

NOVEMBER - 1990

041A

B.Sc. DEGREE EXAMINATION IN NURSING FOR TRAINED
NURSES, NOVEMBER 1990.

Fifth Semester

Paper I — MEDICAL SURGICAL NURSING

Time : Three hours

Maximum : 75 marks

THREE questions are to be answered.

Question No. 4 is compulsory and answer
any TWO other questions.

1. (a) Describe the pathophysiology of nutritional
cirrhosis of liver and its related clinical manifestations.
(10)

(b) Discuss the medical and nursing management
of a patient with hepatic coma. (10)

2. Discuss the factors that lead to cerebrovascular
accidents. How would you care for a patient with
cerebrovascular accident to prevent complications?
Describe the long term objectives for rehabilitation. (20)

3. (a) Describe the pathophysiology and clinical mani-
festations of rheumatic heart disease. How would you
detect rheumatic heart disease? (10)

(b) Plan the pre and post operative nursing care of
a patient with mitral stenosis. (10)

4. (a) Discuss the nursing management of the
following patients during the first 48 hours : (4×5=20)

(i) A patient with keratoplasty.

(ii) A patient with head injury.

(iii) A patient with tympanoplasty.

(iv) A patient with acute myocardial infarction.

(b) Write short notes on the following : (3×5=15)

(i) Nursing care of a patient with traction.

(ii) Prevention of sexually transmitted
diseases.

(iii) Prevention of allergic reactions.

5. Rama a 25 year old woman is admitted with acute
renal failure.

(a) List the diagnostic tests to confirm renal
failure. (4)

(b) List the nursing problems. (4)

(c) Develop a care plan for 24 hours. (8)

(d) Plan a one day menu for Rama. (4)

APRIL - 1991

087

B.Sc. (NURSING) DEGREE EXAMINATION, APRIL 1991.

(For Trained Nurses)

Fifth Semester

Paper I — MEDICAL AND SURGICAL NURSING

Time : Three hours.

Maximum : 75 marks.

THREE questions are to be answered.

Question No. 5 is compulsory.

Answer any TWO other questions.

L. Mr. Raju, aged 40 years, admitted with swelling of lower limbs and dyspnoea, provisionally diagnosed as congestive cardiac failure.

Answer the following :

(a) Outline briefly the pathophysiology of congestive cardiac failure. (6 marks)

(b) List the nursing problems priority-wise. (4 marks)

(c) Implement appropriate nursing measures for the problems identified. (10 marks)

APRIL - 1991

2. A middle aged man has been admitted for removal of brain tumour, occupying the sensory and motor area of the left hemisphere.

Answer the following :

(a) What are the anticipated signs and symptoms ?
(4 marks)

(b) Explain the nurse's responsibility in preparing for operation.
(6 marks)

(c) Describe the priority nursing problems and nursing intervention after removal of tumour.
(10 marks)

3. A 15 year old boy is admitted with Acute Nephritis :

(a) What are the clinical manifestations of Acute Nephritis ?
(4 marks)

(b) Describe the medical management (including drugs) and the nursing responsibilities for this patient during his period of stay in the hospital.
(12 marks)

(c) What health education will you give him ?
(4 marks)

4. Mr. Krishnan, aged 24 years, is admitted in the emergency ward with acute intestinal obstruction having moderate dehydration. :

(a) List the causes of intestinal obstruction.
(4 marks)

(b) What are the common signs and symptoms of intestinal obstruction ? Give scientific reasons for the occurrence of the above signs and symptoms.
(6 marks)

(c) Explain briefly the post operative management of this patient after surgery.
(10 marks)

5. (a) Write short notes on the following :
(3×5=15 marks)

(i) Nurse's role in the prevention of blindness.

(ii) Antrum puncture.

(iii) Amenorrhoea.

(b) Explain the nurse's responsibility in the management of the following patients :
(4×5=20 marks)

(i) A patient undergoing peritoneal dialysis.

