

Undergraduate Academic Record

Pathology

The TN Dr.M.G.R Medical University, Chennai

The TN Dr. M.G.R. Medical University Chennai

Under Graduate Academic Record Department of Pathology

Thanking....

"I thank all the illustrious faculty of Pathology in the Medical Schools of this University for their conscientious effort"

Dr. Sudha Seshayyan

Preface

The new GMER attempts to stand on the shoulder of the contributions and the efforts of resource persons, teachers and students (past and present). It intends to carry forward the process of learning to enable the Indian Medical Graduate, a consummate provider of health care aligned to the evolving needs of the patients in every socio- economic setting. The thrust in the new regulations is the continuation and evolution of thought in medical education making it more learner-centric, patient-centric, gender sensitive, outcome -oriented and environment appropriate. The result is an outcome driven curriculum which conforms to global trends. Emphasis is made on alignment and integration of subjects both horizontally and vertically while respecting the strengths and necessity of subject-based instruction and assessment. The importance of ethical values, responsiveness to the needs of the patient and acquisition of communication skills is underscored by providing dedicated curriculum time in the form of a longitudinal program based on Attitude, Ethics and Communication (AETCOM) competencies. Great emphasis has been placed on collaborative and interdisciplinary teamwork, professionalism, altruism and respect in professional relationships with due sensitivity to differences in thought, social and economic position and gender. In addition to the above, an attempt has been made to allow students from diverse educational streams and backgrounds to transition appropriately through a Foundation Course. Dedicated time has been allotted for self-directed learning and co-curricular activities. With this view in mind the log book has been designed as per the guidelines of competency-based curriculum. This Academic Record for Undergraduate Medical Students is to be maintained by the student and is part of the learner's personal progress assessment toolkit. The learner shall present the Academic Record to the staff facilitator / mentor at the end of all class room learning / practical sessions / integrated learning sessions / ECE / SDL / AETCOM sessions and feedback sessions as called for by the faculty facilitators / mentors. The progress shall be recorded in the various segments of the record and signed by the facilitator / mentor.

Certificate

This is to certify that

Mr. / Ms. _____

University Roll No: _____

Has satisfactorily attended and completed all academic activities as assigned in this record under the guidelines prescribed under the Tamil Nadu Dr. M.G.R. Medical University for the subject of Pathology.

Head of Department

1. Background of the Course

GOAL AND OBJECTIVES

GOAL

The broad goal of the teaching of undergraduate student in Pathology is to provide the students with a comprehensive knowledge of the mechanisms and causes of disease, in order to enable him/her to achieve complete understanding of the natural history and clinical manifestations of disease.

OBJECTIVES

a) KNOWLEDGE

At the end of the course, the student should be able to:-

1. Describe the structure and ultrastructure of a sick cell, mechanisms of cell degeneration, cell death and repair and be able to correlate structural and functional alterations.
2. Explain the pathophysiological processes which govern the maintenance of homeostasis, mechanisms of their disturbance and the morphological and clinical manifestations associated with it.
3. Describe the mechanisms and patterns of tissue response to injury such that she/he can appreciate the pathophysiology of disease processes and their clinical manifestations.
4. Correlate normal and altered morphology (gross and microscopic) of different organ systems in common diseases to the extent needed for understanding of disease processes and their clinical significance.

b) SKILLS

At the end of the course, the student should be able to:-

1. Describe the rationale and principles of technical procedures of the diagnostic laboratory tests and interpretation of the results.
2. Perform simple bed-side tests on blood, urine and other biological fluid sample.
3. Draw a rational scheme of investigations aimed at diagnosing and managing the cases of common disorders.
4. Understand biochemical / physiological disturbances that occur as a result of disease in collaboration with preclinical departments.

c) INTEGRATION

At the end of training he/she should be able to integrate the causes of disease and relationship of different etiological factors (social, economic and environmental) and that contribute to the natural history of diseases most prevalent in India.

