

M.D.S. DEGREE EXAMINATION, MARCH 1990.

Branch IV — Oral Pathology

Part II

Paper I — ORAL PATHOLOGY

Time : Three hours.

Answer ALL the questions.

1. Describe giant cell lesions of the oro-facial region.
 2. Discuss in detail, the odontogenic keratocyst.
 3. Discuss non-neoplastic enlargements of the major and minor glands of the oro-facial region.
-

SEPTEMBER 1991

384

M.D.S. DEGREE EXAMINATION, SEPTEMBER 1991.

Branch IV — Oral Pathology

Paper — ORAL PATHOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions

1. Discuss the various hamartomatous malformations that may occur in the Jaw and Oral Cavity.
 2. Classify the viral induced diseases affecting the Oropharynx and describe the clinical aspects associated with AIDS.
 3. Comment briefly
 - (a) Immuno-histochemistry,
 - (b) Oral Protozoans and Treponems
-

SEPTEMBER 1992

384]

M.D.S. DEGREE EXAMINATION, SEPTEMBER 1992

Branch IV

Part II

ORAL PATHOLOGY—I

Time : Three hours

Maximum : 100 marks

Answer ALL the questions

1. Discuss the Metabolic diseases of Jaws (25)
2. Classify salivary gland tumours and discuss in detail Pleomorphic adenoma. (25)
3. Write briefly on :
 - (a) Tumour markers.
 - (b) Oral candidiasis.
 - (c) Histopathology of enamel caries
 - (d) Aphthous ulcers.
 - (e) Immuno fluorescence. (5 × 10 = 50)

NOVEMBER 1993

PR 438]

M.D.S. DEGREE EXAMINATION

Part II

Branch IV — Oral Pathology

Paper ORAL PATHOLOGY—I

Time : Three hours

Answer ALL questions

1. Describe briefly the etiopathogenesis, clinical features and histopathology of the various types of osteomyelitis affecting the jaws.
2. Enumerate and discuss the various lesions associated with impacted teeth.
3. Write briefly on
 - (a) Cystic degeneration in Ameloblastoma
 - (b) Bell's palsy
 - (c) Dental fluorosis
 - (d) Herpes simplex.
 - (e) Warthin's tumour

MARCH 1990

281

M.D.S. DEGREE EXAMINATION, MARCH 1990

Branch IV — Oral Pathology

Part II

Paper II — ORAL PATHOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL the questions

1. Discuss malignancies of the reticulo-endothelial system.
 2. Discuss the application of histochemistry in oral disease.
 3. Write briefly on :
 - (a) Tissue processing.
 - (b) Haematoxylin and eosin stains
-

SEPTEMBER 1991

385

M.D.S. DEGREE EXAMINATION, SEPTEMBER 1991

Branch IV — Oral Pathology

Paper II — ORAL PATHOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions

1. Discuss the histo-pathology aspects of the various malignant tumours that may arise from the stratified squamous epithelium.
 2. Describe briefly the differential diagnosis of white lesions of oral-mucosa.
 3. Comment briefly
 - (a) Microbiological aspects of Dental plaque
 - (b) Globulo Maxillary cyst
-

SEPTEMBER 1992

[385]

M.D.S. DEGREE EXAMINATION, SEPTEMBER 1992

Branch IV

Part II

ORAL PATHOLOGY—II

Time Three hours. Maximum 100 marks

Answer ALL the questions

1. Classify odontogenic tumours and discuss in detail epithelial odontogenic tumours. (25)
 2. Discuss the immunological aspects of periodontal diseases. (25)
 - 3 Write briefly on :
 - (a) Investigation for anemia
 - (b) Grading of oral cancer
 - (c) Kaposi sarcoma.
 - (d) Electron microscopy.
 - (e) Alkaline phosphatase. (5×10=50)
-

NOVEMBER 1993

P R 4 3 9]

M.D.S. DEGREE EXAMINATION

Part II

Branch IV Oral Pathology

Paper II — ORAL PATHOLOGY—II

Time Three hours

Answer ALL questions

Discuss Lichen Planus with special emphasis on oral lesions

2. Discuss the concept of Precancer and describe in detail submucous fibrosis.

3 Write briefly on :

(a) Tzanck test.