(ii) A patient with infective hepatitis.

(iii) A patient on skeletal traction.

(iv) A patient who has undergone corneal grafting.

NOVEMBER - 1991

087

B.Sc. (Nursing) DEGREE EXAMINATION, NOVEMBER 1991.

(For Trained Nurses)

Fifth Semester

Paper I — MEDICAL AND SURGICAL NURSING

Time : Three hours

Maximum : 75 marks

Question No. 5 is compulsory.

Answer any THREE other questions.

1. Mr. Rajayya, 45 years, a police officer is admitted with Myocardial Infarction. Answer the following :

(a) Mention the common etiological factors of I.H.D. (4)

(b) Explain the pathophysiological changes in Myocardial Infarction. (6)

(c) How will you give comprehensive care to Mr. Rajayya ? (10)

2. Mr. Rajgopal, aged 30 years, factory employee, met with a severe accident and had multiple fractures of the lower limb. On admission he was advised amputation above the knee joint.

Answer the following :

(a) How will you prepare the patient for amputation. (5)

NOVEMBER - 1991

(b) Prepare a post-operative nursing care plan for the first 48 hours. (7)

(c) Explain briefly the rehabilitation of Mr. Rajagopal. (8)

3. A middle aged lady is admitted with chronic renal failure.

(a) List the etiology of renal failure. (4)

(b) Outline briefly the pathophysiology of chronic renal failure. (6)

(c) Explain the role of the nurse in haemodialysis. (10)

4. An elderly man of 55 years, father of 5 children comes to the hospital with a small amount of blood in stool occasionally. After examination it was diagnosed as malignancy of rectum.

Answer the following questions in relation to his condition :

(a) What is the usual line of surgical treatment ? (2)

(b) How will you deal with the problems in preparing for operation ? (6)

(c) Explain the post-operative needs/problem and nursing action for the first 48 hours after surgery. (8)

(d) Health education on discharge. (4)

5. (a) Write short notes on the following :

(i) Contact lenses.

(ii) Audiogram.

(iii) Eczema.

(3×5=15)

(b) Explain the nurse's responsibility in the management of the following patients :

(i) An old lady in skin traction for fracture of the head of femur.

(ii) A patient with Acute Angle closure glaucoma.

(iii) A patient with right sided hemiplegia and Aphasia.

(iv) A patient with Trans-urethral resection of the prostate. (4×5=20)

APRIL - 1993

Third Semester

Paper III — MEDICAL SURGICAL NURSING

Time : Three hours

Maximum : 75 marks

Two and a half hours

for Sections A and B

Sections A and B : 55 marks

Answer Sections A and B in separate answer books.

Answer ALL questions.

SECTION A — (2 × 15 = 30 marks)

1. Mr. X, a 55 year old businessman is admitted in ICU with inferior wall myocardial infarction

(a) Define myocardial infarction.

(b) Explain the nursing management of Mr. X, during the first 48 hours of admission.

2. Mr. Y is admitted for mastoiditis

(a) Define mastoiditis.

(b) Describe the pre and post operative nursing management of Mr. Y.

SECTION B — (5 × 5 = 25 marks)

3. Write short notes on any FIVE of the following :

(a) Nursing management of a patient with acute appendicitis.

(b) Prevention of bronchiectasis.

(c) Nursing management of a patient on external radiation therapy.

(d) Parkinsonism.

(e) Prevention of allergic reactions.

(f) Nursing management of a client with continuous urinary drainage.

Paper III — MEDICAL SURGICAL NURSING

Time : Three hours

Maximum : 75 marks

Two and a half hours
for Sections A and B

Sections A and B : 55 marks

Answer Sections A and B in separate answer books.

Answer ALL questions.

SECTION A — (2 × 15 = 30 marks)

1. Mrs. Kamala, 25 year old woman is admitted with Nephrotic syndrome

(a) Define nephrotic syndrome.

(b) Illustrate the nursing management of Mrs. Kamala to prevent complications.

