

[LB 4260]

AUGUST 2012

Sub. Code: 4260

SECOND B.PHARM. EXAM

Paper V – PHARMACY PRACTICE AND PATHOPHYSIOLOGY

Q.P. Code : 564260

Time : Three hours

Maximum: 100 Marks

(180 Min) Answer ALL questions in the same order.

Answer Section A and B in SEPARATE Answer Book.

SECTION A

(PHARMACY PRACTICE)

I. Elaborate on:

**Pages Time Marks
(Max.)(Max.)(Max.)**

1. Define incompatibility. Explain all the types of physical incompatibilities with one example for each.

19 33 20

II. Write notes on:

1. Write a model prescription and mention its parts.
2. Define Emulsions. Write any one method to determine the type of Emulsions.
3. Write a short note on lotions.
4. What is herapathite reaction?

3 8 5
3 8 5
3 8 5
3 8 5

III. Short Answers:

1. What is Young's formula?
2. What is 1 % w/v – explain.
3. Define isotonicity.
4. Define pills.
5. Define Posology.

1 5 2
1 5 2
1 5 2
1 5 2
1 5 2

SECTION B

(PATHOPHYSIOLOGY)

IV. Elaborate on:

1. Define Inflammation. Explain in detail the process of Inflammation.

19 33 20

V. Write notes on:

1. Write a note on reversible cell injury.
2. Write a note on Parkinson's disease.
3. What is myocardial infarction?
4. Explain about epilepsy.

3 8 5
3 8 5
3 8 5
3 8 5

VI. Short Answers:

1. Define apoptosis.
2. Define diapedesis.
3. Define atrophy.
4. Define hypertrophy.
5. What causes syphilis?

1 5 2
1 5 2
1 5 2
1 5 2
1 5 2

FEBRUARY 2013

Sub. Code: 4260

SECOND YEAR B.PHARM. EXAM

Paper V – PHARMACY PRACTICE AND PATHOPHYSIOLOGY

Q.P. Code : 564260

Time: Three hours
(180 Min)

Maximum: 100 Marks

Answer Section A and B in SEPARATE Answer Book.

SECTION A
(PHARMACY PRACTICE)

I. Elaborate on: (1X20=20)

1. a) Citing an example, identify the important components of an ideal prescription and indicate their importance.
- b) What are the legal requirements to be followed and complied with for establishing and maintaining retail medical store?

II. Write notes on: (4X5=20)

1. How do you distinguish gargles from mouthwash?
2. Explain how children doses are calculated?
3. Barriers in Patient counseling.
4. Role of pharmacist in community health care and education.

III. Short Answers: (5X2=10)

1. Types of emulsion with suitable example.
2. Define vitallium.
3. Antagonism.
4. Double wrapping method.
5. Liniments.

SECTION B
(PATHOPHYSIOLOGY)

IV. Elaborate on: (1X20=20)

1. a) Define AIDS. Explain the mode of transmission and management of HIV/AIDS.
- b) What are the contributory factors for peptic ulcer.

V. Write notes on: (4X5=20)

1. Urinary Tract Infections.
2. Management of Asthma.
3. Pathophysiology of ulcerative colitis.
4. Mediators of inflammation.

VI. Short Answers (5X2=10)

1. Lewis triple response.
2. DOT therapy.
3. Atheroma.
4. Angina.
5. Myocardial infarction.

(LD 4260)

AUGUST 2013

Sub. Code: 4260

SECOND YEAR B.PHARM. EXAM

PAPER V – PHARMACY PRACTICE AND PATHOPHYSIOLOGY

Q.P. Code: 564260

Time: Three Hours

Maximum: 100 marks

Answer Section A and B in SEPARATE Answer Book.

SECTION A

(PHARMACY PRACTICE)

I. Elaborate on:

(1X20=20)

1. (a). Define prescription. Explain the parts of prescription with a model prescription.
(b) Define posology. Explain the various factors which determine the dose(s) of drugs(s).

