MASTER OF AUDIOLOGY AND SPEECH LANGUAGE PATHOLOGY

(MASLP) DEGREE EXAMINATION

FIRST YEAR

PAPER II – CLINICAL LINGUISTICS

Q.P. Code : 433002

Time : 3 hours  
(180 Min)

Maximum : 100 marks

Answer ALL questions in the same order.

I. Elaborate on :

Pages Time Marks  
(Max.)(Max.)(Max.)

- |                                                                                                      |    |    |    |
|------------------------------------------------------------------------------------------------------|----|----|----|
| 1. Connect in detail, psycho, neuro and societal bases of language acquisition through a case study. | 17 | 40 | 20 |
| 2. Describe language deficiency and reason out its factors.                                          | 17 | 40 | 20 |

II. Write Notes on :

- |                                                                                    |   |    |   |
|------------------------------------------------------------------------------------|---|----|---|
| 1. Deixis and anaphora.                                                            | 4 | 10 | 6 |
| 2. Language acquisition strategies and theoretical issues.                         | 4 | 10 | 6 |
| 3. Bring out the potentialities of left and right hemispheres of a human brain.    | 4 | 10 | 6 |
| 4. Brief on coding and decoding.                                                   | 4 | 10 | 6 |
| 5. State the difficulties in second language acquisition.                          | 4 | 10 | 6 |
| 6. What is motherese?                                                              | 4 | 10 | 6 |
| 7. Describe dialects and pidgins.                                                  | 4 | 10 | 6 |
| 8. Connect gender and language.                                                    | 4 | 10 | 6 |
| 9. Bring out the linguistic determinism.                                           | 4 | 10 | 6 |
| 10. Speak on how cultural diversity is limited with language acquisition capacity. | 4 | 10 | 6 |