2. Mr. X met with an automobile accident and is admitted with head injuries.

(a) Define subdural hematoma.

(b) Explain the nursing management of Mr. X with subdural hematoma.

[PR 615]

SECTION B — (5 × 5 = 25 marks)

3. Write short notes on any FIVE of the following :

(a) Nursing management of a patient with peritonitis.

(b) Nursing management of a patient with ascites.

(c) Heart block.

(d) Prevention of blindness.

(e) Nursing management of a patient with tetanus.

(f) Infertility.

NOVEMBER - 1994

[ND 760]

B.Sc. Degree in Nursing Examination

Second Semester

Paper IV - MEDICAL SURGICAL NURSING

Time : Three hours Maximum : 75 marks

Two and a half an hours Sections A and B: 55 marks
for Sections A and B Section C : 20 marks

Answer section A and B in separate answer books

SECTION A

1. Mr. Ram, 50 years old is admitted with cerebro vascular accident. He is unconscious
 - a) Enumerate the causes of cerebro vascular accident (7)
 - b) Write the specific patient problems and nursing interventions of Mr Ram (3)
 - c) Explain the Rehabilitation of Mr. Ram (5)
2. Mrs. Sudha, 50 years old, an officer having three children is admitted for chronic renal failure.
 - a) Describe the pathophysiology of chronic renal failure. (5)
 - b) What are the investigations that are to be performed. (3)
 - c) Explain the nursing care of Mrs. Sudha who is on hemodialysis. (7)

SECTION B (5X5 = 25)

3. Write short notes on any FIVE of the following :
 - a) Lympho granuloma venerium
 - b) Tetanus
 - c) Iron deficiency anaemia
 - d) Bronchogram
 - e) Endoscopy
 - f) Allergic dermatitis
 - g) Tetology of Fallot

Third Semester

Paper III - MEDICAL SURGICAL NURSING

Time : Three hours Maximum : 75 marks

Two and a half an hours Section A and B : 55 marks
for Section A and B Section C : 20 marks

Answer Section A and B in separate answer books

Answer ALL Questions.

SECTION - A (2×15=30)

1. Mr. Kannan who is 45 years old is admitted with congestive cardiac failure
 - a) Explain the pathophysiology of C.C.F. (5)
 - b) Write the specific problems and Nursing Interventions for Mr. Kannan. (7)
 - c) Prepare an health education plan for Mr. Kannan (3)
2. Mr. Sundaram, 50 years old is admitted with a history of diabetic coma
 - a) Write the patients problems and nursing interventions for Mr. Sundaram for the first 48 hours. (5)
 - b) Name the diabetic agents with their effects and side effects. (5)
 - c) Prepare a diet plan for Mr. Sundaram. (5)

SECTION - B (5X5=25)

3. Write short notes on any FIVE of the following :
 - a) Nursing responsibilities in cancer chemotherapy
 - b) Thyroid crisis
 - c) Nursing care of a patient with traction
 - d) Nursing care of a patient with Intraocular lens
 - e) Prevention of Hepatic failure
 - f) Hard of hearing

Paper IV — MEDICAL SURGICAL NURSING

Time : Three hours

Maximum : 75 marks

Two and a half hours

Section A and B : 55 marks

for Sec. A and B

Sec C : 20 marks

Answer Section A and B in separate answer books.

Answer ALL questions.

SECTION A — (2 × 15 = 30 marks)

1. Sri Anantharaj admitted in a state of deep unconsciousness with severe dehydration. Answer the following questions in relation to his condition.

(a) What are the causes for unconsciousness and how do you assess the level of unconsciousness? (7)

(b) Identify the nursing problem of an unconscious patient and institute appropriate nursing actions according to the priority. (8)

[SB 767]

2. (a) What are the common causes of blindness in our country and what health education would you give to prevent blindness? (8)

(b) How are the eye drops classified and give an example of each? (7)

SECTION B — (5 × 5 = 25 marks)

3. Write short notes on any FIVE of the following :

(a) Importance of drugs and diet in C.C.F. patients.