(b) PAS staining.

(c) Malignant central giant cell tumour

(d) ELISA tests.

(e) Granular cell myoblastoma.

APRIL 1995

SB 275

M.D.S. DEGREE EXAMINATION.

(New Regulation)

Part II

Branch IV — Oral Pathology

Paper I — ORAL PATHOLOGY AND MICROBIOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions

1. Discuss sclerosing osteomyelitis of the jaw. (25)
 2. Effect of ionising radiation on oral and para oral structures. (25)
 3. Write short notes on : (5×10=50)
 - (a) HIV infection
 - (b) Sjogrens syndrome
 - (c) B lymphocytes
 - (d) External resorption of teeth
 - (e) Mucocele
-

PK

OCTOBER 1996

M.D.S. DEGREE EXAMINATION.

(New Regulations)

Branch IV — Oral Pathology

Part II

Paper I — ORAL PATHOLOGY AND MICROBIOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Discuss the developmental disturbances affecting the teeth during the morphogenic stage. (25)
 2. Discuss herpes simplex infection of the oral tissues. (25)
 3. Write short notes on:
 - (a) Trigeminal Neuralgia
 - (b) Cellulitis
 - (c) Pyogenic granuloma
 - (d) Histopathologic features of Pemphigus
 - (e) Hypercementosis
-

APRIL 1998

SV 235

M.D.S. DEGREE EXAMINATION

(Revised Regulations)

Branch IV - Oral Pathology

Part II

Paper I - ORAL PATHOLOGY AND MICROBIOLOGY

Time: Three hours

Max.marks:100

Answer All Questions

1. Describe the characteristics of Candida albicans and discuss the full spectrum of oral Infections caused by Candida. (25)
2. Discuss the hereditary disorders affecting the structure of teeth. (25)
3. Write briefly on: (5x10=50)
 - (a) Ameloblastic change in dentigerous cyst
 - (b) Median Rhomboid Glossitis
 - (c) Gingivosis
 - (d) Necrotising Sialo-metaplasia
 - (e) Langerhans cell.

OCTOBER 1999

[KA 364]

M.D.S. DEGREE EXAMINATION.

Branch IV — Oral Pathology

Part II

Paper I — ORAL PATHOLOGY AND MICROBIOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Describe the characteristics of Herpes Simplex virus and discuss in detail the oral lesions caused by HSV. (25)
 2. Discuss in detail Osteomyelitis of Jaw. (25)
 3. Write briefly on : (5 × 10 = 50)
 - (a) Ameloblastic Fibroma
 - (b) Juvenile Periodontitis
 - (c) Down's Syndrome
 - (d) Mid-line lethal Granuloma
 - (e) Nikolsky's sign.
-

APRIL 2000

[KB 364]

M.D.S. DEGREE EXAMINATION.

Branch IV — Oral Pathology

Part II

Paper I — ORAL PATHOLOGY AND
MICROBIOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Discuss the hamartomatous swelling that may occur in the jaws. (25)
 2. Discuss the periapical inflammation with emphasis on their pathogenesis and pathology. (25)
 3. Discuss the microflora in the oral cavity AIDS. (25)
 4. Discuss anomalies associated with enamel formation. (25)
-

OCTOBER 2000

[KC 364]

M.D.S. DEGREE EXAMINATION.

Part II

Branch IV — Oral Pathology

Paper I — ORAL PATHOLOGY AND MICROBIOLOGY

Time : Three hours

Maximum : 100 marks

Answer ALL questions.

1. Discuss the autoimmune lesions of the salivary glands. (25)
2. Describe the developmental disorders affecting the jaw and skull. (25)
3. Discuss osteomyelitis of the jaws. (25)

4. Write briefly on : (25)

- (a) Clidocranial dysplasia.
- (b) Phemphigus.
- (c) Histopathology of dentinal caries.