II. Write notes on:

(4X5=20)

1. Handling of prescription.
2. How will you prepare 200ml of 60 percent alcohol from 90 percent and 50 percent alcohols.
3. Convert 18° UP and 20° OP into percentage of alcohol.
4. Add a note on various child dose calculation formulas.

III. Short Answers on:

(5X2=10)

1. Supra-addition.
2. Agonist.
3. Absolute alcohol
4. Proof spirit
5. Lotions

SECTION B

(PATHOPHYSIOLOGY)

I. Elaborate on:

(1X20=20)

1. Define diabetes. Discuss in detail the etiology, pathophysiology and management of diabetes.

II. Write notes on:

(4X5=20)

1. Differentiate acute and chronic renal failure.
2. Types of congestive heart failure.
3. Types of urinary tract infections.
4. Pathophysiology of gout.

III. Short answers:

(5X2=10)

1. Azotemia.
2. Suppuration.
3. Urolithiasis
4. Ejection fraction.
5. Podagra.

SECOND YEAR B.PHARM. EXAM

PAPER V – PHARMACY PRACTICE AND PATHOPHYSIOLOGY

Q.P. Code: 564260

Time: Three Hours

Maximum: 100 marks

Answer Section A and B in SEPARATE Answer Book.

SECTION A

(PHARMACY PRACTICE)

I. Elaborate on: **(1X20=20)**

1. a. Discuss the formulation of mixtures with examples?
- b. Classify different types of bandage materials with their application

II. Write notes on: **(4X5=20)**

1. Mention the factors to be determined during dose calculation.
2. Write a note on therapeutic incompatibility with example.
3. Outline the design of drug store?
4. Mention the records to be retained in the drug store.

III. Short Answers on: **(5X2=10)**

1. Define Emulsion
2. Give two examples for over the counter medication.
3. Differentiate the mode of application in liniment & lotion
4. Define hypertonic solution.
5. Mention two examples for adhesive tapes

SECTION B

(PATHOPHYSIOLOGY)

I. Elaborate on: **(1X20=20)**

1. a) Discuss the pathophysiology of cell injury.
- b) Enumerate the management of diabetes

II. Write notes on: **(4X5=20)**

1. Differentiate atrophy & hypertrophy
2. Mechanism of cell repair
3. Pathophysiology of hypertension.
4. Contributing factors for asthma.

III. Short answers on: **(5X2=10)**

1. Gout
2. Therapy for treating rheumatoid arthritis
3. Importance of thyroid stimulating hormone
4. Treatment for peptic ulcer
5. Any two causes of cell injury.

AUGUST 2014

Sub. Code: 4260

SECOND YEAR B.PHARM. DEGREE EXAMINATION

Paper V – PHARMACY PRACTICE AND PATHOPHYSIOLOGY

Q. P. Code: 564260

Time: Three Hours

Maximum: 100 Marks

Answer All Questions

Answer Section-A and B in separate Answer Book

SECTION-A

(PHARMACY PRACTICE)

I. Essay: (1 x 20 = 20)

1. a) Define and classify the different type of mixtures with suitable examples.
- b) What are lotions and liniments? Add a note on calamine lotion and turpentine liniment.

II. Short Notes: (4 x 5 = 20)

1. Legal requirements to establish a drug store.
2. Source of errors in prescription.
3. What is inscription? What are adjuvant and corrigens? Give an example for each.
4. What are emulsions? Explain the method of preparation of emulsion.

III. Short Answers: (5 x 2 = 10)

1. Isotonic solution
2. Posology
3. Absorbents.
4. Antagonism.
5. Barriers in patient counseling.

SECTION-B

(PATHOPHYSIOLOGY)

I. Essay: (1 x 20 = 40)

1. a) Define Angina pectoris. Explain the causes, pathophysiology, diagnosis and symptoms of Angina pectoris.

II. Short Notes: (4 x 5 = 20)

1. Risk factors for atherosclerosis.
2. Pathophysiology of peptic ulcer.
3. Pathophysiology of hepatitis A and B.
4. Different types of epilepsy.