(b) Anaesthesia.

(c) Wounds and their healing.

(d) T.A.O.

(e) Causes of intestinal obstruction.

(f) Diet and exercise in diabetes mellitus.

(g) Types of fractures.

Time : Three hours

Maximum : 75 marks

Two and a half hours

Section A and B : 55 marks

for Sec. A and B

Sec C : 20 marks

Answer Section A and B in separate answer books.

SECTION A — (2 × 15 = 30 marks)

1. Mr. Sree Ram 50 years old is admitted with spinal cord injury, having motor paralysis.

(a) Identify the specific problems in relation to motor nerve paralysis. (5)

(b) What is the immediate priority need in such cases? (5)

(c) How would you make effort in evaluating the extent of damage done in relation to the level of spinal cord injury? (5)

[MB 842]

2. Ms. Sharada 40 years old is admitted into the endocrinology unit, is just diagnosed to be having Diabetes Mellitus.

(a) Write in detail the treatment and nursing management keeping in mind the following objectives for care plan (7)

(i) Diet and Weight control.

(ii) Oral or parenteral hypoglycaemic therapy.

(iii) Physical exercise.

(iv) Continuing programme of health education.

(b) Mention the long term complication and its preventive measures. (5)

(c) Discuss in detail any two subjects you choose to teach to make the patient self reliant. (3)

SECTION B — (25 marks)

3. Answer any FIVE of the following as short notes :
(5 × 5 = 25)

(a) Myopia.

(b) Multiple sclerosis.

(c) Healing of a fracture.

(d) Hernia.

(e) Angina pectoris.

(f) Cushing's syndrome.

(g) Hepatic coma.

Sec. C : 20 marks

Answer Section A and B in separate answer books.

SECTION A — (2 × 15 = 30 marks)

1. Mr. Sharma, 46 years old sales manager is admitted with the diagnosis of Diabetic Ketoacidosis.

(a) Explain the pathophysiology of his illness. (5)

(b) Describe the nursing management of the patient with nursing diagnosis and health education. (10)

[AK 842]

2. Mr. Patel, an young man met with motor vehicle accident. He was admitted with open fracture of shaft of Femur left side.

(a) Describe the nursing assessment of Mr. Patel. (4)

(b) Describe the nursing care of a patient on skeletal traction. (6)

(c) What are the complications of fracture? (5)

SECTION B — (5 × 5 = 25 marks)

3. Write short notes on any FIVE :

(a) Conjunctivitis.

(b) Causes of intestinal obstruction.

(c) Pathophysiology of Bronchial asthma.

(d) Tetanus infection.

(e) Assessment of level of consciousness.

(f) Risk factors of coronary artery disease.

(g) Risk factors and detection of cancer cervix.

Section C : 30 marks

Answer Section A and Section B in separate
answer books.

Answer Section C in the answer sheet provided.

Answer ALL questions.

SECTION A

1. Raghu aged 20 admitted with the diagnosis of
acute appendicitis :

(a) Write etiology and clinical manifestations of
acute appendicitis. (5)

(b) Discuss pre and post operative nursing
management of appendicectomy. (10)

2. Write short notes on any FOUR : (4 × 5 = 20)

- (a) Anemia
- (b) Renal calculi
- (c) Endometriosis
- (d) Pathophysiology of hypertension
- (e) Meningitis.

SECTION B

3. An 45 year old man admitted with the diagnosis of
peptic ulcer :

- (a) Write etiology and clinical manifestations of
peptic ulcer. (5)
- (b) Write pre and post operative nursing care of
this patient using nursing process. (10)

4. Write short notes on any FOUR : (4 × 5 = 20)

- (a) Bronchial Asthma
 - (b) Cirrhosis of liver
 - (c) Tetany
 - (d) Arthritis
 - (e) Acute renal failure.
