinoma head of the pancreas. (25)

2. Describe the blood supply of the stomach. Discuss the various 'Non-Shunt' operations for portal hypertension including their merits and demerits. (25)

3. Write short notes on :

- (a) Lasers in surgery.
- (b) Monoclonal antibodies.
- (c) Renal cysts.
- (d) Retained common bile duct stone.
- (e) Hydradenitis suppurativa. (5 × 10 = 50)

April-1994

M 1122],

M.S. DEGREE EXAMINATION.

Branch I — General Surgery

(Old/New Regulations)

Part II

SURGERY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

Discuss the various surgical procedures and their indications in the treatment of chronic pancreatitis. (25)

Discuss the differential diagnosis and management of intestinal ischaemia, including superior mesenteric artery occlusion. (25)

Write short notes on:

(a) Staplers in Surgery.

(b) Diabetic foot.

(c) Recent Trends in Laparoscopic surgery.

(d) Cystic Hygroma.

(e) Haemangiopericytoma. (5 × 10 = 50)

November-1994

[ND 224]

M.S. DEGREE EXAMINATION.

Branch I -- General Surgery

(Old/New Regulations)

Part II

SURGERY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Discuss the current management of early breast cancer. (25)
2. Discuss the pathology, clinical features, investigations and management of intestinal tuberculosis. (25)
3. Write short notes on : (5 × 10 = 50)
 - (a) Fistula in ano.
 - (b) Meckel's diverticulum.
 - (c) Rodent ulcer.
 - (d) Neurogenic bladder.
 - (e) Pseudo pancreatic cyst.

April-1995

(B 225)

M.S. DEGREE EXAMINATION

Branch I General Surgery

(Old/New Regulations)

Part II

Paper II SURGERY

Time Three hours

Maximum 100 marks

Answer ALL questions

Discuss the pathology, clinical features, investigations, and surgical and medical management of adenomatous hyperplasia of rectate. (25)

Discuss the etiology, clinical features, complications and treatment of appendicular mass. (25)

Write short notes on :

- (a) Argentaffinoma.
- (b) Pilonidal Sinus.
- (c) Laser in surgery.
- (d) Leukoplakia.
- (e) Hypertrophic pyloric stenosis of infants. (5 × 10 = 50)

November-1995

MB 225]

M.S. DEGREE EXAMINATION.

Branch — General Surgery

(Old / New Regulations)

Part II

Paper II — SURGERY

Time : Three hours. Maximum 100 marks

Answer ALL questions.

1. Discuss the pathology, clinical features, investigations and management of *Sub-Diaphragmatic Abscesses*. (25)
2. Discuss the pathology, clinical features, and Surgical Role of *Non-Hodgkins Lymphoma of Gastro Intestinal Tract*. (25)
3. Write notes on : (5×10=50)
 - (a) T.U.R.
 - (b) Sump Drainage.
 - (c) Raspberry Tumour.
 - (d) Gastroschisis.
 - (e) Defunctioning Colostomy.

M.S. DEGREE EXAMINATION

Branch General Surgery

Part II

Paper II SURGERY

**(Common to Part II — Paper II (OR/NR)
and Paper I (RR))**

Time : Three hours

Maximum 100 marks

Answer ALL questions.

1. Discuss the aetiology, clinical features, investigations and management of hydrocephalus. (25)
2. Discuss the clinical features, investigations and management of Carcinoma of tongue. (25)
3. Write short notes on : (5 x 10 = 50)
 - (a) Premalignant conditions of the skin
 - (b) Arteriovenous fistula.
 - (c) Sjogren's syndrome.
 - (d) Thyroiditis.
 - (e) Portasystemic shunt operations.

October-1996

[PK 169]

M.S. DEGREE EXAMINATION.

Branch I — General Surgery

Part II

SURGERY

(Common to Part II — Paper II (OR/NR) and Paper I (RR))

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Discuss the aetiology and clinical features of portal hypertension. Outline the management of bleeding oesophageal varices. (25)
2. What are the causes of haematuria? Discuss the management of hypernephroma. (25)
3. Write briefly on : (5 × 10 = 50)
 - (a) Lymphangiography.
 - (b) Hydatid cyst.
 - (c) Crohn's disease.
 - (d) Richter's hernia.
 - (e) Pheochromocytoma.

April-1997

[MP 189]

M.S. DEGREE EXAMINATION.

Branch I — General Surgery

(Old/New/Revised Regulations)

Part II

Paper I — SURGERY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Discuss the pathology, clinical features and management of Wilm's tumour. (25)
2. Discuss the pathology, diagnosis and management of hepatic hydatid disease. (25)
3. Write briefly on : (5 × 10 = 50)
 - (a) Gas gangrene.
 - (b) Mycetoma foot.
 - (c) Immunosuppression.
 - (d) Post-Phlebitic syndrome.
 - (e) Solitary thyroid nodule.