III. Short Answers: (5 x 2 = 10)

1. Proctitis
2. Thrombosis
3. Sigmoidoscopy
4. Tophi
5. DOT

**SECOND YEAR B.PHARM. EXAMINATION
PAPER V – PHARMACY PRACTICE AND PATHOPHYSIOLOGY**

Q.P. Code: 564260

Time: Three hours

Maximum: 100 marks

Answer Section A and B in SEPARATE Answer Book.

**SECTION A
(PHARMACY PRACTICE)**

I. Essay: (1 x 20 = 20)

1. a) Discuss the classification of powders. Explain each type with an example.
- b) Explain the code of ethics in community pharmacy.

II. Short notes: (4 x 5 = 20)

1. Absorbents with example
2. Physical incompatibility with example
3. Solutions used in the oral cavity with example
4. Organisational set up of whole sale and retail drug store

III. Short answers: (5 x 2 = 10)

1. Meaning of pulvis and unguentum
2. Calculate the dose for an infant of 9 months age when the adult dose is 100 mg using Fried's formula.
3. Define proof spirit
4. Types of drug store
5. Posology

**SECTION B
(PATHOPHYSIOLOGY)**

I. Essay: (1 x 20 = 20)

1. a) Discuss the pathophysiology causes and symptoms of congestive heart disease.
- b) Explain the contributory factors for Atherosclerosis.

II. Short notes: (4 x 5 = 20)

1. Mechanism of inflammation
2. Management of hypertension
3. Pathogenesis of cell injury
4. Contributory factors in diabetes

III. Short answers: (5 x 2 = 10)

1. Define cellular adaptation
2. Treatment for H.Pylori
3. Importance of serum creatinine in renal failure
4. Define vascular permeability
5. Any two antibiotics for treating urinary tract infection

(LI 4260)

FEBRUARY 2016

Sub. Code: 4260

**SECOND YEAR B.PHARM. EXAMINATION
PAPER V – PHARMACY PRACTICE AND PATHOPHYSIOLOGY**

Q.P. Code: 564260

Time: Three hours

Maximum: 100 Marks

**SECTION A
(PHARMACY PRACTICE)**

I. Essay: (1 x 20 = 20)

1. a) Classify the Emulsifying agents and add a note on HLB.
- b) Discuss the role of Community Pharmacist in health care and patient education.

II. Short notes: (4 x 5 = 20)

1. Discuss the factors determining doses of drug.
2. Explain Therapeutic incompatibility with examples.
3. Give the types of sutures with suitable examples.
4. Discuss health screening.

III. Short answers: (5 x 2 = 10)

1. Define Gargles. Give an example.
2. Give Dilling's and Fried's formula.
3. What are Crepe bandages?
4. Give the Meaning of coch.mag., and s.o.s.,
5. What are Pastilles?

**SECTION B
(PATHOPHYSIOLOGY)**

I. Essay: (1 x 20 = 20)

1. Define and classify Diabetes Mellitus. Discuss the symptoms, pathophysiology and complications of Diabetes Mellitus.

II. Short notes: (4 x 5 = 20)

1. Discuss the causes of cell injury.
2. Explain the cellular response in the inflammation process.
3. Give the causes and pathophysiology of acute renal failure.
4. Discuss the different types of viral hepatitis.

III. Short answers: (5 x 2 = 10)

1. What is Prinzmetal's angina?
2. What is Epilepsy? Give any two causes Epilepsy.
3. What is extrinsic Asthma?
4. What are chemical mediators? Give example.
5. What is Osteoporosis?

**SECOND YEAR B.PHARM. EXAMINATION
PAPER V – PHARMACY PRACTICE AND PATHOPHYSIOLOGY**

Q.P. Code: 564260

Time: Three hours

Maximum: 100 Marks

**SECTION A
(PHARMACY PRACTICE)**

I. Essay: (1 x 20 = 20)

1. a) Define Posology. Write in detail the various factors that determining the doses of drugs.
- b) What are Inhalations? Give its types. Give an example with the method of preparation.