4. Clinical Pathology Lab Record

Note:

1. This section captures the attainment of the various competency mile-stones attained through hematology and clinical pathology lab work.
2. The learner shall make observation in the lab and makes entries as mandated in the concerned record book
3. The record books shall be verified by the faculty facilitator periodically / at the end of each session or module and the completion of each such activity shall be recorded in this section by the learner and signed by the facilitator.
4. The end of each session shall be appended by an end of training formative assessment in the topic / session / module. eg: OSPE. Such sessional outcomes and feed for such outcomes may be suitably entered in the concerned documents.

9. Case Based Learning Record

Note:

Objectives of Case Based Learning for the phase II graduate medical student are

1. Recognize the relevance of basic sciences in diagnosis, patient-care and treatment
2. Provide a concept that will enhance clinico-pathological correlation,
3. Relate to experience of patients as a motivation to learn,
4. Recognize attitude, ethics and professionalism as integral to the doctor-patient relationship,
5. Understand the socio-cultural context of diseases through the study of humanities.

Elements of CBL

1. Provision of clinical correlation to pathological mechanisms
2. Integration of morphology and clinical features
3. Bridging the gap between laboratory and clinical practice

10.Integrated Learning Record

Note

1. This section includes academic milestones attained through horizontal and vertical integrated sessions.
2. The learner shall attend all such integrated sessions and observe, interact and understand the topic.
3. The learner shall submit the end of session assessment (eq: MCQ session of 15- 20 MCQ questions)
4. The completion of such activity shall be recorded in this section by the learner and signed by the facilitator

11. Self-Directed Learning Record

SDL helps in empowering the student to perform an objective self-assessment of knowledge and skills, continue learning, refine existing skills and acquire new skills, to apply newly gained knowledge or skills to the care of the patient, to introspect and utilize experiences, to enhance personal and professional growth and learning, to search (including through electronic means), and critically evaluate the medical literature and apply the information in the care of the patient and to identify and select an appropriate career pathway that is professionally rewarding and personally fulfilling.

Note:

1. This section includes academic milestones attained through self-directed learning.
2. The learner shall be assigned a specific learning objective for each session.
3. The learner shall be given an assignment based on the “Desirable to know” areas of the curriculum and any other such topics as deemed necessary.
4. They shall record a detailed synopsis of the learning in this section. The student shall also record a list of the books/journals referred in Vancouver format.
5. The completion of such activity shall be recorded in this section by the learner and signed by the facilitator

12. Attitudes Ethics & Communication

The “Indian Medical Graduate” (IMG) shall possess requisite knowledge, skills, attitudes, values and responsiveness, so that he or she may function appropriately and effectively *as a doctor of first contact of the community* while being globally relevant. In order to fulfill this goal, the IMG must be able to function in the following ROLES appropriately and effectively:

1. Clinician who understands and provides preventive, promotive, curative, palliative and holistic care with compassion.
2. Leader and member of the health care team and system with capabilities to collect, analyse, synthesize and communicate health data appropriately.
3. Communicator with patients, families, colleagues and community.
4. Lifelong learner committed to continuous improvement of skills and knowledge.
5. Professional, who is committed to excellence, is ethical, responsive and accountable to patients, community and profession.

Note:

1. This section includes academic mile stones attained AETCOM learning. The learner shall be assigned a specific learning objective for each session.
2. The learner shall be given an assignment based on the AETCOM topics of the curriculum.
3. They shall record a detailed synopsis of the skill learnt in this section. The student shall also record a reflection of the learning and learning process.
4. The completion of such activity shall be recorded in this section by the learner and signed by the facilitator

13. Formative Feedback Record

Note:

1. This section captures the process of formative support of the faculty mentors of the department during the learning and at the end of each section of study / module of learning.
2. The mentor shall peruse the academic performance, progression and specific academic needs of the learner.
3. The learner shall record in this section the type of formative assessment, topic for which it was done, the performance and the feedback given by the learner to the mentor on the performance, problems in learning, remedial required if any and the feedback of the mentor.
