

M.D. (HOMOEOPATHY) DEGREE EXAMINATION

PART – I

BRANCH – V

PRACTICE OF MEDICINE

Q.P. Code : 443006

Time: Three Hours

Maximum : 100 Marks

I. Elaborate on:

(2 x 20 = 40)

1. Discuss the etiopathogenesis, clinical features and management of Marasmus. Add a note on its miasmatic evaluation.
2. Describe the etiology, clinical features and complications of Bacterial Pneumonia. Add a note on its homoeopathic management.

II. Write notes on:

(10 x 6 = 60)

1. What is Acquired Immunity? List the key characteristics of an acquired (adaptive) immune response.
2. Describe and discuss the National Antimalarial Programme.
3. Describe the clinical features and management of Sodium depletion.
4. Discuss the indications and contraindications of Intravenous Pyelogram.
5. List the complications of Measles. Add a note on the miasmatic evaluation of CNS complications of Measles.
6. Discuss the early warning signs of cancer.
7. Give a brief account of the Indicators of Health.
8. Discuss the difference between a dominant allele and a recessive allele.
9. Discuss in brief about the congenital Rubella Syndrome.
10. Write in detail about Vitamin B1 Deficiency.

[LN 3006]

OCTOBER 2018

Sub. Code: 3006

M.D. (HOMOEOPATHY) DEGREE EXAMINATION

PART – I

COMMON TO ALL BRANCHES

PRACTICE OF MEDICINE

Q.P. Code : 443006

Time: Three Hours

Maximum : 100 Marks

Answer All questions

I. Elaborate on: (2 x 20 = 40)

1. Describe the etiology, clinical features and complications of Lobar Pneumonia. Add a note on its homoeopathic management.
2. Discuss the etio-pathogenesis, diagnosis and general management of Obesity. Add a note on its Homoeopathic management.

II. Write Notes on: (10 x 6 = 60)

1. Write a detailed note on National Anti-Malarial Programme.
2. What are indications and contraindications of Intravenous Pyelogram?
3. Discuss the etiology, and clinical features of Congenital Rubella Syndrome.
4. Describe the etiology, clinical features and complications of Poliomyelitis.
5. What are the contents and principles of health education?
6. Describe the etiology, clinical features of Hypokalemia.
7. Describe the clinical features and complications of Diphtheria.
8. Describe the etiology, clinical features of Tropical Pulmonary Eosinophilia.
9. Write a detailed note on Screening for Cancers.
10. Discuss the risk factors for Coronary Heart Diseases.

MAY 2019

Sub. Code: 3006

M.D. (HOMOEOPATHY) DEGREE EXAMINATION

PART – I

BRANCH – V

PRACTICE OF MEDICINE

Q.P. Code : 443006

Time: Three Hours

Maximum : 100 Marks

I. Elaborate on:

(2 x 20 = 40)

1. Discuss the diagnosis and prevention of Pulmonary Tuberculosis. Add a note on its homoeopathic management.
2. Classify the clinical types of Leprosy. Add a note on the miasmatic evaluation of different clinical types of Leprosy.

II. Write notes on:

(10 x 6 = 60)

1. Describe the clinical features and management of Potassium depletion.
2. Discuss the transmission and pathogenesis of AIDS.
3. Describe the role of complement in the humoral immune response.
4. Discuss the complications and management of Cholera. Give indications of (a) Veratrb, (b) Camphor in Cholera.
5. Write in detail about the National vector-borne disease control programme.
6. List the complications of Diphtheria. Add a note on how to control Diphtheria?
7. What is the clinical deficiency presented by hemophilia people?
What is the genetic cause of that deficiency?
8. Discuss the risk factors for Coronary Heart Diseases.
9. Screening for cancers.
10. Write in detail about Vitamin B3 deficiency.

PART – I (For candidates admitted from 2016-2017 onwards)
BRANCH V – PRACTICE OF MEDICINE
PAPER I – PRACTICE OF MEDICINE
Q.P. Code : 443006**

Time : Three Hours

Answer all questions

Maximum : 100 Marks

I. Elaborate on:

(2 x 20 = 40)

1. Discuss the role of Homoeopathy in the prevention of communicable diseases.
2. Describe the clinical features and management of Kwashiorkor. Give indications of (a) Aethusa (b) Natrum mur and (c) Baryta Carb in Protein Energy Malnutrition.

II. Write notes on:

(10 x 6 = 60)

1. Discuss the clinical types, prevention and management of Malaria.
2. List the complications of Enteric Fever. Give indications of (a) Acid Phos (b) Muriatic Acid (c) Gelsemium in Enteric Fever.
3. Describe the immunization schedule under Universal Immunization Program.
4. Describe the clinical features and management of Calcium depletion.
5. Discuss in detail the procedure and normal findings of CSF analysis.
6. Discuss the epidemiology and prevention of poliomyelitis.
7. Write in detail about Vitamin A Deficiency.
8. What are the contents and principles of health education?
9. Describe the various Occupational cancers.
10. Write in brief about the prevention of genetic disorders.