II. Short notes: (4 x 5 = 20)

1. Explain in detail about the legal requirements for establishment and maintenance of drug store.
2. Explain the parts of the prescription.
3. Discuss OTC medication.
4. Write a note on physical incompatibility with examples.

III. Short answers: (5 x 2 = 10)

1. Differentiate between lotions and liniments.
2. Define proof spirit.
3. What is a primary wound dressing?
4. What is Tachyphylaxis?
5. What is Supra-addition?

**SECTION B
(PATHOPHYSIOLOGY)**

I. Essay: (1 x 20 = 20)

1. a) Define cell injury. Write in detail about various cellular adaptations & causes of cell injury.
- b) Give the pathogenesis of hypoxic cell injury.

II. Short notes: (4 x 5 = 20)

1. Discuss the symptoms and pathophysiology of Gout.
2. Discuss the process of repair.
3. Give the types and management of Diabetes Mellitus.
4. Explain the pathophysiology of Peptic ulcer.

III. Short answers: (5 x 2 = 10)

1. What is Reperfusion?
2. Define Homeostasis.
3. Define Ischaemia & Hypoxia.
4. Give the causative organism for syphilis and Gonorrhoea.
5. Give two symptoms of hypothyroidism.

(LK 4260)

FEBRUARY 2017

**B.PHARM. EXAMINATION
SECOND YEAR
PAPER V – PHARMACY PRACTICE AND PATHOPHYSIOLOGY**

Q.P. Code: 564260

Time: Three hours

Maximum: 100 Marks

**SECTION A
(PHARMACY PRACTICE)**

I. Elaborate on: (1 x 20 = 20)

1. a) Define Emulsions and classify it. Write in detail about the instability of emulsions.
Give the methods of determining the type of emulsion.
- b) Classify the emulsifying agents.

II. Write notes on: (4 x 5 = 20)

1. Give the method of preparation of pills.
2. Classify powders and write about the procedure to be adopted for dispensing powders.
3. Explain the role of pharmacist in community healthcare and education.
4. Discuss therapeutic incompatibility with examples.

III. Short answers on: (5 x 2 = 10)

1. Differentiate gargles and mouthwashes.
2. Define pastilles.
3. Name the parts of a prescription.
4. Give any two formulae for calculating child dose.
5. Define idiosyncrasy.

**SECTION B
(PATHOPHYSIOLOGY)**

I. Elaborate on: (1 x 20 = 20)

1. Define Hypertension. Discuss in detail the etiology, types, pathophysiology and management of hypertension.

II. Write notes on: (4 x 5 = 20)

1. What is cell injury and add a note on free radical mediated cell injury?
2. Give the causes of chronic inflammation.
3. Discuss the symptoms and pathophysiology of Myocardial Infarction.
4. Differentiate Rheumatoid Arthritis and Osteoporosis.

III. Short answers on: (5 x 2 = 10)

1. What is Azotemia?
2. What is Aortic stenosis?
3. What is Choleostasis?
4. Define hyperplasia and atrophy.
5. Name two drugs used for treatment of Tuberculosis.

**SECTION A
(PHARMACY PRACTICE)**

I. Elaborate on: (1 x 20 = 20)

1. Define Powders. Discuss the classification of powders. Explain each type with an example.

II. Write notes on: (4 x 5 = 20)

1. Explain the chemical incompatibility of alkaloidal salts.
2. Explain Handling of prescription.
3. What are the various types and design of drug stores?
4. Discuss the ideal characteristics of surgical dressings.

III. Short answers on: (5 x 2 = 10)

1. Define isotonic solutions.
2. Calculate the dose for a 9 years old child when the adult dose is 250mg.
3. Give the English meaning of Haustus and Statim.
4. What are secondary dressings? Give examples.
5. What is true tolerance?