October-1997

[MS 187]

M.S. DEGREE EXAMINATION.

Branch I — General Surgery

(Old/New/Revised Regulations)

Part II

Paper I — SURGERY

Time : Three hours

Maximum : 100 marks

Answer ALL questions

1. Discuss the pathology of Carcinoma Thyroid and describe the management of solitary nodule of thyroid. (25)
2. Classify Parotid Tumours. Discuss the treatment of adenoid cystic carcinoma. (25)
3. Write briefly one : (5 × 10 = 50)
 - (a) Surgery for Ascites.
 - (b) Empyema.
 - (c) Vesical fistula.
 - (d) Cirroid Aneurysm.
 - (e) Median Nerve injury.

April-1998

[SV 199]

M.S. DEGREE EXAMINATION.

Branch I — General Surgery

(Old/New/Revised Regulations)

Part II

Paper I — SURGERY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Describe the pathology of Carcinoma of stomach.
Discuss R_1 and R_n resection of stomach. (25)
2. Discuss the clinical features and management of
Ulcerative Colitis. (25)
3. Write briefly on : (5 × 10 = 50)
 - (a) Surgery for obesity
 - (b) Carotid body tumour
 - (c) Complications of colostomy
 - (d) Klippel Trenany Syndrome
 - (e) Ameloblastoma.

October-1998

[SM 199]

M.S. DEGREE EXAMINATION.

Branch I — General Surgery

(Old/New/Revised Regulations)

Part II

Paper I — SURGERY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Describe the various endoscopic procedures related to biliary stones. (25)
2. Describe the various tests for examining varicose veins. What are the investigations? What is the treatment? Describe Bogaard's management. (25)
3. Write short notes on : (5 × 10 = 50)
 - (a) Doppler ultrasound
 - (b) Electrocautery
 - (c) Meningomyelocele
 - (d) Jackson's staging
 - (e) Pheochromocytoma.

April-1999

[ISG 199]

Sub. Code : 2005

M.S. DEGREE EXAMINATION.

**Branch I — General Surgery
(Old/New Revised Regulations)**

Part II

Paper I — SURGERY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. What are the causes of complete rectal prolapse. Discuss its management in different age groups. (20)
2. Discuss the pre-operative parathyroid localisation and surgical management of hyperparathyroidism. (20)
3. Write briefly on : (6 × 10 = 60)
 - (a) Management of Posterior urethral injury.
 - (b) Management of high ano-rectal anomaly.
 - (c) Gastrinoma.
 - (d) Buerger's disease.
 - (e) Jeep Disease.
 - (f) MARCH FRACTURE.

October-1999

[KA 199]

Sub. Code : 2005

M.S. DEGREE EXAMINATION

(Old/New/Revised Regulations)

Branch I - General Surgery

Part II

Paper I — SURGERY

Time : Three hours

Maximum : 100 marks

Answer ALL questions:

1. Discuss various causes and management of malignant obstructive jaundice (25)
2. What is the surgical anatomy of anal canal? Describe various types of rectal prolapse and their surgical management. (25)
3. Write briefly on : (5 × 10 = 50)
 - (a) Central Venous catheterisation
 - (b) Surgery for oesophageal cancer
 - (c) Major histocompatibility complex (MHC)
 - (d) Staplers in Surgery
 - (e) Treatment of carcinoma urinary bladder.

April-2000

[KB 199]

Sub. Code : 2211

M.S. DEGREE EXAMINATION

(Old/New/Revised Regulations)

Branch I — General Surgery

Part II

Paper I — SURGERY

Time : Three hours

Maximum : 100 marks

Answer ALL questions

1. Discuss the aetiology, pathology, clinical features and management of Renal calculi. (25)
 2. Discuss the aetiology, pathology, clinical features and management of lymphoedema. (25)
 3. Write short notes on : (5 × 10 = 50)
 - (a) Pleomorphic adenoma
 - (b) Aortogram
 - (c) Medullary carcinoma Thyroid
 - (d) Perthes Test
 - (e) Magnetic Resonance imaging
-

October-2000

[KC 199]

Sub. Code : 2211

M.S. DEGREE EXAMINATION.

Branch I — General Surgery

(Old/New/Revised Regulation)

Part II

Paper I — SURGERY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Discuss the investigations and management of a case of Acute Pancreatitis. (25)
2. Discuss the investigations and management of Hydatid Cyst of the Liver. (25)
3. Write briefly on : (5 × 10 = 50)
 - (a) Thyroglossal Cyst.
 - (b) Empyema of the gall bladder.
 - (c) Percutaneous Transhepatic Cholangiography
 - (d) Saint's Triad.
 - (e) Helicobacter Pylori.