**SECTION B
(PATHOPHYSIOLOGY)**

I. Elaborate on: (1 x 20 = 20)

1. a) What is Rheumatoid Arthritis? Give its causes, symptoms and pathophysiology.
b) Explain the pathophysiology of Acute renal failure.

II. Write notes on: (4 x 5 = 20)

1. Give the symptoms and pathophysiology of Congestive heart failure.
2. Explain the pathophysiology of Asthma.
3. Give the risk factors for Atherosclerosis.
4. Discuss the cellular events in Acute inflammation.

III. Short answers on: (5 x 2 = 10)

1. Define Metaplasia.
2. Give the treatment for H. Pylori.
3. What is diapedesis?
4. Give the symptoms for urinary tract infection.
5. What is primary gout?

**SECTION A
(PHARMACY PRACTICE)**

I. Elaborate on: (1 x 20 = 20)

1. a) What are sutures and ligatures? Give its types with example. Write a note on catgut.
- b) Explain briefly self-adhesive plasters.

II. Write notes on: (4 x 5 = 20)

1. Explain the various methods of preparation of an emulsion.
2. What are the sources of errors in prescription?
3. What is chemical incompatibility? Explain the incompatibility of soluble salicylates with alkaline substances.
4. Write a note on tablet triturates.

III. Short answers on: (5 x 2 = 10)

1. What are Corrigenes? Give an example.
2. Give the English meaning of Cremor and Infricandus.
3. What is Synergism? Give an example.
4. What is contra-indication?
5. Give the types of dusting powders.

**SECTION B
(PATHOPHYSIOLOGY)**

I. Elaborate on: (1 x 20 = 20)

1. a) Discuss the pathophysiology, causes, symptoms and management of Atherosclerosis.
- b) Explain the contributory factors for cell injury.

II. Write notes on: (4 x 5 = 20)

1. Discuss the management of Hypertension.
2. Explain the pathogenesis of Tuberculosis.
3. What are the different types of cellular adaptation?
4. What are chemical mediators? Give their types and functions.

III. Short answers on: (5 x 2 = 10)

1. Give the types of Ulcer.
2. Give the treatment for Hepatitis B.
3. What is Myocardial Infarction?
4. Write the symptoms of Diabetes mellitus.
5. Give the risk factors for Chronic Renal failure.

SECOND YEAR – (Regulation from 2009-2010)

PAPER V – PHARMACY PRACTICE AND PATHOPHYSIOLOGY

Q.P. Code: 564260

Time: Three hours

Answer ALL Questions

Maximum: 100 Marks

**SECTION A
(PHARMACY PRACTICE)**

I. Elaborate on:

(1 x 20 = 20)

1. a) Classify Emulsifying agents. Add a note on HLB.
- b) Discuss the stability of Emulsions.

II. Write notes on:

(4 x 5 = 20)

1. Explain the sources of error in prescription.
2. Write a brief note on Adsorbents.
3. Give an account of the records to be retained in the drug store.
4. Distinguish between Gargles and Mouthwashes.

III. Short answers on:

(5 x 2 = 10)

1. List out the factors determining the dose of a drug.
2. What is Antagonism? Give example.
3. What are adhesive tapes?
4. What are tablet triturates?
5. Write two examples for chemical incompatibility?

**SECTION B
(PATHOPHYSIOLOGY)**

I. Elaborate on:

(1 x 20 = 20)

1. What is Rheumatoid Arthritis? Explain its causes, symptoms and pathophysiology.

II. Write notes on:

(4 x 5 = 20)

1. Discuss the management of Hypertension.
2. Explain the mechanism involved in the process of Inflammation.
3. Discuss the pathophysiology of Acute Renal Failure.
4. Explain the different types of Epilepsy.

III. Short answers on:

(5 x 2 = 10)

1. What are chemical mediators? Give examples.
2. Treatment of UTI.
3. What is Ischaemia?
4. Diapedesis.
5. Metaplasia.

B. PHARMACY DEGREE EXAMINATION
SECOND YEAR – (NON-SEMESTER)
PAPER V – PHARMACY PRACTICE AND PATHOPHYSIOLOGY
Q.P. Code: 564260

Time: Three hours

Answer ALL Questions

Maximum: 100 Marks

SECTION A
(PHARMACY PRACTICE)

I. Elaborate on: (1 x 20 = 20)

1. a) Write a note on therapeutic incompatibility with suitable examples.
- b) What are surgical dressings? Classify different types of bandages materials with their application.

II. Write notes on: (4 x 5 = 20)

1. Write short on handling of prescription.
2. Explain the legal requirements to establish a drug store.
3. Give a model prescription and mention its parts.
4. Write a note on lotions.

III. Short answers on: (5 x 2 = 10)

1. What is HLB value?
2. Give the formulae for Mandl's paint.
3. What is Antagonism?
4. Types of drug stores.
5. Barriers in patient counseling.

SECTION B
(PATHOPHYSIOLOGY)

I. Elaborate on: (1 x 20 = 20)

1. Define Diabetes Mellitus. Discuss in detail the etiology, pathophysiology and management of Diabetes Mellitus.

II. Write notes on: (4 x 5 = 20)

1. Pathophysiology and different types of Epilepsy.
2. Explain the cellular events in acute inflammation.
3. Pathophysiology of Parkinson's disease.
4. Write a note on Myocardial Infarction.

III. Short answers on: (5 x 2 = 10)

1. Define Apoptosis.
2. Types of cellular adaptation.
3. Treatment for Hepatitis B.
4. Differentiate Atrophy and Hypertrophy.
5. Symptoms for Rheumatoid arthritis.

B.PHARMACY DEGREE COURSE (NON-SEMESTER EXAMINATIONS)
SECOND YEAR (Regulation 2009-2010)
PAPER V – PHARMACY PRACTICE AND PATHOPHYSIOLOGY
Q.P. Code: 564260

Time: Three hours

Answer ALL Questions

Maximum: 100 Marks

SECTION A
(PHARMACY PRACTICE)

I. Elaborate on: (1 x 20 = 20)

1. a) Define prescription. Explain various parts of prescription with an example.
- b) What are legal requirements to establish a drug store?

II. Write notes on: (4 x 5 = 20)

1. Write a note on dusting powders.
2. Explain the chemical incompatibilities which occur due to Alkaloidal salts.
3. Discuss the characteristics of surgical dressings.
4. Differentiate between Mouth washes and Gargles.

III. Short answers on: (5 x 2 = 10)

1. What is true drug tolerance?
2. Define Paratonic solution.
3. Give two examples of Protectives.
4. Define proof spirit.
5. Name any four examples of emulsifying agents.

SECTION B
(PATHOPHYSIOLOGY)

I. Elaborate on: (1 x 20 = 20)

1. Discuss the etiology, pathophysiology and management of Asthma.

II. Write notes on: (4 x 5 = 20)

1. Pathophysiology and different types of Epilepsy.
2. Explain the cellular events in acute inflammation.
3. Pathophysiology of Gout.
4. Write a note on reversible cell injury.

III. Short answers on: (5 x 2 = 10)

1. Define Apoptosis.
2. Types of cellular adaptation.
3. Treatment for Hepatitis B.
4. Differentiate acute and chronic renal failure.
5. Types of Diabetes Mellitus.

B. PHARMACY DEGREE EXAMINATION
SECOND YEAR – (NON-SEMESTER)
PAPER V – PHARMACY PRACTICE AND PATHOPHYSIOLOGY
Q.P. Code: 564260

Time: Three hours

Answer ALL Questions

Maximum: 100 Marks

SECTION A
(PHARMACY PRACTICE)

I. Elaborate on: (1 x 20 = 20)

1. Classify Mixtures with suitable examples. Discuss the formulation of Mixtures.

II. Write notes on: (4 x 5 = 20)

1. Write a note on drug store.
2. What are Lotions? Write short notes on Calamine lotion.
3. Differentiate between Mouth washes and Gargles.
4. Describe suture materials

III. Short answers on: (5 x 2 = 10)

1. What is true drug tolerance?
2. Define Isotonic solution.
3. Write the parts of a Prescription.
4. Define proof spirit.
5. What are the Health screening services?.

SECTION B
(PATHOPHYSIOLOGY)

I. Elaborate on: (1 x 20 = 20)

1. Discuss the etiology, pathophysiology and management of Diabetes Mellitus

II. Write notes on: (4 x 5 = 20)

1. Pathophysiology of Hepatitis A and B.
2. Explain the cellular events in acute inflammation.
3. Pathophysiology of Gout.
4. Write a note on risk factors for Atherosclerosis.

III. Short answers on: (5 x 2 = 10)

1. Proctitis.
2. Homeostasis.
3. What is Osteoporosis?
4. Differentiate acute and chronic renal failure.
5. What is Parkinson's disease?

THE TAMIL NADU DR. M.G.R. MEDICAL UNIVERSITY

[BPHARM 1022]

**OCTOBER 2022
(AUGUST 2022 EXAM SESSION)**

Sub. Code: 4260

**B.PHARMACY DEGREE COURSE (NON-SEMESTER EXAMINATIONS)
SECOND YEAR (Regulation 2009-2010)
PAPER V – PHARMACY PRACTICE AND PATHOPHYSIOLOGY
Q.P. Code: 564260**

Time: Three hours

Answer ALL Questions

Maximum: 100 Marks

**SECTION A
(PHARMACY PRACTICE)**

I. Elaborate on: (1 x 20 = 20)

1. Define powders. Explain about various types of powders with suitable examples.

II. Write notes on: (4 x 5 = 20)

1. Write a note on advantages and disadvantages of mixture dosage form.
2. Classify drug stores. Describe the design of a retail drug store.
3. Write about products that are used for surgical dressings.
4. Describe the role of Pharmacist in preventing incompatibilities.

III. Short answers on: (5 x 2 = 10)

1. Define gargles with example.
2. What is an isotonic solution?
3. Define Liniments and write its uses.
4. Classify emulsions.
5. Define prescription.

**SECTION B
(PATHOPHYSIOLOGY)**

I. Elaborate on: (1 x 20 = 20)

1. Discuss the pathophysiology, complications, and prevention of type II diabetes mellitus.

II. Write notes on: (4 x 5 = 20)

1. Describe about various types of asthma.
2. Define cell injury. Write about various types of cell injury.
3. Describe about the various causes and prevention of osteoporosis.
4. Write a note on types of wound healing process.

III. Short answers on: (5 x 2 = 10)

1. Define necrosis.
2. Write the types of inflammation.
3. Define atherosclerosis.
4. Write the cause and spread of gonorrhea.
5. Classify renal failure.

B.PHARMACY DEGREE COURSE (NON-SEMESTER EXAMINATIONS)
SECOND YEAR (Regulation 2009-2010)
PAPER V – PHARMACY PRACTICE AND PATHOPHYSIOLOGY

Q.P. Code: 564260

Time: Three hours

Answer ALL Questions

Maximum: 100 Marks

SECTION A
(PHARMACY PRACTICE)

I. Elaborate on: (1 x 20 = 20)

1. Define and classify emulsion. Discuss the methods involved in emulsion preparation.

II. Write notes on: (4 x 5 = 20)

1. Write a note on different types of physical incompatibilities.
2. Describe the factors determining drug doses.
3. Define lotions and liniments with suitable example.
4. Write the role of Pharmacist in community health care.

III. Short answers on: (5 x 2 = 10)

1. Define OTC medications.
2. What is synergism?
3. Define douches and write its uses.
4. Define posology.
5. Write the uses of sutures.

SECTION B
(PATHOPHYSIOLOGY)

I. Elaborate on: (1 x 20 = 20)

1. Discuss the types, causes, pathophysiology and prevention of hypertension.

II. Write notes on: (4 x 5 = 20)

1. Write causes and management of peptic ulcer.
2. Define cell injury. Write the causes of cell injury.
3. Describe different types of renal failure.
4. Write a note on risk factors for asthma.

III. Short answers on: (5 x 2 = 10)

1. Define Type II diabetes mellitus.
2. Write the cause of syphilis.
3. Define phagocytosis.
4. Write the risk factors for atherosclerosis.
5. Name the various types of viral hepatitis.

**B.PHARMACY DEGREE COURSE (NON-SEMESTER EXAMINATIONS)
SECOND YEAR (Regulation 2009-2010)
PAPER V – PHARMACY PRACTICE AND PATHOPHYSIOLOGY**

Q.P. Code: 564260

Time: Three hours

Answer ALL Questions

Maximum: 100 Marks

**SECTION A
(PHARMACY PRACTICE)**

I. Elaborate on: (1 x 20 = 20)

1. Discuss the classification of powders. Explain each type with an example.

II. Write notes on: (4 x 5 = 20)

1. Explain the parts of a prescription.
2. Explain the organisational set up of wholesale and retail drug store.
3. Summarize the factors for calculation of doses of drug for elderly patients.
4. With suitable examples explain physical incompatibility.

III. Short answers on: (5 x 2 = 10)

1. What absorbable sutures? Give examples.
2. What is hypertonic solution?
3. What are douches?
4. What is synergism? Give example.
5. What is OTC medication?

**SECTION B
(PATHOPHYSIOLOGY)**

I. Elaborate on: (1 x 20 = 20)

1. a) Discuss the pathophysiology, causes, symptoms and management of atherosclerosis.
b) Explain the contributory factors for asthma.

II. Write notes on: (4 x 5 = 20)

1. Explain the mediators of inflammation.
2. Explain briefly the pathophysiology of peptic ulcer.
3. Write a brief note on the causes for cell injury.
4. Explain the symptoms and pathophysiology of congestive heart failure.

III. Short answers on: (5 x 2 = 10)

1. What is primary gout?
2. What is the importance of creatinine in renal failure?
3. What are the symptoms of hypothyroidism?
4. Thrombosis.
5. List out the types of ulcer.

B.PHARMACY DEGREE COURSE (NON-SEMESTER EXAMINATIONS)
SECOND YEAR (Regulation 2009-2010)
PAPER V – PHARMACY PRACTICE AND PATHOPHYSIOLOGY

Q.P. Code: 564260

Time: Three hours

Answer ALL Questions

Maximum: 100 Marks

SECTION A
(PHARMACY PRACTICE)

I. Elaborate on: (1 x 20 = 20)

1. Define and classify incompatibility. Explain about physical and therapeutic incompatibilities.

II. Write notes on: (4 x 5 = 20)

1. Write a note on different parts of prescription.
2. Describe the methods of emulsion preparation.
3. Define mixtures. Classify mixtures with suitable example.
4. Write about various health screening services offered by Community Pharmacist.

III. Short answers on: (5 x 2 = 10)

1. Define wholesale drug store.
2. What is additive effect?
3. Define Lozengens and write its uses.
4. Define proof spirit.
5. Classify sutures.

SECTION B
(PATHOPHYSIOLOGY)

I. Elaborate on: (1 x 20 = 20)

1. Explain about the risk factors, pathophysiology and prevention of atherosclerosis.

II. Write notes on: (4 x 5 = 20)

1. Write note on causes, symptoms and management of tuberculosis.
2. Define hypertension. Write the risk factors and prevention of hypertension.
3. Describe about the various causes of cell injury.
4. Write a note on various types of thyroid disease.

III. Short answers on: (5 x 2 = 10)

1. Define Inflammation.
2. Write the types of angina.
3. Define hypertrophy and atrophy.
4. Write the allergic causes of asthma.
5. Write the risk factors that cause peptic ulcer.
